

# RUSSIAN ROCKET EN ROUTE AROUND MOON

## Lodge Indirectly Confirms Soviet Theft of Reports

New York (UPI)—U.N. Ambassador Henry Cabot Lodge Sunday indirectly confirmed a report that Soviet Premier Nikita Khrushchev bragged in Los Angeles that the Russians worked with U.S. agents in breaking a secret American code and using it to get money from this country.

A Los Angeles movie executive, Victor M. Carter, had quoted Khrushchev as saying: "Your agents in Europe and the Middle East give you your code books and then we send false information back to you through your codes."

In Washington, a Central Intelligence Agency spokesman said that when CIA Director Allen W. Dulles was asked about the codes story "Mr. Dulles laughingly reserved comment, but added that Mr. Khrushchev is quite a propagandist, isn't he?"

The CIA spokesman said that Carter reported his conversation to the intelligence agency.

Carter said Khrushchev also boasted the Russians had sent coded requests for money—and gotten it.

Lodge, asked about the story, would only say that he was present when the conversation reportedly took place during Khrushchev's Los Angeles tour.

"I was in the car," Lodge said, "and I'm sorry, this is one of the things on which I cannot comment."

He replied: "It is against the best interests of this country to talk."

Earlier in his American tour, in Washington, the Soviet Premier had boasted to Allen Dulles that "we read the same intelligence reports" from the same agents.

Meanwhile, Los Angeles County Supervisor Kenneth Hahn sent letters to Senate Majority Leader Lyndon Johnson (Tex.) and House Speaker Sam Rayburn (Tex.) demanding an investigation of the boasts.

He said that after bragging how Russia had bilked this country out of money, Khrushchev joked: "Why doesn't the United States send the money directly to Russia or save it and reduce American taxes?"

Carter said Khrushchev also boasted the Russians had sent coded requests for money—and gotten it.

Lodge, asked about the story, would only say that he was present when the conversation reportedly took place during Khrushchev's Los Angeles tour.

"I was in the car," Lodge said, "and I'm sorry, this is one of the things on which I cannot comment."

He replied: "It is against the best interests of this country to talk."

Meanwhile, Los Angeles County Supervisor Kenneth Hahn sent letters to Senate Majority Leader Lyndon Johnson (Tex.) and House Speaker Sam Rayburn (Tex.) demanding an investigation of the boasts.

## Ike Disappointed By Rejection of Steel Proposal

Palm Springs, Calif. (UPI)—President Eisenhower today expressed "keen disappointment" over union rejection of the latest management offer in the nationwide steel strike.

Eisenhower expressed the stern conviction that the American people want the steel strike, as well as the East Coast dock strike, "settled and settled fast."

Eisenhower's sentiments were expressed by his press secretary, James C. Hagerty. The President at the time of Hagerty's morning news conference was playing golf at the El Dorado Country club four miles from La Quinta where Eisenhower is vacationing.

The President was to meet with California Gov. Edmund G. Brown later today.

Hagerty shrugged at reports the president before the day was over might invoke the Taft-Hartley Law in both major strikes. The press secretary said he would leave such reports with those who distributed them, and he confined himself to an expression of Eisenhower's disappointment at the latest development in the steel strike.

After the announcement in Pittsburgh that the Wage office committee of the steelworkers union had rejected a settlement proposal by steel management, Hagerty told reporters:

"The President wants me to express his keen disappointment that there has been no meeting of minds to date to settle the steel strike through collective bargaining."

Hagerty also disclosed that the East Coast dock strike had been referred to the President by the Labor Department.

"He would insist that this strike which is tying up the ports of our country be settled and settled promptly," Hagerty said.

## Human Bones Are Found by Workers

A set of human bones—possibly those of an Indian—were unearthed during recent excavation work in the Butte Falls area, a spokesman for the county coroner's office reported today.

The spokesman said the bones were uncovered by a bulldozer engaged in digging a private reservoir on property belonging to Raphael Gardner about seven miles west of Butte Falls.

The area is not known to be an Indian burial ground but quantities of arrowheads and other signs of habitation by Indians have been found in the vicinity, the spokesman said.

## Slander Suit Is Filed in Court

Lew H. Pedersen, identified as an official of the national Brotherhood of Painters, Decorators and Paperhangers of America, has been named as defendant in a \$20,000 slander suit filed here Friday.

The plaintiff, Burton L. Carmichael, Resmore motel, Talent, is a member of the union local in this area.

The complaint, filed at the Jackson county clerk's office, asks \$10,000 general damages and \$10,000 punitive damages. It alleges that Pedersen spoke of Carmichael "falsely and with malice" before nine other persons in Medford Aug. 19, 1958.

William Briggs, Ashland lawyer, is Carmichael's attorney.

Washington (UPI)—Organized labor is moving rapidly to comply fully with the new union reform law but finds many of its provisions "puzzling," an informal survey indicated today.

## Four Die, Four Wounded in First Days of Deer Hunting

David D. Faircloth, 16, of Weston, became Oregon's fifth casualty of the deer hunting season when he was killed this morning in the Morgan mountain area about 12 miles south of Durkee. The youth's weapon discharged as he stepped from a truck, the bullet striking him in the chest.

By United Press International At least four persons died and four others were wounded in the opening week end of Oregon's 1959 deer season.

Two of the dead, a man and a woman, were shot. The other two suffered heart seizures.

Donald Wayne Hegele, 30, Roseburg, was fatally wounded by a member of his hunting party early Sunday in the Greenhorn mountains. Grant County Coroner J. Carl Driskill said Kenneth Roberts, Roseburg, fired at what he thought was a deer.

Killed by Son's Gun Vivian Elizabeth Merklung, 33, of Umatilla was killed early Saturday near Pilot Rock when struck by an accidentally discharged bullet. Police said her 15-year-old son, who was walking behind her, tripped and fell, discharging his gun.

An Eagle Point man, Samuel Meyer, 60, was found dead on a trail southwest of Lake Creek where he and three other persons had been hunting. Apparent cause of death was a heart attack.

Isaac Cole, about 50, of Heppner, died Saturday while hunting in the Blue mountains of eastern Oregon. He suffered a heart attack.

Clarence R. Neffendorf, 25, Portland, was reported in critical condition in a Heppner hospital suffering from an abdominal bullet wound. Police said it was not known who fired the shot.

William Kenneth Spees, 36, Garden Way, a community west of Eugene, suffered a severe gunshot wound while hunting on a Georgia-Pacific tree farm northeast of Springfield. He was struck just under the lung cavity. His condition is "serious," according to hospital attendants in Eugene.

A Springfield youth, Douglas Burge, was seriously wounded in the groin Sunday in a mishap near Bend. He was hunting with his father, William R. Burge, and another man.

Max Farley, 34, Sweet Home, suffered a bullet wound in one foot when his gun accidentally discharged while he was hunting Sunday.

## Plans for Safety Check Discussed

Plans for a community vehicle safety check, to be held in Medford Oct. 17, were discussed at a meeting of the board of directors of the Medford Safety Council Friday at the Rogue Valley Country club.

The safety check program will be sponsored by the Medford Lions club and the Medford Safety Council, according to Dr. Lee Mellish, Medford Lions club general chairman. The free checkup will be conducted on Tenth st., between Riverside and Central avenues Saturday, Oct. 17, from 9 a.m. to 4 p.m.

Dr. Mellish reported that two crews of six men each will be assigned to the project to provide two lanes for quick service to those who take part in the vehicle safety check.

The 10-point check program will take less than three minutes, the chairman explained, and will include checking brakes, front and rear lights, steering, tires, exhaust system, glass, windshield wiper, rear view mirror, and horn.

Uniform correct procedures will be followed by all checkers, and those automobiles passing the safety check will be issued a "Circle of Safety" membership card.

Once a check routine is worked out it is possible to check as many as 50 cars an hour, he said.

## Martinez Arrested For Burglary Here

Jose Manruba Martinez, 27, of 441 North Grape st., was in Jackson county jail today following his arrest Sunday for burglary.

Martinez was arrested in connection with the theft of firearms, carpentry tools, clothing, and other personal property Sept. 21 from the residence of Miles Hanes Williams, route 1, box 486, Eagle Point, state police reported.

Police said Martinez was to be questioned also in connection with other recent thefts in the area.

Martinez was on three years' probation following circuit court action last spring in connection with a grand larceny charge to which he had pleaded guilty, according to the district attorney's office.

## Flights To Mars, Venus Said Paved By New Success

Cigar-Shaped Orbit Expected

Moscow (UPI)—The Soviet Union's third lunar rocket was almost two-thirds of the way to its target today on a course that should swing it around the moon. A Russian scientist said it has paved the way for flights to Mars and Venus "in the immediate future."

The Tass news agency said that by noon Moscow time the "interplanetary space station" had reached a distance of 154,100 miles from the Earth. The moon is approximately 238,000 miles from Earth.

The Tass announcement said data received from the rocket "confirm the high precision achieved in putting the rocket into its orbit."

The Soviet press and radio hailed the success of the new lunar probe attempt and Russian scientists told the world the Soviet Union's space program was not aimed at establishing military bases at the moon. But one scientist, M. N. Gnevyshev, laid a basis for future space tries with his statement about the present effort paving the way for flights to Mars and Venus.

A big question remained: Will the rocket circle the moon as is intended and photograph the as yet unseen far side?

Tass said the rocket would reach its closest point to the moon at 6 a.m. p.m. Tuesday, adding that it will be 4,300 miles from the moon.

The Soviets had indicated that the rocket would photograph the far side of the moon and transmit pictures of it back to Earth by radio signal. 2½ Days of Travel

When the rocket reaches the vicinity of the moon Tuesday afternoon, Tass said it will have taken about 2½ days to cover the distance from Earth.

This is longer than the time taken by either of the previous Soviet moon rockets—the first launched last January and the second last month.

This is because the third rocket, launched Sunday morning, has been given a slower speed so that it can orbit around the moon and return in the direction of Earth, Tass said.

The next progress report sent back today was to be released tonight.

It said future reports on the movement of the rocket and the results of scientific observations would be released once every 24 hours after each period of transmission from the rocket itself, and after the data has been analyzed.

At the Jodrell Bank Observatory in England, Dr. J. C. Davies said interest there centered on what course the rocket would take if it passed behind the moon.

He said it might return to Earth and burn up in the atmosphere, but that the Russians obviously hoped it would go into a long cigar-shaped orbit around the Earth and continue circling.

## Administration Rapped for Stand On Unemployment

Washington (UPI)—The AFL-CIO predicted today that another recession will occur in the next few years "if the current drift of national economic policies and developments is not halted quickly."

The prediction was made before a special Senate committee which opened an extensive investigation into why the United States has heavy unemployment in an era of general prosperity.

The labor organization charged that policies adopted by the Eisenhower administration have "slowed down the advance of the economy"

and caused heavy unemployment in a period of general prosperity.

But the U.S. Chamber of Commerce said "a certain amount of unemployment is normal and inevitable." It said the government could not possibly eliminate all unemployment "not is it feasible to attempt to do so."

The special Senate committee was created in the closing days of the recent congressional session to study unemployment.

Andrew J. Biemieller, AFL-CIO legislative director, told the committee that administration economic policies were "specifically designed to curtail economic growth and the creation of new job opportunities."

New Recession Possible The policies represent a threat that the current upturn from the 1958 recession may be soon undermined and the basis for a new recession established," he said.

Biemieller said the fact that almost 3.5 million workers, or about five out of every hundred, were unemployed in August "is one of the many sad commentaries on these times of government complacency."

However, Walter D. Fackler, spokesman for the U.S. Chamber of Commerce, warned that "in seeking remedies to one set of problems, we must always be careful that we do not create others, perhaps worse, problems." He said the government programs often "turn out to be the worst possible long-term ventures."

## Israel Challenges Arab Republic

United Nations, N. Y. (UPI)—Israel challenged the United Arab Republic today to negotiate a Palestine settlement "any time and any place."

The challenge was issued in the U. N. General Assembly by Arthur Lourie, chief of the Israeli delegation, after U. A. R. Foreign Minister Mahmoud Fawzi said the Suez Canal would be opened to Israel's shipping when the rights of the Palestine Arabs were recognized "fully and actually."

Lourie, Israeli ambassador to Canada, took the floor on the right of reply after Fawzi had denounced Israel and "political Zionism" and said "the original sin is the plunder of Palestine from the Arabs."

Circuit Court Hearing Continued One Week The continued hearing on a show cause order in connection with the Eagle Point Irrigation district's injunction suit against Howard and Ann Todd has been postponed to next Monday, Oct. 12.

Circuit Judge Edward C. Kelly, in whose court the hearing is being held, explained that other court business has taken precedence.

## Neuberger Sees State Recognition, Added Revenue With Seashore Park

Newport—Establishment of a National Seashore park "at last will give the majestic Oregon seacoast the national recognition which it deserves," Senator Richard L. Neuberger told the annual meeting of the Oregon Coast association at Newport Sunday.

Neuberger, the state's junior U.S. Senator, is sponsor of a Senate bill to create a 35,000-acre seashore recreation park in the Oregon Dunes area near Reedsport and Florence. It also would include the famous Sea Lion Caves.

"Oregon has the most magnificent shoreline in the nation," Neuberger said. "Are we willing to see national seashore parks set up in Texas, Massachusetts, Michigan and Indiana while Oregon is left out in the cold? National parks bring wide advertising, promotion and heraldry to ever state in which they are located. In August of this

year, units of the park system had their biggest month in history."

Neuberger told his audience that he had just received an economic report on the proposed Oregon Dunes National Seashore from the Department of the Interior. This report, Neuberger continued, "disclosed that by the year 1990 income to the area without the National Seashore would be \$8,256,000 but, with the National Seashore, would soar to \$26,418,000."

Neuberger declared that he was "absolutely amazed and bewildered" by the vigorous opposition to the Oregon Dunes National Seashore voiced by Gov. Mark Hatfield.

"One might logically assume that the distinguished governor of our state would be putting forth every effort to secure this park for us, rather than to discourage and downgrade it," Neuberger added.

# Medford Stores Open Until 9 O'Clock Tonight

Medford stores are open until 9 o'clock tonight. This is the last day of the year when stores are allowed to stay open until 9 o'clock. After this date, stores must close at 8 o'clock.
