Thank You For 14 Years Of Good Luck!

Here's how our first store looked — in October, 1945.

The war was just over when Ole Alenderfer and Dick Finch opened a store . . . the Home Appliance Co. People liked this store, the products it sold and the people who sold and serviced them.

Soon Home Appliance Co. was selling and servicing 1/2 of the appliances in the county,

and the organization grew to include five stores serving four cities.

Through this month, values such as the ones shown here will help mark our appreciation for the reception we have had from Southern Oregon people.
