Here's What Makes
Amana
Stor-More Freezers Best

Fact No. 1

Amana reserve power and efficiency brings zero degree temperature faster and safer than all others tested... because Amana is designed and built to be a true food freezer, not just a "holding cabinet" that "feels" cold.

Fact No. 2

Amana maintains an even degree temperature because Amana has 6 fast freezing surfaces. All foods are directly on or below these FAST FREEZING SHELVES. True, consistent zero degree temperature protects your foods from TEMPERATURE DAMAGE.

Fact No. 3

Amana has uniform food storage temperature. Many others have long running cycles which indicate lack of freezing capacity. Amana insures "locked-in" nutritional values because of TRUE ZERO degree temperature throughout.

KEY TO SAFE FOOD PRESERVATION"**
