Contract Ends Shipyard Strike

San Francisco (UPI) — The seven-week old west coast shipyard strike ended Saturday as 15,000 workers from the San Francisco bay area to the Canadian border were told to go back to work today.

Marine carpenters voted acceptance of a new three-year pact granting 39 cents an hour in wage increases.

Earlier last week, contract terms for other unions involved in the strike were accepted. Members of the International Association of Machinists and the United Steel Workers local 1304 ratified their pacts Saturday morning. The new carpenters' contract calls for an immediate 10-cent hourly pay boost with 17 cents more to be granted workers in 1960 and 1961. The other 12 cents came in added fringe benefits, mostly in increased pension fund contributions.

It was an identical contract to one accepted by Metal Trades workers who also struck the shipyards, but signed a new pact two weeks ago.

Scientists Question Soviet Lunik Claim

Cambridge, Mass. (UPI) — Officials of Smithsonian Astrophysical observatory said Saturday that Soviet Russia's Lunik III satellite did not actually circle the moon, as claimed. Data from undisclosed "Russian sources" showed that the rocket passed three hours behind and beneath the path of the moon, according to an announcement by Dr. Charles A. Whitney, research chief at the observatory. Dr. Whitney said he did not disagree with the Russians' claim their vehicle passed within 4,357 miles of the moon but that he did disagree with the claim the lunik orbited past and just behind the moon.
