

Local and Personal

Meeting—Delmar Smith of Central Point will speak at a meeting of the Applegate Valley Garden club at the home of Mrs. Lance Offenbacher at 1:30 p.m. Wednesday, Oct. 21.

Bazaar—The Olive Rebekah lodge will sponsor a bazaar at the Home Appliance, East Main st., Wednesday, Oct. 21, from 9:30 a.m. to 4 p.m. A variety of items including fancy work will be available.

Sale Planned—Central Point Home Economics club will hold a rummage sale Wednesday, Oct. 21, at the Grange hall from 9 a.m. to 4 p.m. The rummage, plants and "white elephants" will be on sale.

Dog Kills Chickens—Rose May Bonesteel, 625 Franquette st., Medford, reported that a dog entered her yard and grabbed a large rooster Monday. She added that the dog had killed her chickens on several occasions.

Signs Found—Max Lowell Brookman, 212 South Grape st., Medford, reported to Medford police that he found two traffic signs Friday behind 212 South Grape st. One is a "road closed" sign and the other a "stop" sign.

Losses—Leonard Ivan Douglas, 263 Berrydale ave., Medford, reported to city police that he lost his wallet Friday near the Smith Dyne lumber company, 102 South Fir st., Medford. The brown leather wallet contained numerous papers and identification.

Receives Treatment—Medford police learned that Alan Elliott Trickett, 7, son of Blaine Elliott Trickett, 501 Summit ave., Medford, was treated for a bite on his right thumb. The boy leaned over a fence to pet a dog at Summit and Fairmont sts., and was bitten, they said.

Warn Boys—A Medford policeman Sunday warned two 12-year-old boys about shooting slingshots into traffic in front of 918 Stewart ave. Norman Lavern Courtright, 708 Cedar st., Medford, complained to police that one of the boys hit his car with a rock from a slingshot, chipping the paint.

Driver Cited—Melvin Pinheiro, 40, of box 336, Eagle Point, was cited by Medford police Monday for improper lane usage, following an accident involving his car and a pickup truck driven by Gordon Lynn Westwood, 40, of 735 Midway rd. No injuries were reported.

Window Broken—Harold LeRoy Sieg, 2624 Walden place, Medford, reported to Medford police Monday that a boy with an air rifle broke a window in his home. The mother of the 12-year-old boy said she would pay for the window. She and the boy were warned by Medford police that it is illegal to shoot air rifles within the city limits.

Two Car Collision—A car driven by Frank Ray Martell, 52, of 2069 Broadway st., North Bend, Ore., had stopped at the intersection of North Riverside ave. and Edwards st., Sunday, when his car was struck in the rear by one driven by Thomas Leroy Davis, 31, of Evershard auto court, Phoenix. Davis was cited for following too close, police said.

Jayettes—Medford Jayettes will meet Wednesday, Oct. 21, at 8 p.m. at the home of Mrs. Charles Henry, 340 Lindero ave. Mrs. Richard Greer will be cohostess.

Finds Glasses—Arthur Edward Carlson, 603 King st., Medford, reported to Medford police Saturday that he found a pair of child size glasses in front of 603 King st., Medford.

Bicycle Stolen—James Paul, 1076 Stewart ave., Medford, told Medford police that his son's bicycle was taken from the Washington school Monday.

Applies Taken—Leone Mabel Crawford, route 4, box 426, Medford, told police that a 22-pound box of apples was taken from the rear seat of her car Monday while it was parked on Tripp st.

Window Broken—Eleanor May Harris, 22 South Columbus ave., Medford, reported to police that someone threw a rock through a window of her residence Monday.

Bicycle Missing—Delma Ruth Bates, 1124 West Eighth st., Medford, told Medford police that her son's bicycle was taken from St. Mary's school Monday. A policeman learned the bicycle had been put away because of improper parking.

Grants Pass Man Hurt in Accident

Hans William Olson, 24, of 2351 southeast N st., Grants Pass, was taken to Sacred Heart hospital early Tuesday with possible back injuries and cuts and bruises following an accident on north Riverside ave. between Austin and Edwards sts., Medford police reported.

Police cited Olson for violation of basic rule. Olson's car struck a parked truck and trailer, police said. The truck driver, Herbert Martin Allen, of Portland, Ore., said he parked the vehicle on north Riverside ave. and went to a motel.

Servicemen

IN KOREA
Pvt. Sidney Peterson, son of Mrs. Bessie Peterson, Prospect, is serving with the 13th Engineer infantry division in Korea. He received his basic training at Ft. Ord, Calif., and Ft. Hood, Tex., prior to going overseas.

RETURN FROM TOUR
Three valley Navy men recently returned to San Diego, Calif., after a six-month tour of duty with the U. S. Seventh fleet in the western Pacific.

Serving aboard the radar picket destroyer USS Rogers is Roger E. Carrigan, radarman seaman, son of Mr. and Mrs. Gene B. Carrigan, 172 Freeman rd., Central Point. Aboard the destroyer USS Agard is Joe T. Anderson, radarman seaman, son of Dr. R. S. Anderson, 1103 Queen Anne ave., Medford, and Ralph W. Gillaspie, seaman, of route 1, box 252, Central Point.

COMPLETES COURSE
Army Pvt. Jimmy L. Minor, son of James A. Minor, 405 Beatty st., Medford, recently completed a typing and clerical procedures course at Fort Hood, Texas. Non-commissioned officer academy.

Minor, who attended Ashland High school, was employed by Omar's Restaurant prior to entering the service last February.

SOFT SOAPED
Chicago—UPI—An Ohio factory "soft soaped" it employees into cutting down accidents. The National Safety Council said the factory passed out free bars of soap to all employees with the slogan "Keep Your Safety Record Clean."

An average American housewife opens the door of her electric refrigerator about 62 times a day.

Essay Contest to Close Oct. 22

"Is juvenile delinquency a serious problem in Jackson county?" is a question being answered by the youth of the valley in the annual essay contest sponsored by the local Moose lodge as part of its youth honor day program.

Entries in the contest will be judged on style, content, and form, and winners will be selected from entries submitted by boys and girls. Winners will reign as king and queen program and each will receive a \$50 savings bond.

Details of the contest may be obtained from Chairman Don Darnielle at Spring 3-4513. The contest closes Oct. 22.

Completing the program for Oct. 31 will be a dance for all teenagers at the Medford armory. Admission charge will be a pledge that no property shall be destroyed or damaged during the Halloween season, Moose lodge members said.

Oregon Cities Convention Opens

Portland—UPI—The 34th annual convention of the League of Oregon Cities opened here Monday. Some 500 mayors, city managers and other officials are attending.

Among predictions of benefits for public employees in 1965 were a 35-hour week, highly competitive salaries, unlimited sick leave and accident and health insurance paid for.

Such benefits will be obligatory if governments are going to have efficient work forces on the local level, according to Kent Mathewson, city manager of Salem.

Gov. Mark Hatfield told delegates that the financial ills of many Oregon cities that come back year after year can't be solved by depending on "big brother"—meaning the state government—in Salem.

He said the solution may be in remaking the city government structure.

The world's largest callily field, containing more than 25 miles of sprinkler pipe, is at the base of San Bruno Mountain south of San Francisco.

Obituaries

WILLIAM E. MUIR
Funeral services for William E. Muir, 58, of Galls Creek, who died Oct. 11, will be held at Conger—Morris Funeral home Thursday at 10 a.m. The Rev. Harold Sanner of the First Nazarene church will officiate. Committal will be in Hillcrest Memorial park.

Mr. Muir was born June 11, 1901, in Chicago. He operated a Texaco service station in Portland.

Survivors include his wife, Kathryn E. Muir, Oakland, Calif.; a daughter, Mrs. Betty Jean Pratte, Englewood, Calif.; a sister, Mrs. Esther Conroy; and several grandchildren.

EDWARD J. SNYDER
Edward J. Snyder, of North Bend, died in a local hospital Saturday. The body was forwarded Saturday to Coos Bay by Conger-Morris, funeral directors.

Mr. Snyder was born July 21, 1886, in Hays, Kan., and was employed as a mill worker at Coos Bay.

Interment will be in Sunset Memorial park, Coos Bay, under the direction of Watkins Funeral home, North Bend.

WILLIAM A. LACY
William Arnet Lacy, 90, of 131 South Second st., Central Point, died this morning in a local hospital. Funeral arrangements will be announced by Conger-Morris, funeral directors.

ROBERT A. MCFARLANE
Robert A. McFarlane, 211 Harrison st., Ashland, died last night in the Ashland hospital on his 86th birthday. He had been a resident of Ashland for the past 11 years. Funeral arrangements will be announced by Chapel Mortuary.

RICHARD HART
Richard Wayne Hart, 46, of 1370 Poplar dr., a warehouseman for the U.S. department of agriculture in Medford, died unexpectedly yesterday after being taken to a local hospital.

Funeral services will be held at 2 p.m. Thursday in the First United Presbyterian church with the Rev. D. Kirkland West officiating. Chapel Mortuary is in charge of arrangements.

HENRY TENKOTTE
Henry J. Tenkotte, 86, formerly of 323 Mary st., and a resident of Medford for the past 10 years, died in a local hospital last night. Funeral arrangements will be announced by Chapel Mortuary.

Air Pollution Problems in Area Discussed by Valley Engineers

Medford has an air pollution problem and at times a serious one, Richard Hatchard of the Oregon State sanitary authority, said last night.

Hatchard told a meeting of the Rogue Valley section of the Professional Engineers of Oregon in the Medford hotel, "We must be more careful in discharging particle material over Medford. Open burning is a general and obvious source of air pollution," he said.

The official, now attached to the pollution division of the state sanitary authority, explained after the meeting that the report on the joint Medford-State study will be finished soon. Promotion of the engineer working on the study has delayed the report, Hatchard said.

Area-Wide Problem
Hatchard said we must recognize that an area-wide problem of excessive discharge of particles exists, and that under certain conditions there is an excessive concentration of these particles.

The ability of the atmosphere to ease the problem is limited in some periods by low wind velocity, and low ceiling which makes vertical mixture impossible, he said.

"We must emphasize that the technical solution to Medford's air pollution problem is available, but this solution involves certain economic problems and proper planning," he noted.

Hatchard said from reports he has read as an engineer, health problems are tied in with air pollution problems.

Matter of Time
"It's merely a matter of time until the correlation is definitely known," Hatchard remarked.

Voluntary anti-pollution controls should be encouraged, but Hatchard urged an anti-air pollution ordinance be adopted for Medford similar to Eugene's. Since air pollution does not stop at political boundaries, an air pollution district covering both Medford and outlying areas might be established, the engineer suggested.

Enabling legislation would have to be passed by the state legislature before such a district could be set up, he explained.

"The county needs home rule government to establish such regulations as anti-air pollution ordinances," Paul Rynning, Jackson county engineer, said. "Until then, the county is merely a child of the state."

Other Subjects
Other subjects covered at the meeting included pollution from lumber mill waste burners, orchard heaters, the garbage dump near Jacksonville and comparison of Medford's situation with that of Los Angeles.

Hatchard emphasized that equipment, knowledge, and engineering are all available for solution of the air pollution problem. He explained the joint city-state study has been made since early in the year to define just what is in Medford's air.

He broke the study down into two main parts: analysis of the particle fall-out and the fine suspended particles. The air pollution measuring station atop city hall measured particle fall-out at more than 20 tons per square mile 80 per cent of the time. This is more than the nuisance level, which is 20 tons per square mile or more, he noted.

Other Stations
Checking other measuring stations, researchers discovered seven of the 10 indicated more than the nuisance level of particle fall-out 20 per cent of the time. The three stations which did not were east and southwest of Medford.

Hatchard explained that during the orchard heating season in April the fine suspended particles had a density of 480 micrometers per cubic centimeter. The air was clearer of these drifting particles from April through August. Although clear air visibility may be less frequent, this type of particle is not a continuous problem after May, June and July, Hatchard noted.

Temperature inversions or low ceilings occurred 89 days of 365 days, according to 1958 U. S. weather bureau records compiled at the Medford station, Hatchard reported. During the same months of temperature inversion wind velocity measured from 3 to 3.5 miles per hour. This occurred in October through December.

Citizen pressure and air pollution measurement may determine how fast lumber mills check wood-burner air pollution, Hatchard said. Some mills in the Medford area have done "a rather complete job," he noted.

20 Per Cent Replacement
A 20 per cent replacement per year of the more smoke producing open orchard heaters is being sponsored by the Jackson County Fruit Grow-

ers League, Hatchard said. This program involves the "thorny issue" of voluntary cooperation among the growers, he admitted.

The garbage dump is generally well located and does not cause a valley air pollution problem except over Jacksonville, Ted Gerow, also of the state sanitary authority, told the professional engineers.

From his observations, he said, the dump smoke leaves the valley, then drifts back over Jacksonville "until the citizens there have had enough, then leaves."

The dump operators, the City Sanitary Service, are trying to locate some land-fill spots for dumping garbage, he added. However, the move to the Jacksonville area is better than the former Barnett rd. site which was a nuisance to the general area. Continued burning in the early morning should lessen the smoke problem, Gerow added.

Legal Battle Seen Shaping Up Over Flynn's Estate

Hollywood—UPI—A legal battle apparently was shaping up today over the estate of Errol Flynn and the "protégé" of the dashing actor, Beverly Aadland, 17, who had a fling with Flynn at the San Francisco home of the attorney she has retained to protect her "interests" in the estate.

"We were trying very hard to get the parts in 'Lolita,'" said the blonde teenager in discussing the story of a middle-aged man and his young girl friend at the San Francisco press conference Monday.

Plans To Write Book
She said her future plans call for writing a book on her life with Flynn. She also was studying an offer from the London Daily Sketch of \$15,000 for a story of the relationship.

Miss Aadland would not comment on any plans to claim part of the actor's estate but smiled and said, "that's one thing we both had hoped for," when asked if she is pregnant.

The glamour-laden actor, who died of a heart attack at 50 in Vancouver, B.C., last Wednesday and was buried here Monday, was believed to have left at the most about \$1 million despite lifetime earnings of more than \$10 million.

The impending court action looms between the children and Miss Aadland. The children are Sean, 18, by Flynn's first wife, Lily Damita, Deirdre, 15, and Rory, 13, by his second wife, Nora Eddington, and Annella, 6, by his estranged wife Patricia Wymore.

Attorney Silent on Plans
Miss Aadland's attorney, Melvin Belli, refused to reveal if he planned litigation on behalf of his client. "It is a little too early for that," he said.

In contrast to the actor's stormy life, his funeral was a solemn affair attended by about 500 mostly elderly persons at Forest Lawn's Church of the Reformation.

Memorial Rites Held for Sawyer
Bend—UPI—Memorial rites were held in the Deschutes county courthouse here Monday for the late Robert W. Sawyer, former editor and publisher of the Bend Bulletin and well-known naturalist and conservationist.

Principle speaker was former Gov. Charles A. Sprague of Salem, publisher of the Oregon Statesman. Sawyer died here last week at 79.

"For Mr. Sawyer's monument," Sprague said, "look about you and you see it in an attractive and well ordered city, in a newspaper still vital, in a hospital blessing the community through the ministry of its healing, in highways that lace county and state, in resources wisely conserved for beauty, and in use in lands kissed by water into productivity for the centuries."

Portland Hay
Portland—Wholesale Hay Prices: Crop No. 2, 2nd grade, alfalfa, baled, 50-60 lbs., Portland and Seattle, \$36-38 ton; some to \$40 at Portland.

Weather
FORECASTS
Medford and vicinity: Increasing cloudiness tonight and Wednesday. Occasional light rain. Low tonight, 43. High Wednesday 65.

Western Oregon: Mostly cloudy tonight. Occasional rain north half. Scattered showers in south portion Wednesday. Little cloud, 44-52 low tonight. High Wednesday 56-66.

Northern California: Increasing cloudiness tonight. Cloudy Wednesday with light rain likely Fort Bragg and Mt. Shasta northward. Little change in temperature.

LOCAL DATA
TEMPERATURE: Mean yesterday 52; below normal 2 degrees. Record high this date 80 in 1938. Record low this date 33 in 1949.

PRECIPITATION: 24 hours to midnight, .02 inch. Midnight to 10 a.m. .03 inch. Total this month 28 in. 76 inch below normal. Total since Sept. 1, 57 inch, 1.12 inch below normal.

Different Problem
Hatchard said the Los Angeles air pollution is entirely different from Medford's problem. The gases problem there is similar to Portland's. For a 2 million population plus city, Los Angeles is comparatively a clean city, he noted.

Car exhaust is now a main air pollution problem. Enforcement of an air pollution ordinance is never quick in early cases, Hatchard said. He urged persistence in demanding the change-over.

In answer to a question, Hatchard said total odor rejection from pulp mills is not economically feasible now. Eventually this will be possible, he added.

The engineers agreed to consider a committee to study the air pollution problem. This and a resolution to back anti-air pollution study and enforcement will be considered at the December meeting.

No Letup in Khrushchev Peace Drive Expected

London—UPI—Western observers today saw no letup in Soviet Premier Nikita S. Khrushchev's "peace drive" despite the expulsion of the security officer at the American Embassy in Moscow in an incident reminiscent of the Stalin era.

Diplomats were surprised, even shocked, by the kidnapping and arrest of Russell Langelle and his ouster by the Soviets on charges of espionage. But they tended to regard the incident as an isolated episode rather than any switch to the methods of the cold war.

Desire to Get Along
All signs, in the belief of officials here, still point to a continuation of the "spirit of Camp David," as far as Khrushchev is concerned, coupled with a genuine desire on his part to get along with the West.

The Langelle incident jolted officials here. However, they did not regard it as any indication of a switchback to cold war tactics.

The general British view was summed up in an editorial in the Times of London which said Monday, "The incident is a sign that the Russian police services are still strong. It is probable that the affair was due to the momentum of the machine rather than any deliberate decision by the government."

Neuberger Held Afraid To Debate

Corvallis—UPI—Republican State Chairman Peter M. Gunnar said Monday that Sen. Richard Neuberger (D-Ore.) was afraid to debate with him on television on the issue of proper campaign methods and techniques.

Gunnar invited the TV debate a week ago. Neuberger declined saying "it would seem that a more appropriate opponent for me to debate campaign methods would be your opposite number in the Oregon Democratic party, Mrs. Beulah Hand."

Mrs. Hand is acting party chairman. In calling for the debate, Gunnar said Neuberger had been trying to "blacken my political reputation" for the past several weeks. He accused Neuberger of "hiding behind the skirts" of Mrs. Hand.

Over-the-Counter Western Stocks

Small Worlds Around Us

By Lynn M. Watkins

Indians Had Their Spirits—We Have Our Machines

The early American Indians knew nothing about earth-orbiting satellites. The only part of celestial astronomy they were interested in was the light of the full moon when it bathed the wilderness with brightness.

Probably they were intrigued by the twinkle of the stars; the fact that they based so many of their legends on those pin-points of the night sky is proof positive they did gaze with awe on the star-studded sky.

To the savage mind natural phenomena associated with the unknown, therefore they reasoned it had to do with "spirits." Those simple people may have been savages with childish beliefs, but they possessed vivid imaginations; they came up with some really beautiful ideas.

Worldly Possessions Buried

The wind, too, was a mysterious force that came from nowhere and apparently went back the way it came. But it was a presence, a something that pressed against them, that rustled the leaves of the forest, but it had no substance. So, it must be a spirit.

When the lightning came, ripping the sky apart, followed by the terrific boom of the thunder that shook the forest as by a mighty hand, the primitive thought the "spirits" were angry or displeased. They waited in fear, these children of the forest, hoping the sun, the "goddess with the golden hair" would soon come to dispel the darkness and appease the "storm-spirit."

Hunger Moon
During the "hunger moon," the time of famine when their world was a snow-covered, when game was scarce and their stomachs cried for food, they believed the "frost spirit" held the world in an icy grip and was displeased with his people.

The spirits, both good and evil, that dwelled in the savage mind were just as real to them as our heroes are to us. Today, in this enlightened world, we point with pity as well as scorn at the stupid ignorant beliefs of a people who worshipped trees, or rocks, or believed that "spirits" occupied the waters or walked the sky. We are much more sophisticated—we worship machines.
