# London Being Rebuilt in Same Way It Was Bombed—Haphazard

By GREGORY JENSEN  
United Press International  
London—UPI—The Germans bombed London in a haphazard, piecemeal way. Planes, buzz bombs and V-2 rockets indiscriminately peppered the sprawling city with destruction. London is being rebuilt in the same way—haphazardly and piece by piece. Architects shudder at many of the new buildings. Civic planners are appalled. Buildings are springing up with no overall plan and in architectural styles that defy description. The rate of construction in London today is greater than at any time since the war. And the job is far from finished.

**REBUILDING PROGRESS**—This panoramic view, from St. Paul's Cathedral, shows the progress which has been made in rebuilding parts of London which were badly damaged during World War II. The Ger-

mans bombed London in a haphazard, piecemeal way. London is being rebuilt in the same way—haphazardly and piece by piece. —(UPI Telephoto)

**London's ordeal began Sept. 7, 1940.** On that Saturday the German Luftwaffe set out to destroy what was then the biggest city in the world. The attacks came almost daily until May 11, 1941. Later in the war, pilotless V-1 and V-2 weapons renewed the destruction.

**Reconstruction had been going on for 15 years,** but even today ruins can be found in almost every section of the metropolis. Bombsites gaps in the busiest of business sections. Yet, the amount of rebuilding has been staggering. In all of Britain, 3,245,676 new houses and apartments have been built since the war, and a big chunk of them are in London. New office buildings have risen, too, in every part of the city.

**Nearly all the new buildings are variations of the box.** Critics deplore their lack of originality, of experiment, of esthetic solutions to architectural problems.

**Reconstruction had been going on for 15 years,** but even today ruins can be found in almost every section of the metropolis. Bombsites gaps in the busiest of business sections. ## Quotes From the News

**By United Press International**  
Chapel, Hill N.C.—President Sekou Toure of Guinea, asserting that his young African nation considers the distinction between "free and colonial people" more important than the difference between East and West: "You can't ask a poor man to choose between the gold and diamonds he finds in New York or Moscow. He must take them where he finds them and do the best he can."

**Knoxville, Tenn.**—Edgar K. Kaiser, president of Kaiser Steel Corp., explaining that he signed a separate agreement with the United Steelworkers Union to avoid sending strikers back to work under an injunction: "I don't want an arbitrator or a court to do my business."

**Chicago**—John D. Southworth, son-in-law of missing Federal Judge W. Lynn Parkinson, speaking of Parkinson's mysterious disappearance: "What makes it so bad is that he was a man of such routine that you could set your clock by him."

**Washington**—President Eisenhower, expressing dismay over Cuban Premier Fidel Castro's bitter attacks on the United States: "Here is a country that you would believe, on the basis of our history, would be one of our real friends."

## Former Ambassador Said Critically Ill

**Washington**—UPI—Walter Bedell Smith, retired four-star general and former ambassador to Russia, is reported critically ill at Walter Reed Army hospital. A hospital spokesman said Wednesday the 64-year-old former diplomat and military leader was "critically ill from pneumonia and lung abscess." He was admitted to the hospital Oct. 13.

## Great Books Group To Meet Monday

**The Medford Great Books discussion group plans to open its second year of meetings next Monday, Nov. 2, at 7:30 p.m. at radio station KMED. The meeting will be for organizational purposes, and to discuss and lay plans for the 1959-60 year. Anyone interested in the Great Books program is invited to attend. Last year, the group varied between 10 and 30 persons in**

## Wall Street Chatter

**New York**—UPI—The vision of good things to come in the 1960s remains undimmed in the investment mind, says W. E. Hutton & Co.

**Nearby and intermediate uncertainties** resulting from the steel strike, tight money and other situations are regarded widely as being merely temporary restraining factors, Hutton notes.

**Stock Trend Service** recommends sale of Chrysler and Container Corp., and purchase of Martin Co.

**Reynolds & Co.** says the sudden interest in Sheraton Corp. is due to belated recognition of the company's impressive past record. "Total assets are now \$350 million and by the end of the present fiscal year may be close to \$400 million."

**The Fitch Survey** cautions investors to adopt "an increasingly selective" approach for investment purposes, with commitments urged only where "sound statistical determinants" are present, and where values have been temporarily deflated by the impact of recent unsettlements.

**Spear & Staff** advises purchase of Hagan Chemical, White Stores, Gillette, American Electric Power, American Machine & Foundry, Marine Midland, and Monsanto Chemical.
