Salem — (UPI) — An unusual experiment in studying the work load of a group of professional state employees will be conducted by the Justice Department, Attorney General Robert Y. Thornton has announced.

Thornton indicated the results of the study might call for more reorganization of departmental procedures and budgeting.

Plans for a three-months' detailed analysis of time spent by assistant attorneys general in behalf of various state agencies and departments were discussed at a justice department staff conference recently.

There has never before been a large scale time-study or efficiency study of professional workers in state government, Thornton said.

Ashland Man Is Named to Rural Board in County

Ben Lombard, of Ashland was appointed by the Jackson county rural school board Thursday to represent Zone 5. Alf B. Mekvold, county school superintendent, has announced.

The zone had consisted previously of Talent, Ashland and Pinehurst districts. Following consolidation of Talent and Phoenix districts, Clarence Holdridge, Talent, became ineligible to represent Zone 5. Mekvold explained.

Lombard previously had been a member-at-large on the rural board, but had resigned to qualify as a representative of Zone 5. Since Lombard's resignation vacated the member-at-large position, the board filled the vacancy with the appointment of Holdridge as a member-at-large to the board, instead of making him a representative of any particular zone.

The appointments are effective until the first Monday in May, 1960, the date of the next annual school meeting and election.

Appointments as Shown

"By handling the appointments as shown the rural board was able to keep the members elected by the people until the people can elect new members at the next annual school meeting," Mekvold explained.

Positions to be filled by election at the annual school meeting in May, 1960, include: Zone 1, consisting of districts 6, 35, and 62, for a regular three-year term; Zone 2, consisting of district 549, to fill an unexpired term for one year; Zone 3, consisting of districts 9, 59, and 91, election for a two-year term; Zone 5, consisting of districts 5 and 94, election for a one-year term; one member-at-large for a two-year term.

Two remaining members are Mrs. Jeanette P. Grove from Zone 4 consisting of district 4 and 40, whose term expires in May, 1962, and Sam Harbison, member-at-large, whose term expires in May, 1961.

Aid to Medical Schools Proposed

Washington — (UPI) — A special advisory group Saturday advocated a crash program of government and private medical school aid to prevent a serious shortage of doctors and dentists by 1975.

Their report to U.S. Surgeon General Leroy E. Burney declared drastic action must be taken immediately if the supply of doctors and dentists is to cope with the nation's fast-growing population.

The 12-man group on medical education was created by Burney towards the end of last year. It was headed by Frank Bane, executive director of the council of state governments.

The group recommended that the federal government pour half a million dollars over the next few years into the building of some 20 new medical schools with the states putting up an equal amount.
