

Western World Welcomes Ike's Proposed Jaunt

London—UPI—The Western world today warmly welcomed President Eisenhower's nine-nation tour and Prime Minister Jawaharlal Nehru of India said he hoped to use the occasion to discuss Communist Chinese invasions of the Indian border.

Western diplomats thought the Eisenhower visit would strengthen Nehru in his quarrel with Peiping. Only Wednesday Nehru rejected Peiping's claims to large areas of her northern territories and denied Red Chinese assertions the Indians provoked recent border clashes.

No Comment by China

Communist China, which would be expected to be annoyed at the Eisenhower visit, made no immediate comment. A bare announcement of the Eisenhower visit was carried by the Communist New China News Agency.

The Soviet Union also heard the announcement without comment but observers in Moscow said Premier Nikita Khrushchev probably would be "pleased and flattered" at Eisenhower's undertaking because of Khrushchev's own belief in personal diplomacy as a means of easing world tension.

Would Welcome Nikita

There have been reports Khrushchev also might stop off in India when he visits Indonesia early next year but Nehru said today in New Delhi he would welcome him although Khrushchev was neither invited nor expected.

Diplomats and newspaper editorials throughout Western Europe and in many places of Asia and the Middle East praised Eisenhower as a man of peace. In India the Eisenhower trip drew banner headlines and glowing editorials.

Wall Street Chatter

New York—UPI—A basic fact of investment life is that in a free market rewards tend to equal risks, notes J. B. Willison and Beane in its monthly marketing letter.

What many investors fail to see in a bull market, the firm points out, is that the rewards, in the form of rising prices, compensate for past risks of their own.

Harris, Upham and Co., in a field report on Harris-Inter-type, says the company's common stock "should be an attractive long-term investment" at current levels.

"It is our belief that any minor reactionary trend will become a vital part of an intermediate-term market bottom, the vortex of which centers in mid-September," says stock trend service.

Barrons comments on stock market prospects: "The outlook is for a material upswing in business spending and this... together with an abundance of favorable dividend actions, argues against an abrupt loss of investor confidence in equities in months immediately ahead." However, selectivity is likely to continue to be greatly in evidence, it adds.

Deadline to Get Vet Bonuses Nears

The deadline for applying for war veterans' bonuses in Washington, Montana and Louisiana is Dec. 31, Jerry V. Biondini, Jackson county service officer said today.

The Washington bonus is being paid to its Korean veterans who were residents of that state for one year immediately prior to military service and who served for 90 days or more between June 27, 1950, and July 26, 1953. Applications are available from county service officers or the department of veterans' affairs in Oregon, or by writing the state auditor, Olympia, Wash.

The year-end deadline in Montana affects World War II veterans who were residents of that state at the time of entering active duty, and who served between Dec. 7, 1941, and Sept. 2, 1945. Applications should be made to adjusted compensation division, box 912, Helena, Mont. The Korean veterans' bonus deadline in Montana is July 28, 1961.

The Louisiana bonus is for Korean veterans who were residents there at the time they enlisted and who served between June 27, 1950, and July 26, 1953. Applications may be obtained from county service officers or the state veterans' department in Oregon, or by writing the department of veterans affairs, Old State Capitol, Baton Rouge, La.
