

Porter's Stand on Red China Rapped

Portland - (UPI) - Dr. Paul Dull, University of Oregon professor of East Asian history, took a verbal dig Friday at Rep. Charles O. Porter (D-Ore.), now on a Far Eastern tour, for Porter's attacks on this country's policy regarding Communist China.

Dr. Dull told the Portland City club that Porter's remarks are "a curious mixture of criticism and cliches."

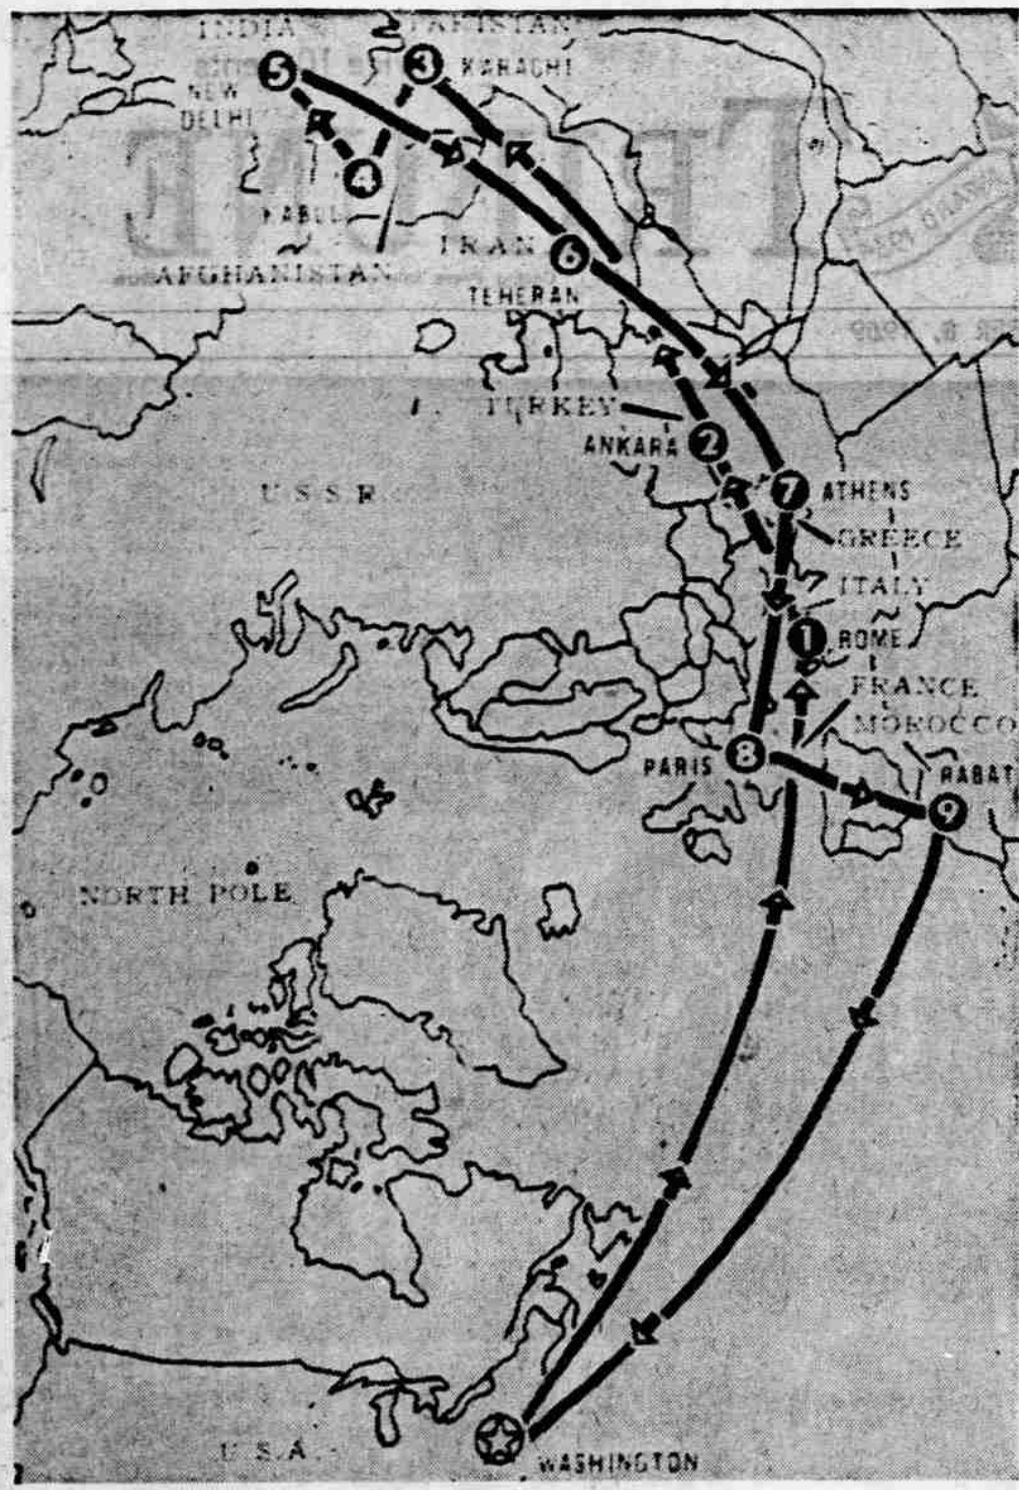

Porter has urged recognition of Red China but the U.S. has refused to acknowledge the Communist regime.

The educator declared that Porter's charge about this American policy being one of "willful ignorance" is not true. "It is what we know," Dr. Dull said, "rather than what we don't know, that causes us to have the policy we now pursue."

The professor however, did advocate admission of American newsmen to Communist China saying, "We would then probably have to admit Chinese newsmen to this country and it might be a good exchange."

Local Association Lists TV Program

An adaption of "For Whom the Bells Toll," a presentation to expand the public information campaign to help dispel misconceptions about tuberculosis, will be used on the Jackson County Tuberculosis and Health association television program at 5:30 p.m. Monday, Nov. 9, over KBES-TV.

A panel of physicians and surgeons will show through slides, statistics and x-rays what has happened, and is happening, in tuberculosis control.

Appearing on the panel will be Dr. C. I. Drummond, Jackson county health physician; Dr. Duane I. Gillum, radiologist, Medford; and Dr. John W. Bradshaw, general practitioner, and Dr. John R. Reynolds, specialist in internal medicine, Ashland.

The association noted that the public becomes more aware of the tuberculosis problem at this time of the year because of the stepped-up public information during the annual Christmas Seal campaign, which starts next week.

Rules for Bounty Noted by Madden

The entire skin of an animal including at least one paw and tail must be brought to the county clerk's office before a bounty payment can be made, according to E. M. Madden, county clerk.

Worst problem has been with coyote bounty hunters, he noted. Regular bounty hunters know what the law is, Madden said. It has been the new or infrequent hunters who have brought in pieces of the animal and expected payment. Bounties apply to bobcats, cougar, coyotes and porcupines.

The animal must be presented to the county clerk of the county in which it was killed within six months after it was killed.

Presentation must be made by the person who killed the animal to the county clerk along with a sworn affidavit concerning date, place killed and other information, Madden concluded.
