

How the amazing new Time-Release KIMTAB may help your "Body Performance"

(vitamin tablets)

Here is the latest discovery in nutritional science—the miracle KIMTAB vitamin tablet that acts as a "reserve bank" inside your body if you are suffering from a vitamin deficiency. It has its own vitamin-release "time-lock" that opens up to pour vitamins, minerals and lipotropes into your blood stream NOT ONCE BUT TWICE... the first time when you swallow it—and again hours later. If you have a vitamin deficiency there may be an end to mid-day let-down... help to give you an all-day feeling of well-being.

"WE DANCED TILL 3" "Out of a clear blue sky, John asked me to go dancing! We hadn't done that for years. He just seemed like a different man. When I asked 'How come?'... he told me he'd been taking KIMTABS and explained about their 'time-release' action giving him a 'reserve bank' of vitamins. John says it's a 'night on the town' once a month from now on."

"I STILL FEEL FRESH AT 6 O'CLOCK" "No matter how fresh I felt in the morning I was always 'bushed' at night. But no more. I take one KIMTAB at breakfast, get vitamins from a 'reserve bank' at noon, and now I feel fresh when five o'clock rolls around. No more vitamin deficiency for me! KIMTABS are GREAT!"

"HELEN! THAT TIRED, LISTLESS FEELING IS GONE!" "It just seems too good to be true, Helen. That tired, run-down feeling is gone. And after the money I spent 'trying this and trying that.' I went to my doctor and he told me I was suffering from a vitamin deficiency. Well, I saw this ad for KIMTABS—tried them for a month free—and now I feel just fine. Thank Heavens for KIMTABS!"
