

COME ABOARD ROCK HUDSON'S YACHT

by Peer J. Oppenheimer

When his busy movie schedule allows, "Skipper" Rock relaxes with friends aboard his 40-foot ketch

FOR A BUSY ACTOR like Rock Hudson, relaxation is so rare that he has to make the most of his spare time. With this in mind, Rock bought himself a yacht last year. It took him just a few hours to fall under Neptune's spell, but almost a year to get his sea legs.

Now an accomplished seaman, Rock takes out his 40-foot ketch *Khairuzan* (that's Arabic for "good luck") every chance he gets. Recently he had a couple of days off after completing U-I's "Pillow Talk" with Doris Day, so Rock set sail with actor Don Burnett and Don's actress-wife Gia Scala. The sea air and the sun, plus the companionship of close friends, made for an unforgettable trip.

Rock heads out to the open sea. When the shore line fades away, he'll feel better.

The Hudson hospitality knows no bounds, and neither do the appetites of Gia Scala and her hubby Don Burnett. Must be all that salt spray!

After a hearty meal, the lady takes the helm and the men combine a sunbath with slumber, blissfully aware that they're in good hands.
