

## Gift Packages Nice If Wrapped Correctly

Ribbons and designs on gift packages are wonderful "icing on the cake" . . . but they look best when the paper is smoothly and attractively wrapped around the box.

Here are the steps a professional uses in wrapping packages:

Place the paper face down on the table. Put the box, upside down if possible, on the paper. Place it so the design will show to the best advantage when the package is wrapped and tied.

If the box cannot be turned upside down, cut the paper about 1/2 inch wider than is needed and turn the raw edge under. Arrange so that the overlap will come under the ribbon or trim you plan to use.

**Cutting Paper**  
Cut the paper wide enough to go around the box and overlap 1 1/2 inches (less for a very small box), and long enough to extend a little more than half the depth of the box at the ends. This extending

length will have to vary slightly according to the shape of the box and should be a trifle more for a deep box than for a shallow one. Don't scribble.

Bring the paper up over the sides, overlapping as near the center of the box as possible, and fasten with a gummed seal or with tape.

Finish one end at a time. Fold the sides in smoothly. Fold the top, which is to be the bottom of the package, down first, then bring the fold that is on the table up over all the folds, securing with tape or sticker.

Turn the box over. You are now ready to add your own special trims.

Unless your mailbox is oversized, you would be wise, and clever, to provide a decorative mail pouch in front of your home. Especially smart is the idea of using this extra mail space as the center for your door decoration.

**A CHRISTMAS BELLE**—This charming dress, designed to be a holiday hit! In Chrom-spun acetate, it will stay crisp and unwrinkled. A rose accents smart cummerbund. —By Joseph Love

## Gifts of Records Provide Pleasure

A gift of records is a gift that promises hours of pleasure for years to come.

Happily, today records are made for every age and every musical taste. There are even records for tots, though not all are musical; some are the telling of stories.

The reading of poetry and many classics in literature appear on record.

For that matter, it is possible to learn a foreign language, improve your golf game or study other subjects by record.

There have been vast improvements in the quality of recordings within just the past few years . . . the new stereophonic records are something our parents scarcely hoped to dream about.

Original Broadway shows, the finest operas and orchestras may now resound throughout our own living rooms.

Modern record covers are so attractive that you will find it a pleasure to just browse

through a record shop as you might in an art gallery.

Plan for a record Christmas this year. Everyone will love you for it!

## Small Appliances Are Time-Savers

"Come out of the kitchen . . ." can well be applied to the newest small appliances!

Smart Santas will note that these convenient time-savers have blossomed forth with a sparkling beauty of modern design that makes them "at home" on dining, buffet, supper or patio table, as well as in the kitchen work-center.

Making table-cooking easier is the single-unit heat control plug and cord which fits ably.

Whether home is a one-room kitchenette apartment, or a rambling ranch type, electrical appliances fit the bill!
