Metal Firms Say Equipment Old

New York—UPI—Iron Age magazine reported today that 62 per cent of the metal-working companies polled by the trade publication are operating with some facilities that are from 11 to 20 years old.

The survey of 240 companies which account for 500,000 production workers in the metal, metal products, industrial machinery and auto industries was made public as U.S. industry opened a drive in Washington for more liberal tax treatment on depreciation of equipment.

Approximately 90 per cent of these firms said that at least 20 per cent of their production facilities is more than a decade old, while 37 per cent said that more than half of their facilities are in this age category.

"This is way above the depreciation rates now used in Canada, England, Sweden and other countries abroad," Iron Age said.

"And it's a sure sign of the growing age of the country's industrial plant."

More than one million tourists came to Great Britain this year by the month of August, the first time the million mark has been passed so early in the year.

Brazilian Army Officers Arrested

Rio De Janeiro, Brazil—UPI—Several air force officers were arrested today in the provincial capital of Belo Horizonte when they arrived there from Brasilia amid unconfirmed reports of an army rebellion.

The reports said army officers in Belo Horizonte and Parana were rebelling against their command.

Government officials here denied that any trouble was afoot. Rumors of disorders in several parts of Brazil swept Rio this morning.

The army was placed on full alert following the reports of disturbances in Belo Horizonte.

Girl Has Right Idea, But Wrong Person

De Witt, Ark.—Children in Oakhurst Elementary school were making contributions to a drive for crippled children.

"I'm not going to give my three pennies to the crippled children," one little girl told the teacher. "I want you to have 'em because you're crippled."

Mrs. Jane Clarksdale, on crutches after a fall, persuaded the youngster some small child was probably in greater need.
