Eisenhower Faces Severe Test in Role Of Peace Champion at Paris Meeting

By PHIL NEWSOM
UPI Foreign Editor

President Eisenhower this week leaves behind the pomp, pageantry and adulation of millions of Asians for an even more exacting assignment in his role as champion of peace.

As he moves to Paris and a meeting of the Western summit, peace still will be his theme. But this time it must be applied to the United States' West European Allies whose unity is threatened as it probably has been at no time since the end of World War II.

It was a flower-strewn path

Greater Unity Seen for Oregon Democrat Party

Salem — (UPI) — State Democratic Chairman Robert Straub of Eugene said Saturday night he sensed "new excitement" and a feeling of greater unity in the party.

Straub, who was honored at a dinner here, said a basic problem facing the Democratic State Central Committee was lack of funds. He said the party would need \$50,000 before the 1960 general election.

Critical of Hatfield
Straub also was critical of Gov. Mark Hatfield for what he termed the "woeful lack of leadership."

Democrats earlier Saturday voted to oppose a sales tax in any form. A similar resolution was passed by the Central Committee last April. They also voted to suggest to the state delegation to the national convention that the person who gets the highest number of votes be automatically named acting chairman. The suggestion went on to say that the acting chairman call delegates together within three weeks to name a permanent delegation chairman.

Matthews Elected President of Safety Council

Ralph Matthews, superintendent of transportation, Medford public schools, was elected president of the Medford Safety Council Friday at a meeting at the Rogue Valley Country Club. He succeeds C. D. Larson.

Other officers elected were R. J. Tetreault, vice president; Greg Orr, treasurer; Russ Jamison, secretary; and Air Force Sgt. Buford and Paul Bettiol, board of directors.

Installation of officers will be held at the annual awards banquet Friday, Jan. 29, at 6:30 p.m. at the country club. Speaker will be Chief of Police Vernon Murdoch Jr., Roseburg, who will report on community cooperation following the August explosion and fire.

Tickets are available from Safety Council members.

Members of the council will meet Tuesday, Dec. 15, at the Elks Club dining room to make final decisions of recipients of safety awards for 1959. Berry Bigham, chairman, announced. Under consideration will be those individuals or firms who have been recommended to the committee.

Awards to be considered are Saved-A-Life, industrial safety, traffic safety, and distinguished citizen safety.

Wall Street Chatter

New York — (UPI) — Expect no easing in the current credit stringency as long as the general business boom is still in process, says the Value Line investment survey.

Moreover, it points out, because of the usual six-to-eight month lag between money market changes and their impact upon home building, "any action to increase the availability of mortgage funds would probably have little effect on housing activity before the end of next year at the earliest."

An early display of wisdom from the disappointing experience of 1959 should mean a favorable atmosphere for oil shares in 1960, Oil Statistics Co., tells its readers.

"Meanwhile, we are optimistic that many leading oils will continue to join in the traditional December-January bull market."

Reynolds & Co. notes that American Steel Foundries shares continue to represent an attractive investment situation, embracing interesting long-term capital gain possibilities, in addition to worthwhile income return.

Hawaii Volcano In Ninth Eruption

Volcano, Hawaii — (UPI) — Kilauea Iki Volcano erupted for eight and one-half hours Sunday, spouting a fountain of lava 700 feet into the air.

It was the ninth eruption since the volcano roared into action several weeks ago. The eighth outburst, which ended Friday, lasted 19 hours and 20 minutes.

that Eisenhower trod last week. He carried out one message — his own and the United States' desire and determination for world peace.

Governments from Rome, through Ankara, Karachi, Kabul and New Delhi might have preferred a firmer line from the touring President of the United States, a definition in terms of dollars, military aid and binding agreements.

Adorations Mount
But whatever the leaders might have desired, there was no denying the response of millions whose adorations mounted in direct proportion to their poverty and fears. For example, New Delhi . . . "Food . . . family . . . friendship . . . and freedom," he told them, are mightier weapons for peace than all the armies and bombs.

The gigantic throng's roar of approval was proof of the responsive chord he struck.

This was the Eisenhower formula.

This is how he projected his image upon millions of Asians as a man dedicated to pulling the world out of a morass of fear, bitterness and suspicion.

It drew from the usually reserved Prime Minister Jawaharlal Nehru:

"You have found an echo in the hearts of our millions and I hope and believe your coming here will be a blessing to us and a blessing to all."

To Meet Khrushchev
And it was on this basis that Eisenhower intended to meet Soviet Premier Nikita Khrushchev a self-appointed but no longer generally accepted spokesman for the backward nations and the have-nots.

This was the first phase of the 11-nation Eisenhower tour which would extend on through Tehran and Athens, and wind up finally in Paris.

Its success as a psychological weapon against expanding communism certainly could not have been anticipated during the planning stages in Washington.

And certainly it has not left

Termination of World Peace

Washington — (UPI) — The President has made. Enters Uncertain Orbit

This week when Eisenhower boards the U. S. cruiser Des Moines and heads westward across the Mediterranean, he leaves the orbit of the little man and heads into a far more uncertain one.

In Paris, he meets with President Charles de Gaulle of France and Prime Minister Harold Macmillan of Great Britain in a conference widely heralded as a prelude to a meeting at the summit with Khrushchev in the spring.

Here the man who won the hearts of Asian millions as a champion of peace must call forth all his noted talents to heal a dangerously widening breach.

It is a conflict of personalities and national interests which have allowed the North Atlantic Treaty Alliance to weaken as fear of aggressive communism has declined.

Storm center is de Gaulle.

Singles Out France
U. S. Chief of Staff Gen. Nathan F. Twining put the finger squarely on France last week as the core of mounting NATO weakness.

In London, mounting annoyance with de Gaulle led one influential newspaper to suggest it is time for Britain to pull out of NATO altogether and to fall back upon its commonwealth and U. S. ties.

NATO headquarters itself has said that only West German troops now provide NATO's first line defenses in the West, that others could not be relied upon and that failure to meet commitments soon will, if it already has not, leave NATO incapable of fulfilling its role in case of attack.

Of all the NATO nations who agreed in principle to the establishment of U. S. atomic-capable missile bases on their soil, the only ones to do so are Britain, Italy and Turkey.
