

## Feeder Sales Set New Auction Mark

The October and December feeder sales sponsored by the Jackson County Livestock association and the Midway auction yard sold a combined gross total of 3,196 head of beef and gross receipts totaled \$420,058.04. Bill Bray, auction yard owners, reported to the livestock association.

During the Oct. 27 feeder sale a total of 1,754 head of cattle were consigned and 1,712 were sold. Total gross receipts were \$242,901. Bray said the singles were held over to the next Friday.

A total of 1,066 steers were sold at an average weight of 637 pounds and 24.19 average price. Many steers weighed 800 to 900 pounds and some 1,000 pounds.

A total of 327 heifers were sold at an average weight of 614 pounds and average sale price of 22.22.

### Top Pens

Top pen of steers sold for 29 cents and heifers at 26.75. Weaner steer calves sold numbered 216 at average weight of 436 pounds and allied an average price of 26.85. Weaner heifer calves sold numbered 236 head weighing on an average of 437 pounds and selling for an average price of 24.75. Yearling steers sold numbered 850 head weighing an average of 688 pounds at an average price of 23.75.

Bray said the long drought this fall had a cumulative effect on cattle sales. Many cattle buyers were backing out

of the market. Not too many buyers were on hand for the first sale. The bulk of the cattle were sold to six buyers with one buyer paying out \$40,000.

During the second annual sale the prices on Dec. 1 were still lower in the market. However, more buyers than ever jammed the livestock yards.

Bray said last week there is some talk among livestock men of a spring feeder sale. Bray held such a sale in his yard last spring and reported it successful. Many livestock men were holding back their cattle because of high prices thinking they could get higher prices if they waited.

Bray explained to the livestock association that live-

stock speculators must now have a license and bond. Minimum bond sum is \$5,000 based on the yearly volume. This is a new law in effect for the first time this year. Later an audit will be made of each speculator's resources and dollars will be set in ratio to dollar volume of sales handled.

Los Angeles auction yard was forced to close because of lack of volume, Bray explained yesterday. The land on which the yard was doing business was worth more than what it was being used for. Well-operated auction yards are taking the business away from near by competitors, Bray explained.

## Club Owner Held In Murder Case

Carson City, Nev. — (UPI) — Nicholas Goodman, a former blackjack dealer whole alleged cheating resulted in revocation of a gambling license, was booked Saturday for investigation of homicide in connection with the Christmas shooting of William Duffin.

At that time, Fike said, the party was just at the bottom of the glacier, largest in the continental United States.

About 2,200 capital changes were made in the financial structure of the United States corporations during 1958.

Nearly three-fourths of the present grazing lands or about 750 million acres, are in the 17 Western and Great Plain states.

## Climbers Spend Yule Atop Peak

Riverton, Wyo. — (UPI) — Five mountain climbers making the first midwinter assault on Gannett peak, were supposed to be starting down the mountain Saturday after spending Christmas atop the 13,785-foot peak, highest in Wyoming.

The climbing party, led by Lefi-Norman Patterson of South Ashfield, Mass., was not in radio contact with ground stations. It wasn't known if the group had actually attained its Christmas-day goal.

Snow fell over the mountain most of the day. Snow depths on the mountain flank were believed to be from 5 to 15 feet.

The party, which started up Dinwoodie glacier on the northern side, hasn't been seen since Tuesday when C. Lester Fike, who runs a flying service here, made an aerial food drop.

At that time, Fike said, the party was just at the bottom of the glacier, largest in the continental United States.

About 2,200 capital changes were made in the financial structure of the United States corporations during 1958.
