

STOCK BARN DESTROYED—Flames whipped by winds and raging out of control at Emporia, Kan., destroyed three huge barns at the old Santa Fe sheep barns. Damage estimates may exceed \$300,000. Approximately 100 sheep and 100 cattle were lost in the blaze. (UPI Telephoto)

Formula To Find Feet Per Second Is Given

A simple formula for changing miles per hour speed into feet per second has been given by Chief of Police Charles P. Champlin.

The chief explained that the danger of speed given in miles per hour is rarely understandable to a driver, but speed reduced to the distance a vehicle travels per second becomes frightening to anyone sensible enough to realize the difficulty of stopping.

To use the formula, add one-half the speed the vehicle is traveling to the speedometer reading. The total becomes the feet the car is traveling per second.

For example, if the car's speedometer reading is 40 miles per hour. Take one-half of 40 and add it (20) to the speedometer reading—the total is 60, the number of feet the

Little Resigns Resources Post

Salem —(UPI)— Ben R. Little, Corvallis, has announced his resignation from the Oregon Water Resources Board effective Feb. 15.

In a letter to the governor, Little said "as you know, I have long been active in the electric utility business as manager of Consumers Power, Inc. Since this utility now has application pending before the state of Oregon and the Federal Power Commission for permission to develop new hydro capacity on the North Santiam river, I believe my resignation from the State Water Resources Board will be to the best interest of both the state and my employers."

Little was appointed to the board by ex-Gov. Robert D. Holmes. His four-year term would have expired Aug. 28, 1961.

NAMED TO POST
Portland —(UPI)— The Long-Bell division of International Paper company has announced appointment of Willard G. Kelsey as assistant to the general manager at the firm's Gardiner branch.

Newspaper Plant Jobs Plentiful

Washington —(UPI)— The Labor Department has reported that employment continued to rise in large newspaper plants in fiscal 1959 but climbed only half as fast as in the newspaper industry as a whole.

The Bureau of Employment Security said job totals edged upward 1.2 per cent in the large plants, compared with a 2.5 per cent gain for the whole industry.

The bureau said employment in large commercial printing plants also rose by seven-tenths of 1 per cent. The entire commercial printing industry had a 1.9 per cent job increase.
