

# Industrial Stocks Set Record; Railroad Issues Make Gains

New York - (UPI) - Industrial stocks set a new record high on January 5 and then ran into selling which left them lower on the week. Railroad issues made a substantial gain.

The market's action reflected dispute of the steel wage settlement which was regarded as inflationary and the President's State of the Union message which was regarded as deflationary.

In addition to this set of contradictions, the financial district looked for a series of higher money rates after leading banks raised their charge on loans to brokers backed by market collateral. That, too, was a contradiction against the idea that the President's message was deflationary. In deflation, money rates would ease.

**Confusion at First**

Anyhow, there was confusion, and the market operators appeared to interpret things bearingly pending clarification of the situation. They did a fairly large volume of business and late in the week

a steadier tone was apparent in the general list.

Trading increased over recent sessions with the total for the week at 18,027,086 shares, a daily average of 3,605,417 shares. This was the best since the week ending Dec. 4 when volume was 18,033,375 shares and daily sales averaged 3,606,675 shares. A year ago, volume was 20,837,601 shares or a daily average of 4,167,520 shares.

**Industrials Off For Week**

At the close of the week, the Dow-Jones Industrial average stood at 675.73, off 3.63 from the previous week which marked the last session of 1959. At the week's high, set on Tuesday the average closed at 685.47, a new record. It set a record intra-day high at 688.21 on Monday but the market turned about that day and closed lower.

The rail average closed the week at 158.10, a rise of 4.05 points; utility 87.69, off 0.14; and 65 stocks 219.86 up 0.34.

J. C. Penney and General Time split their stocks. Dividend increases were fewer in

# Iverson Named To Committee

Lowell A. Iverson, 19 North Orange st., Medford, has been named chairman of the case finding committee of the Jackson County Tuberculosis and Health Association, according to H. P. Jewett, Central Point, association president.

Iverson replaces Mrs. Jack Walker, who has held the position for the past several years.

Work of the case finding committee is to locate unknown tubercular infections before germs become widespread and while still curable. To do this, the committee and the association operate a chest x-ray clinic at Sacred Heart hospital each Thursday afternoon.

The committee also is interested in locating lung cancer and other chest conditions.

Both Mr. and Mrs. Iverson have been active in association work during the past two years.

Other members of the case finding committee include Mrs. Walker, Mrs. R. B. Knight, Miss Louise Eaton, Mrs. Chester Guches, Mrs. Ivan C. Burton and Mrs. Lawrence Tweedy, executive secretary of the association.

Members of the Providence Guild of Sacred Heart hospital provide volunteer help at the clinic and members of the medical advisory committee include Dr. Earl Lawson and Dr. C. I. Drummond.

# FORD'S ECONOMY TWINS FOR 1960

The Economy Choice of a lifetime - Two new Fords... Two new low-price fields... Two wonderful new ways to go 'The Finest'

**THE 1960 FORD FAIRLANE 500**

Now consider the large economy-size Ford, the Fairlane 500. Here is the most car per dollar ever built for the American road.

The Fairlane 500 brings you fine-car styling, luxury and comfort, yet it offers Falcon economy like regular gas, 4,000-mile oil changes, double-life aluminum mufflers, and no more waxing. Like the Falcon, too, it brings you big price news: \$142 less than last year's popular Fairlane 500!

And like twins everywhere, Ford's economy twins are dressed alike... in the world's most beautiful proportions.

Pick the Ford economy twin that saves and serves you best. Visiting hours as usual at your Ford Dealer's.

FORD DIVISION, Ford Motor Company.

**THE 1960 FORD FALCON**

Now there's both a new economy-size Ford and a large economy-size Ford.

The new economy size is the wonderful, new Ford Falcon. Here's the car that walks away with the title, "America's lowest-priced 6-passenger car." It's priced up to \$124 less than other 6-passenger cars in the compact field. It goes up to 30 miles on a gallon of regular gas. Servicing is easy and low-cost (an entire Falcon front fender can be replaced in minutes for relatively few dollars). You can even save up to 15% on your insurance.

And the Falcon is the one American compact car that is built and thoroughly proved for American driving needs. There's room for 6 people—luggage and all—and big-car performance, roadability and comfort, too.
