

DOOMED TEMPLE VISITED — Accompanied by cabinet ministers, United Arab Republic President Gamal Abdel Nasser, left, front row, makes a farewell visit to a doomed temple at Luxor, Egypt. In the background are statues of the Pharaoh Rameses which adorn Ab Simbel Temple, a precious archeological gem that will be submerged by the waters of the Aswan high dam reservoir. —(UPI Radiotelephoto)

Former Pilot Rock Treasurer Indicted

Pendleton — (UPI) — The former acting treasurer of the community of Pilot Rock, south of Pendleton, has been arrested on a Umatilla county grand jury secret indictment. Edna Mathilda Carrothers, 44, Pilot Rock, was arraigned before Circuit Court Judge William W. Wells here Tuesday, charged with larceny of public money totalling \$1,124.04 from July 1, 1958, to June 30, 1959. Bail was set at \$2,500. No date for trial has yet been set.

State-Owned Timber Sales Set Record

Salem — (UPI) — Assistant State Forester Vance L. Morrison said Tuesday the sale of timber on state-owned forest lands managed by the Oregon Forestry Department reached an all-time high last year. The total was \$3,210,300 compared to 1958 sales of \$2,313,698. He said the increase in sales value was due to increased footage of green timber placed on the market. Salvage operations in the Tillamook burn

have almost ended and it was from this area that much of the timber has come in past years, Morrison said. Portland — (UPI) — The 11th main generating unit at The Dalles dam is expected to go into regular service next week. Washington — (UPI) — Rep. Walter Norbald (R-Ore.) has recommended Fred J. Powell for appointment as postmaster at Gresham, Ore.

New 'Marshall Plan' for Asia, Africa, S. America in Works

Elmer Walzer UPI Financial Editor

New York — (UPI) — A new "Marshall Plan" to aid underdeveloped nations in Asia, Africa and South America may be in the making. A hint of this came from Sir Oliver Franks, former British ambassador to the U.S. and now chairman of Lloyds Bank, Ltd. Sir Oliver suggested a forum of Atlantic nations, including the United States and Canada to work out such a plan. Sir Oliver addressed a recent meeting on economic problems held by trustees of the Committee for Economic Development along with Paul Van Zeeland, former Belgian Prime Minister, Axel Ivoreth, president of the Federation of Swedish Industries, and Paul Hoffman, founder and first chairman of the CED. These addresses are exclusively reported by Saturday Review in its annual business edition. **Top Importance** The forum suggestion was seen by the CED as of top importance. Donald K. David,

chairman of the committee, likened it to the speech which the late Secretary of State Marshall delivered at Harvard as the basis for the so-called Marshall Plan. Sir Oliver's remarks were widely circulated in international organizations and the U.S. State Department. They are believed the basis of a House study which has suggested greater European cooperation in assuming a larger share of the cost to aid to underdeveloped countries. Undersecretary of State Douglas Dillon is in Paris now for three days of high level economic meetings to find solutions for trade and aid problems. **Central Question** The central question before the CED meeting was: "Is the economy of the Western world splitting apart?" Currently prosperous Europe is divided into trade camps: The Common Market composed of Belgium, France, Italy, Luxembourg, The Netherlands, and West Germany. This group has a population about the size of the United States and its object is to pro-

moté intra-group trade with reduced trade barriers. The Outer Seven, or European Free Trade association, made up of Austria, Denmark, Norway, Portugal, Sweden, Switzerland, and the United Kingdom. Then, of course, there is Russia and her satellites, and a group of nations outside the two free world organizations. The forum, according to Sir Oliver, would include the nations of the Atlantic group plus U.S. and Canada. **New Economic Dimension** According to the British expert, the world of East-West problems is faced with a new dimension - north-south - "the problems of the relationship of the industrialized nations of the North to the underdeveloped and developing countries that lie to the south of them, whether in Central or South America, in Africa, the Middle East, in South Africa, or the great archipelagoes of the Pacific." Hoffman pinpointed the problem of the underdeveloped nations in dollars. He said there are 100 low-income countries where per capita income averages \$125 annually against our own of \$2,500. More than a billion people live in these countries which do not include China. If their income were to be pushed up to \$160 annually by 1969 the cost would be \$200 billion, Hoffman says. **'Soft Loans'** He believes this could be cut by trade to a point where \$15 billion to \$20 billion of "soft loans" would do the trick. Keith Funston, president of the New York Stock Exchange, writing the Saturday Review's guest editorial, held that private capital was the best method of solving world problems. But this involves two tough problems in itself, he notes - undue restrictions against foreign capital, and a political barrier - "the fear of many underdeveloped nations that foreign capital may come to play too important a role in their countries' economic lives, and that American capital will go abroad with the aim of 'imposing' the economic system of the United States on its host nation." **Primary Interest** He believes this latter problem can be overcome. "Our interest," he says, "lies primarily in the healthy development of the free world - in closing the gap between aspirations and actualities as rapidly as possible. "In that great effort of this century of economic hope private capital can play a decisive role. It is this larger purpose which, above all, makes the thoughtful and creative flow of capital across international boundaries so very vital."

Reorganization Plans Approved

Salem — (UPI) — The State Board of Education has approved several partial plans and one complete plan for school district reorganization submitted by counties. The board approved one partial plan each for Clackamas and Columbia counties and a complete plan submitted by Lake county. Action was withheld on a partial Coos county plan at the request of the Coos county school reorganization committee because of a consolidation Saturday of the Charleston and Coos Bay school districts. The committee indicated revisions would be in order and the board concurred. Marion county originally submitted several partial plans but asked the board to take action on only one of them at this time, the North Marion plan. The board approved it and held in abeyance others for Salem, St. Paul, Woodburn, Gervais, Cascade and Silverton.

Roseburg Fire Chief Named First Citizen

Roseburg — (UPI) — Don Starmer, Roseburg fire chief, has been named Roseburg's first citizen by the Chamber of Commerce. Starmer was instrumental in setting up fire lines which helped contain the Roseburg fire after the Aug. 7 explosion.

Veterans' Loans Volume To Be Cut

Salem — (UPI) — The Oregon Veterans' Affairs Department, which set a new record for Oregon veterans' farm and home loans in 1959, has announced that as of Jan. 18 its loan volume will be reduced by more than two-thirds because of a shortage of loan funds. The department last year

granted 5,170 loans to World War II and Korean vets in the amount of \$52,932,550. H. C. Saalfeld, director, said the final amount of loan funds will have been committed to borrowers as of Jan. 18. Loans starting on that date are being scheduled for funds at the rate of 120 a month. Loans in 1959 averaged 430 a month.

Washington — (UPI) — Gen. Thomas D. White said Monday the United States is developing a new ballistic missile called the "skybolt" which will give this country an "essentially invulnerable" weapon against surprise attack. Portland — (UPI) — Mayor Terry Schunk of Portland will seek reelection to the office this year.
