HATE CAMPAIGN—Rolf Wollny, a 23-year-old Berlin salesman, is arrested on charges of painting swastikas and slogans on Berlin buildings. Authorities had followed a trail of dripping paint to his apartment. Wollny said he did it from conviction and denied any backing from Communists or neo-Nazis. German cities are in the throes of a hate campaign that is spreading through much of the world.

Small Worlds Around Us

By Lynn M. Watkins

Burs from Burdock Plant are Prolific

The individual Burdock plant lives about two years, then dies from complete exhaustion. During the 24 months of its life it produces enormous quantities of marble-sized burs, tremendous expanses of leaf surface, sturdy tree-like stalks as tall as eight feet–all from an underground root of stored food.

But its own life seems relatively unimportant, for when it dies, in its place it has distributed hundreds of bur-like seeds repopulating the entire areas so that a colony of Burdocks never diminishes in size unless it is cut down and dug out by the disgusted landowner who sees in the coarse plant only a noxious weed.

The Burdock sees to it that its seeds are carried afar by both man and beast. Every switching tail of grazing or straying cattle can become an agency of distribution. This plant has an insatiate love of travel, using various means to extend its horizons. The burs, born in extravagant profusion, adhere to the wool of sheep, the tails of horses and the fur of animals.

Later, after being dislodged, they form pioneers of a colony in the barnyard. The human traveler picks up the burs on his clothing and later disdainfully casts them aside by the dusty road or by a vacant field. Wherever the bur lands, on good soil or bad, it's always the same. With quick and eager willingness it takes root and grows.

Used by Children

The large prickly burs are often gathered by children and made into chains, or peculiar looking baskets, merely by sticking them together. Small boys, who should have known better, have been known to wad a handful of the burs into a prickly mass and toss them into the hair of a small girl who may have snubbed them. Extracting one of these "bur-balls" from a child's hair is an impossibility without the aid of shears.

Even this bothers the Burdock not at all, for once again, when the hair and the burs are cast aside, the persistent seed anxiously awaits the soil, moisture and sun that will bring it to fruition.

From Europe

This, the most plebian of plants, came over from Europe a long time ago. Since then it has constantly widened its range. Its huge leaves contain a bitter juice which is distasteful to all grazing animals, causing them to let the plant stricly alone.

The flowers are purplish in color and possess a faint, mild fragrance. The farm boys know the Burdock by various common names such a cocklebur, beggar's buttons, or cuckoo button.

In some parts of the world the heavy stalks of the Burdock are used as human food. Often the rind is peeled and the stalks cooked in hot water. They are said to slightly resemble asparagus in taste. Peculiarly enough, many tons of dried Burdock root are imported to America every year from Europe. The roots find a limited use in various blood medicines. If you never looked close at the Burdock you might think it resembled somewhat the edible rhubarb; but the Burdock is a big and "very noxious weed."

Much Equipment Required to Learn About Sun

Cleveland–(Science Service)–Rockets soaring high into into earth's atmosphere, instruments that make man-made solar eclipses, and pencil and paper to interpret the information so gained are helping astronomers learn about the sun's behavior.

At the American Astronomical society meeting here, scientists reported results of their instrumental and theoretical probings of the star nearest earth, the sun. Drs. John G. Wolbach and Donald H. Menzel, who is director of Harvard College observatory, suggested that solar prominences are not uniform clouds of luminous gas, as many have thought.

Observations Made

Observations with the solar coronagraph, a device to view the sun as if it were in eclipse, "clearly show" that prominences possess a string-like structure, sometimes appearing like tangled skeins of thread. In prominences associated with sunspots, the filaments assume distinctive forms of which loops are the simplest and most characteristic, Drs. Menzel and Wolbach reported, and the filaments themselves show internal structure.

Drs. R. Tousey, J. D. Purcell and P. Mange of the U.S. Naval Research laboratory said photographs of the sun taken in the far ultraviolet of solar Lyman alpha showed that there is hydrogen in the space between the earth and the sun. The rocket flights during which the sun was examined in the Lyman hydrogen line were made July 21, 1959.

GOLD HILL
Panel Talk Slated

By MRS. CLYDE KELL

Gold Hill–A panel discussion on "What Makes a Happy Family" will highlight the meeting of the Gold Hill PTA at 7:30 p.m. Thursday in the Hanby school gymnasium.

The panel will be composed of a member of the child guidance association and two members of the PTA's family counseling committee. Following the discussion, the audience will participate in a question and answer session.

All adults, even though not members of the PTA, are invited.

The Rev. and Mrs. A. C. Motes, their daughter Sally and son Clifford, Aberdene, Wash. returned home recently after visiting Mrs. Motes' brother-in-law and sister, Mr. and Mrs. Kendal Dufur and family, Gold Hill. The Motes family also visited friends in Ashland and Central Point, where they were former residents.

Over 300 people attended the New Year's Eve dance sponsored by the Gold Hill Lion's club and Gold Hill Grange. The two organizations shared proceeds derived from the affair on a 50-50 basis.

Raymond Cannon returned to his home in Hermiston and Jack McCarney to Rufus, Ore. after a 2-week visit at the home of Cannon's sister, Mrs. Lorraine Becker and his mother, Mrs. Gertrude Cannon.

Among other recent guests at Mrs. Becker's home were Mr. and Mrs. Gerry Cannon, Central Point; Mrs. Mabel Newnham, Barney Governor, Mrs. Gertrude Cannon, all of Gold Hill, and Mrs. Becker's son-in-law and daughter, Mr. and Mrs. G. H. Plunkett and children Joan and Gail, Ashland. Mrs. Cannon, who came to the U.S. for the forst time last July, formerly lived in Fakenham Norfolk, England.

Mr. and Mrs. Paul Molloy and sons Donald and David went to Gold Beach recently where they were guests of Mr. and Mrs. Hale Loofbourrow and family.

Recent guests at the home of Mr. and Mrs. Roy Eskew were Mr. and Mrs. Douglas Ness and son Buddy Ray, Central Point; Miss Donna Eskew, Medford, and Larry Eskew, Fort Ord, Calif.

Former Gold Hill residents Mr. and Mrs. Paul Holderness, Manida, Mont., visited relatives and friends here recently. While here they were guests of their son and daughter-in-law, Mr. and Mrs. Gene Holderness.

Mr. and Mrs. Raymond Thompson were recent guests at the home of his brother and sister-in-law, Mr. and Mrs. Paul Thompson. They were enroute to their home in Tacoma, Wash. after spending Christmas in Yreka, with their daughter and her family.

About 25 young people attended a party Jan. 3 at the home of Mr. and Mrs. E. J. Allen, honoring their son, Joe Allen and his friend John Andrews, who planned to be inducted into the U.S. Navy Jan. 7. Prior to the party a potluck supper was held at the Gold Hill Christian church for the two young men.

Malayan Mosquitoes Steal From Big Ants

Washington–(Science Service)–Certain Malayan mosquitoes get their entire sustenance from what they steal from ants twice their size.

Described in a report by the Smithsonian institution here, these mosquito pirates are much smaller than ordinary ants. Sitting on branches inhabited by ants, the tiny mosquitoes thrust their proboscises between the open mandibles of ants that run through their legs. In this way, they steal the ants' nectar for their own dinner.

LEGAL NOTICES

NOTICE TO MINING CLAIMANTS
Oregon 09951
(Proceeding No. FS 60-11)

Published pursuant to section 5 of the Act of July 23, 1955 (69 Stat. 367)

To whomever it may concern:

Notice is hereby given in pursuance of a proper Request for Publication heretofore filed in accordance with section 5 of the Act of July 23, 1955 (69 Stat. 367), and the regulations thereunder (43 CFR 185.123-185.127).

1. That on October 22, 1959, the Chief, Forest Service, Department of Agriculture, whose address is Washington 25, D.C., filed in the Land Office of the Bureau of Land Management, Department of the Interior, at 809 N. E. Sixth Avenue, Portland 12, Oregon, a request for publication of notice to all mineral locators or any person claiming under them involving a mining claim or claims located on lands in the County of Jackson, State of Oregon, described as follows, to-wit:

The Ashland "A" Area, 6-SR-10-4, Rogue River National Forest.
Willamette Meridian
T. 39 S., R. 1 E., E½SW¼, SE¼ Sec. 17; E½ Sec. 19; Sec. 20; NE¼, E½W½, N½SE¼, SW¼SE¼, W½-SE¼SE¼ Sec. 21; Secs. 27 to 35 incl. T. 39 S., R. 1 W., Secs. 25, 26, 33, 35 and 36. T. 40 S., R. 1 E., Lot 4, S½NE¼, S½NW¼, S½ Sec. 1; Secs. 2 to 11 incl.; NE¼, S½ Sec. 12; N½ Sec. 13; Secs. 14 to 16 incl., and those parts of Sec. 17 and Secs. 18 to 22 incl., within the boundaries of the Rogue River National Forest. T. 40 S., R. 1 W., Secs. 1 to 4 incl.; Secs. 9 to 12 incl.; Secs. 15, 21, 22, 27, 28, and those parts of Sec. 23 and Secs. 33 to 35 incl., within the boundaries of the Rogue River National Forest.

2. That if any person claiming or asserting under, or by virtue of, any unpatented mining claim located prior to July 23, 1955, any right, title, or interest in the vegetative surface resources and other surface resources, under such mining claim, contrary to or in conflict with the limitations or restrictions specified in section 4 of said act, as to the above-described lands or any part thereof, shall fail to file in the Land Office of the Bureau of Land Management at 809 N. E. 6th Avenue, Portland 12, Oregon, and within 150 days from the below-stated date of first publication of this Notice, a verified statement which shall set forth as to such mining claims:

(1) The date of location;

(2) The book and page of recordation of the notice or certificate of location;

(3) The section or sections of the public land surveys which embrace such mining claim; or if such lands are unsurveyed either the section or sections which would probably embrace such mining claim when the public land surveys are extended to such lands or a tie by courses and distances to an approved United States mineral monument;

(4) Whether such claimant is a locator or purchaser under such location; and

(5) The name and address of such claimant and names and addresses so far as known to the claimant of any other person or persons claiming any interest or interests in or under such unpatented mining claim; such failure shall be conclusively deemed (i) to constitute a waiver and relinquishment by such mining claimant of any right, title, or interest under such mining claim contrary to or in conflict with the limitations or restrictions specified in section 4 of the Act of July 23, 1955 (69 Stat. 367), as to unpatented claims located after that date, and (ii) to constitute a consent by such mining claimant that such unpatented mining claim shall be subject to said limitations and restrictions, and (iii) to preclude thereafter, prior to issuance of patent, any assertion by such mining claimant of any right or title to or interest in or under such mining claim contrary to or in conflict with said limitations or restrictions. Section 4 provides, generally, that unpatented mining claims located after July 23, 1955 shall not be used for purposes other than prospecting, mining, or processing operations, or uses reasonably incident thereto; that such claims will be subject to the right of the United States to manage and dispose of the vegetative surface resources thereof and to manage other surface resources thereof; and that, except to the extent required for mining operations and uses reasonably incident thereto or to provide clearance for such operations or uses, claimants of such claims shall not use or dispose of vegetative or other surface resources thereof; and that, except for clearance for such purposes, any permitted severance or removal of timber must be in accordance with sound principles of forest management. Said section 4 also provides that any use of the surface of any such mining claim by the United States, its permittees or licensees, shall be such as not to endanger or materially interfere with the prospecting, mining, processing or reasonably incident uses by the mining claimant.

The date of first publication of this Notice shall be December 23, 1959.

Dated: November 25, 1959.

LEGAL NOTICES

No. 60-15-E
SUMMONS
IN THE CIRCUIT COURT OF THE STATE OF OREGON FOR THE COUNTY OF JACKSON

H. DEWEY WILSON, Administrator of the Estate of Angeline Nellie Kilmer,
Plaintiff,
vs.
VESTA L. BUSH and JOHN DOE her husband, if married; the unknown heirs of Vesta L. Bush, if deceased; the unknown heirs of John Doe her husband, if married, and she be deceased and said John Doe is deceased; and also all other persons or parties unknown claiming any right, title, estate, lien or interest in the real property described in the complaint herein,
Defendants.

TO: Vesta L. Bush and John Doe her husband, if married; the unknown heirs of Vesta L. Bush, if deceased; the unknown heirs of John Doe her husband, if married, and she be deceased and said John Doe is deceased; and also all other persons or parties unknown claiming any right, title, estate, lien or interest in the real property described in the complaint herein,
Defendants.

IN THE NAME OF THE STATE OF OREGON:

You and each of you are hereby required to appear and answer the complaint filed against you in the above entitled suit on or before the last day of four weeks from the date of the first publication of this summons, and, if you fail so to appear and answer said complaint, for want thereof, the plaintiff will apply to the court for the relief demanded in said complaint, a succinct statement, is as follows:

That each defendant herein be required to fully set forth any and all right, title, estate, lien, claim or interest whatsoever that they or any of them, may have or claim in, to or upon the the property described in the complaint herein, or any parcel thereof, that said real property is situated in Jackson County, Oregon, more particularly described as follows:

The Northwest Quarter of the Northwest Quarter of Section 28, Township 35 South, Range 4 West of the Willamette Meridian in Jackson county, Oregon.

That each and all of the claims that may be made by the defendants or any of them in or to said real property or any part thereof be declared null and void and that plaintiff herein be decreed to be the owner in fee simple of said real property, free and clear of all right or claim whatsoever on the part of the defendants or any of them; that each and all of the defendants and all persons claiming or to claim by, through or under them or any of them, be forever enjoined, restrained and barred from asserting, attempting to establish or claiming any right, title, estate, lien or interest whatsoever in, to or upon said real property or any part thereof and that the title of the plaintiff to said property be forever quieted and set at rest and be adjudged and decreed to be superior to that of the defendants or any of them.

This summons is published by order of the Honorable Edward C. Kelly, Judge of the Circuit Court of the state of Oregon for Jackson County, duly made and entered on the 12th day of January, 1960.

The time prescribed in said order for publication of this summons is once a week for four consecutive weeks and the first day of publication thereof, is the 13th day of January, 1960.
