

In the Day's News

By FRANK JENKINS

From Germany:
Chancellor Konrad Adenauer, in a radio appeal, calls for "quick and powerful" court action against NEO-Nazis and other persons attacking Jews.

What's a neo-Nazi?
It comes from the Greek word neos, meaning NEW—especially new and DIFFERENT or more recent. So: NEO-Nazis is a new and more recent kind of Nazi.

WHAT'S A NAZI?
Generally speaking, Nazis are Germans who want the government to run everything.

And—
THEY WANT TO RUN THE GOVERNMENT.

MORE trouble in Cuba—where Castro's government is "expropriating" more and more American property. The value of U.S. property taken over so far is estimated in the tens of millions of dollars, and almost any time now the Castro government is expected to start moving in on the 1,700,000 acres of sugar land owned by Americans.

WHAT will happen if Castro goes through with his expropriation plans?

Well—
In the long run—
It won't be good for Cuba and the Cubans. Here in our State of Jefferson, for example, we have large holdings of timber land. Suppose these lands were all taken away from their owners and divided up among the rest of us.

It may sound good, right off the bat—BUT IT WOULD NOT BE GOOD.

OVER the long pull, it wouldn't be good for any of us, and here's why:

If they were deprived of their timber lands, which provide them with raw material, the operators would have to shut down their mills—for you can't run a sawmill, or a plywood plant, or a hardboard plant, or a pulp plant without raw material. That would throw their employees out of jobs.

And—
The individual holdings of all the rest of us would be so small that we couldn't command the capital with which to buy and operate the mills. If we tried to sell our small holdings to other big operators who could supply the capital, they'd laugh at us—for, with the precedent of expropriation once established, who would know when the timber lands would be expropriated AGAIN?

SO—
If Castro starts taking everything away from those who have it and giving it to those who DON'T have it, that will be the end of Cuba.

Business is based on confidence. If there is no confidence, there is no business. If there is no business, there are no jobs.

Senior Nominated For Fellowship

Ashland—Robert Devoe, a senior in teacher education at Southern Oregon college, has been nominated by the faculty for the Woodrow Wilson Fellowship, which is awarded to outstanding college seniors and graduates who have not yet entered a liberal arts graduate school. The award provides for the first year of graduate study only. There is no age limit.

Devoe will have an expense paid trip to Seattle for his interview with the regional chairman of the foundation. If he is selected he will be notified early in March.

Now student teaching in the Ashland High school English department, Devoe is a graduate of Medford High school. He was in the Air Force and attended the Army language school studying Russian.

Chinch Bug Threat Claimed Increasing

Washington—(Science Service)—The chinch bugs seem to be on the increase.

Although populations of this insect—known to cause multi-million dollar losses to corn, wheat, barley, rye and oat crops—have been decreasing in recent years, a recent survey shows populations are on the up-turn.

An Illinois survey of Blisus leucopterus, as the chinch bug is called, points to the possibility of severe infestations in some counties, the U. S. Department of Agriculture here reported. The insect also appears to be expanding in its area.

This is no ordinary pork sale . . . this is a big event! Piggy Wiggly and Swift and Company have combined to bring you "pampered pork" that's unsurpassed for flavor, texture and taste. Only the finest grain-fed young porkers are selected by Swift and Company . . . and they're tender, pink-meated porkers with a flavor that's out of this world. So hurry to Piggy Wiggly this weekend for the most in eating enjoyment . . . and don't forget to stock your freezer at these low prices.

Rich in Vitamin B
PORK STEAK
