

## 3,258 Are X-Rayed At Clinic in 1959

A total of 516 more persons received chest x-rays at the Jackson County Tuberculosis and Health association sponsored clinic at Sacred Heart hospital last year than in 1958, according to association officials.

Some 3,258 out-patients were x-rayed last year, compared to 2,742 in 1958.

Although there were fewer confirmed new cases of tuberculosis in the county last year, the association said the total pathology from the clinic reached a higher percentage than in 1958.

### 11 New Cases

Eleven new cases of TB in the county were recorded at the health department last year, while the number of confirmed new cases totaled 23 in 1958. The number of

cases now on the register at the health department totals 120, the association said. In all cases, a constant check is maintained.

Total pathology for 1959 was 409 out of the 3,258 patients x-rayed, or about 12.5 per cent. About 1.8 per cent of the total number showed conditions suggestive of tuberculosis. Although many of them were cases of old or healed disease, a number required further study to eliminate active TB, the association noted.

A total of 106 patients were referred to their doctors for various heart conditions following chest x-rays, and 158 were advised to consult their physicians about miscellaneous conditions. Another 84 persons required further study for conditions other than possible tuberculosis.

### Largest Clinics

The association reported that the largest clinics were held in April, May, August and September, and the smallest in November and

December. The latter is partly explained by the fact that there were fewer clinics dur-

## Ex-Pig Farmer on Presidential Trail

Secaucus, N. J. — (UPI) — Veteran campaigner Henry Krajewski, once a pig farmer, is on the presidential trail again with outcries against "piggy deals in Washington."

Krajewski, 47, has announced his candidacy for president. He said he would tour the nation by covered-wagon to California and then north. He obtained a nominating petition from the office of the secretary of state.

Krajewski's running mate for vice president will be Mrs. Anne Marie Yezo, a 41-year-old housewife of North Bergen, N. J.

"When the Democrats were in they let the horse out of the barn, and the Republicans have done nothing to get him back," he said.

## OLCC To Study Food at Outlets

Portland—(UPI)—A proposal to spell out the minimum amount of food available in liquor-by-the-drink outlets has been taken under advisement by the Oregon Liquor Control Commission.

The commission Thursday held a hearing on the matter attended by about 50 persons. The proposal would call for a regulation establishing a minimum food volume and also require that kitchens be operative during the time the bar is in operation.

Those speaking against it said it would not be economically sound to keep the kitchen

open during all hours liquor is sold. At present the regulations specify that liquor licenses may be issued on premises where food is cooked and served.

**TAXI SERVICE** — Taking off from the roof of a building in downtown Los Angeles with the city hall in the background, is one of 16 three-passenger helicopters which will go into service as taxi cabs on Feb. 1. The taxis will provide round-trip service from downtown Los Angeles to International Airport. The flights will be daily, except Sunday, on a dawn-to-dusk basis. Traveling time will be nine minutes each way and one-way fare will be \$11. (UPI Telephoto)

## Area Drivers Get Licenses Suspended

Salem — The department of motor vehicles has released names of 461 drivers whose licenses were ordered suspended during the period beginning Jan. 4 and ending Jan. 8.

Length of suspension varies depending on charges involved, recommendation of court, discretionary action by the department or requirements of Oregon law.

The department warned drivers that the penalty for driving while suspended is a jail sentence of no less than two days and up to six months, and there may be imposed a fine up to \$500. Under licensing procedures, this will also result in an additional year of suspension.

Among those suspended in Jackson county were:

- DRIVING WHILE SUSPENDED**—(Includes any conviction for violation of traffic laws, involving operation of motor vehicle, while driving privileges were suspended):
- Erbes, Arthur Walter, 24, of 2642 Merriman rd., Medford, excess noise, 1 year.
  - Goodman, Jackie Ray, 23, of 434 Columbus ave., Medford, fail to obtain Oregon drivers license, 1 year.
  - Goyette, Donald Dean, 21, of 436 1/2 North Bartlett st., Medford, driving while suspended, 1 year.
  - Leighton, Sam Howard, 201 First st., Talent, no operator's license, 1 year.
- DRIVING WHILE UNDER THE INFLUENCE OF INTOXICATING LIQUOR** — (Mandatory suspension):
- Bowker, Jay Clifford, 21, of 4080 Carlton ave., Central Point, 90 days.
  - Keller, Robert Vaughn, 50, of route 1, box 400, Cave Junction, 90 days.
  - Simmons, Russell Clarence, 50, of 1020 East Jackson st., Medford, 90 days.
- DISCRETIONARY ACTION OF DEPARTMENT:**
- Scott, Vernon Charles, 23, of 2939 Madrona lane, Medford, driving record, 90 days.

Many of the misconceptions and prejudices concerning x-ray since its discovery in Bavaria nearly 65 years ago will be discussed, and the uses of x-ray, then and now, will be compared. Various types of radiation will be classified, and many of the most common questions asked by lay persons will be answered by the radiologists. The discussion will conclude with an account of what science predicts for x-ray in the future.

Appearing on the panel will be Dr. Earl L. Lawson and Dr. Alan S. Markee, Medford, and Dr. William S. Judy, Grants Pass.

## Medical Panel to Discuss Radiology

The first medical panel discussion of the 1960 television series, sponsored by the Jackson County Tuberculosis and Health association, in cooperation with the Jackson County Medical Society and station KBES-TV, will be presented at 5:30 p.m. Monday, Jan. 18.

Three physicians and surgeons whose practice is limited to radiology will discuss the values and dangers of x-rays and other types of radiation on the half-hour program.

Early-day x-ray equipment, sent here from Portland for the program, will be shown and compared to present-day equipment with the improved
