Mediators Work Toward Deadline In Rail Dispute

Chicago—(UPI)—Federal mediators worked toward a Friday deadline today in efforts to head off a 50,000-member union's threat to break off wage talks with the nation's railroads.

The Brotherhood of Locomotive Engineers Wednesday said it would take a strike vote and ask the National Mediation Board to arbitrate if the carriers do not make higher wage increase offers by Friday.

'Feeler' Rejected
Perry S. Heath, assistant Grand Chief Engineer of the union, said the brotherhood had rejected a "feeler" by the railroads for a 3 per cent wage boost, about 7 1/2 cents an hour, effective next Jan. 1.

However, Theodore Short, spokesman for the railroad negotiating team, denied that a wage offer had been made and charged that Heath's statement was an attempt to "mislead the public."

Mediators are meeting almost daily with union and railroad bargaining teams, sometimes separately, sometimes jointly, to fulfill provisions of the Railway Labor Act.

Heath said his union had suggested a 3 per cent pay raise July 1 and another 3 per cent boost Jan. 1. He said the railroad offer was made informally in subcommittee meetings.

"Neither the union nor the railroad committees have as yet made an offer on wages," Short said.

Fulton Lewis Suit Withdrawn

Washington—(UPI)—A libel suit, which resulted in a record \$145,000 judgment against radio commentator Fulton Lewis Jr. until the verdict was set aside as excessive, has been withdrawn.

Attorneys would not comment on whether or not the case had been settled out of court. Lewis had no comment. The suit was withdrawn Wednesday.

The action originally was brought in January, 1957, by Mrs. Pearl Wanamaker, 60, Seattle educator. It charged that in a 1956 broadcast Lewis mistakenly used her name in speaking of a woman whose brother had gone behind the Iron Curtain and renounced his American citizenship.

Last Jan. 31, a federal court jury here awarded Mrs. Wanamaker \$145,000, largest ever given by a jury here.

On May 6, federal Judge George L. Hart Jr. said the damages were "so excessive as to shock the conscience." He said there should be a new trial in the case.

Local Man Appears In Montague Court

Yreka—Rudolph Palmer Borgen, 59, of Medford, pleaded innocent to two counts of violating state labor codes when he appeared in Montague judicial district court this week.

Borgen was charged with violation of state statutes requiring posting of bond covering two weeks wages for employees, and for failure to pay wages at the Montague lumber mill he operated last summer.

He failed to appear for arraignment in the Montague court Jan. 14, and an order for forfeiture of his \$300 bail bond was issued by James B. McAdams, judge of the Montague judicial district court.

Borgen appeared with his bail bondsman this week and pleaded innocent to the charge of failing to post bond and innocent to five separate charges of failing to pay wages.

He was held in the county jail in lieu of bail set by Judge McAdams at \$500 for each count plus the \$300 bail set following his original arrest Dec. 16.

British Tradition Rudely Shattered

London—(UPI)—Englishmen choked in disbelief over their tea cups this morning. Yet another British tradition had been rudely shattered.

A motorist had dared drive through the horse guards arch Wednesday afternoon.

An auto sped across the parade ground and disappeared in the Whitehall traffic. The scarlet-coated mounted sentries with their gleaming breast plates who stand motionless at either side of the arch, were motionless—and amazed.

One foot soldier, a bare sword at his shoulder shouted "halt." But his voice could not compete against the roar of the exhaust.

"Disgraceful!" said Major H. D. A. Langley, regimental adjutant of the household cavalry. "Only V.I.P.s with special ivory passes are allowed to drive under the archway," he added.

No one knows who drove the car.

Hoffa Ordered To Stand Trial

Washington—(UPI)—Federal Judge F. Dickinson Letts has ordered Teamsters President James R. Hoffa to go on trial Feb. 23 on charges that he mishandled the funds of a union local.

The Board of Teamster Monitors, appointed by Letts to ride herd on union affairs, filed the charge in an effort to oust Hoffa as head of the big union. Letts set the trial date Wednesday.

The monitors have charged that in handling more than \$600,000 belonging to his home local in Detroit, Hoffa violated terms of a consent order under which he was allowed to become teamster president.

The board accused Hoffa of putting the local's money in a Florida bank where it drew no interest. It also charged that part of a money was used to finance a real estate development in which Hoffa held an interest.

Flames Cause \$250,000 Damage

Saratoga, Calif.—(UPI)—A freak accident touched off a fire Wednesday that caused an estimated \$250,000 damage to an auto agency and an adjoining antique shop.

Fifteen new cars and 10 autos belonging to customers of the agency were destroyed in the blaze, which was fought by 40 firemen for more than an hour.

Auto dealer Al Beckham told authorities he had just sold a new car and noticed a leak in the tank as he started filling it with gasoline. The car was taken to the agency garage and put on a hoist.

Mechanic Neal Sigler said he snapped on a drop cord light and there was a flash. A spark ignited a nearby bucket of gasoline. The flames spread to the antique store next door.

Beckham estimated his losses at more than \$200,000. The store suffered \$50,000 damage, including the loss of many valuable antiques.
