Portland, Ore. (UPI)—The Oregon Game Commission changed only five fishing regulations from the tentative rules submitted two weeks ago in the 1960 regulations released Saturday.

Three of these changes rescind proposed new angling deadlines at Oregon City, McNary Dam and the McKenzie boating area. The commission moved these deadlines back to their 1959 positions.

Salmon anglers on the Umpqua received an extension of two weeks and the season will now run through Nov. 15. The final change was an addition to the rules which will allow Snake river anglers to take trout through the winter months below the deadline at Pine Creek.

The trout season was set from April 23 to Oct. 31 in all zones except streams in zones 1, 3 and 4. In zone 1 the season was set from May 28 to Oct. 31 and for lakes, reservoirs and their tributaries within national forest boundaries in the Cascade mountains the season opening was set for May 21.

The complete rundown for zone 4 includes:

Fish lake: Opens April 23 to Oct. 9.

Howard Prairie reservoir opens April 23 to Oct. 9. All tributaries within Talent project subject to stream regulations in zone 4.

Rogue river: The main Rogue river channel, except the backwaters of Gold Ray and Savage Rapids dam, is closed to night angling for warm-water game fish.

Rogue river: Including tributaries below Mule creek and Illinois including tributaries below Indigo creek open to trout not less than 8 inches May 28 to Oct. 2. All other waters are open for trout not less than 6 inches from May 28 to Oct. 2.

Rogue river: Exclusive of tributaries, for trout not less than 12 inches below Gold Ray dam Oct. 3 to Nov. 30 and below Hells Gate Oct. 3 to Feb. 29.

Rogue River: Exclusive of tributaries, open to salmon and jack salmon angling above Mule creek March 26 to June 30 and below Mule creek March 26 to Nov. 30.

## Burlison Victor in LA Track

Los Angeles (UPI) — University of Oregon Track Coach Bill Bowerman opened the first Los Angeles Invitational Track Meet here Friday night and then sent out two of his pupils to score wins.

Sophomore sensation Dyrrol Burlison, a national AAU champion, raced to a brilliant 4:06 victory in the mile run in which teammate George Larson was barely beaten out of second place by inches by Phil Coleman of Chicago.

Sweden's Dan Waern wasn't in the race after the first quarter.

And Jim Grelle, who captured the NCAA mile last year for Oregon, won the 1000-yard run in the exceptional time of 2:09.5.

The fourth Oregon participant in the invitational meet was freshman hurdler Steve Pauly, who finished second in the first heat of the 60-yard hurdles in 7.6 seconds, losing by about a yard to Southern California frosh star Rex Cawley.

But in the finals Pauly was no match for Olympic titlist Lee Calhoun and finished fourth, again being timed in 7.8 seconds.

## Oregon Staters Defeat Washington State 62-59

Pullman, Wash. (UPI)—Favored Oregon State pounded out a 62-59 win over Washington State Friday night in a seasaw basketball battle that saw the Beavers fire a healthy 42.6 from the field.

Jay Carly, who brought the Beavers from behind shortly before intermission, fired 13 points for second high behind the Cougars' Charlie Sells who planted 16.

Paced by Steve Flynn and a pair of driving lay-ins by Bill Wold and Karl Anderson, the Beavers snapped a second half tie and went ahead to stay with nine minutes remaining.

WSU's John Maras put the Cougars to within one point, 55-54, with two minutes to go on a lay-in, but the Beavers held.

The Cougars led 39-33 midway in the second half after overcoming a 30-25 halftime deficit. WSU took an early lead, 6-2, and the team traded it back and forth until Carly opened up.

OSC won its tenth game against only four losses. The Cougars left the game with 8-11.

The Beavers' 16-22, at the free throw circle might have made the difference. WSU hit 15-31 at the charity line, fired 37.9 from the floor.

# The Hallmark of Circulation Value

In the same way that STERLING on silver signifies a standard of known value, so is the A.B.C. emblem a symbol of integrity for the circulation of newspapers and periodicals. It means that circulation so identified is measured according to the rules and standards of the AUDIT BUREAU OF CIRCULATIONS

The A.B.C. is a cooperative and non-profit association of 3,450 publishers, advertisers and advertising agencies. Organized in 1914, these buyers and sellers of advertising brought order out of advertising chaos by setting up standards for paid circulation and establishing rules and methods for measuring, auditing and reporting circulations.

Therefore, the work of the A.B.C., of which this newspaper is proud to be a member, provides you with a direct and valuable service. You can buy advertising as you would make any other sound business investment — on the basis of well known standards, known values.

At regular intervals one of the Bureau's large staff of experienced circulation auditors makes a thorough audit of our circulation records. The results of this exacting audit show: How much circulation we have; where our circulation goes; how it was obtained; and many other FACTS that you need in order to know just what you get for your advertising dollars.

This audited information is published by the Bureau in easy-to-read A.B.C. reports which are available to our advertisers on request. Ask for a copy of our latest A.B.C. report.
