TURKEY STATE

Sacramento–California produces more turkeys than any state, although every state engages in growing turkeys.

Cottage cheese consumption has increased 80 per cent in the past decade. And local grocers, with an eye toward informing their customers of the latest trends in tastes, have constantly been increasing their investments in newspaper advertising. Since 1950, they have upper their expenditures a spanking 120 per cent.

The Medical Roundup

by Walter Alvarez

Emeritus Consultant in Medicine Mayo Clinic
Emeritus Professor of Medicine Mayo Clinic

FIVE HUNDRED NEW PENICILLINS

I read that at Syracuse, New York, scientists from several parts of the world reported the recent synthesis of more than 500 new types of penicillin. Nobelist Ernst B. Chain and others are hoping that some of these new drugs will be effective against the now very troublesome penicillin - resistant staphylococci. Perhaps some will be tolerated by patients who have become allergic to ordinary penicillin, and perhaps some will combat bacteria that never could be combated by ordinary penicillin.

DR. ALVAREZ

As Dr. E. P. Abraham has shown recently, at last chemists are beginning to understand how the several anti-biotics act to injure bacteria. Some damage the surrounding wall of the germ, while others interefere with the development of the essential protein that lies within. It is fortunate for us that the antibiotics tend to damage growing bacteria much more than they tend to injure our body cells.

CALIFORNIA AFTER CANCER QUACKS

I see the California legislature has just passed a model anti-quackery law. The cancer quack's main complaint always has been that scientists are too narrow-minded to, first, investigate his secret cancer cure, and then to give him the great credit and honor he thinks he deserves. The only trouble with this is that when health authorities go to his office to see what his treatment is, how he is handling patients, and what results he is getting, he becomes very secretive.

Now, it will be the duty of a fine committee made up of physicians, prominent citizens and experts from cancer research laboratories, to go into the office of every cancer quack, to see what he is doing, and to analyze the drug he is using. He will have the chance which for so long he has been demanding, to prove to the world that he has the cure for cancer.

If the committee finds that he is just a self-deluded, simple fellow, or, more probably, a swindler with an old criminal record, and if they find that his patients are not getting well, they can order him to stop practicing. If he continues, it will be up to the State's Attorney to prosecute him, and there are now some teeth in the law.

My hunch is that the law will not be very successful, for two reasons; one, that we human beings love quacks; we believe in them and believe that, instinctively, they know something that learned scientists never can learn.

Two, some cancer swindlers take in so many thousands of dollars a week from the desperate relatives of dying patients that, when arrested, they can afford to employ some of the best legal talent in the state. Also, juries commonly sympathize with the quack; they think he is an underdog who is being persecuted, and so they tend to set him free.

Influenza Said on Rise in Oregon

Portland – (UPI) – The State Board of Health said Tuesday influenza is on the rise in Oregon. The statement warned that an epidemic is pending.

The department listed 1,429 reported cases of flu during the seven-day period ending last Saturday, more than 50 per cent higher than the 810 cases reported a week ago.

Candidate Labels Park 'Wasteful'

Silverton–(UPI)–R. F. Cook of Silverton, who seeks the Republican nomination for U.S. senator from Oregon, Tuesday labeled the idea of an Oregon dunes national park as "unnecessary, wasteful and trampling private rights."

He wants the bid to unseat Sen. Richard L. Neuberger (D-Ore.), who introduced the dunes park legislation.

Cook, a farmer, said his platform also includes scrapping the farm program in an "orderly and rapid manner," bolster private enterprise against government in business and fight what he terms the "trend of paternalism in government."
