

# IKE OFFERS NUCLEAR TEST BAN

**MEDFORD MAN HONORED** — Medford High school football coach Fred Spiegelberg, center, received the Man of the Year award at the 12th annual Hayward Awards in Portland Wednesday night. Shown presenting the award are Doug La Mear, right, and Jack Hurley, main in Oregon Sports award at the 12th annual speaker at the dinner, left.—(UPI Telephoto)

## Fred Spiegelberg Named Oregon Sports Man of Year

### Medford Coach Receives Honor At Portland

Fred Spiegelberg, Medford High school head football coach, was named "Man of the Year" in Oregon sports last night.

The award for 1959 was announced at the annual Bill Hayward Banquet of Champions in Portland. Spiegelberg was honored for his role in guiding his Black Tornado team unbeaten and untied through a 12-game season to the state Class A-1 grid championship last fall. He was in Portland to receive the large trophy emblematic of the honor.

Dyrol Burleson, University of Oregon's stellar miler, was chosen "Athlete of the Year" at the dinner sponsored by the Oregon Sportswriters and Broadcasters association.

Spiegelberg has been Medford head coach eight years. During that time his teams have won one state championship crown and have been runners-up on two other occasions. They have been Southern Oregon conference champions or co-titlists six successive years.

The Washington State college graduate's Medford teams have won 58 games, tied 6 and lost 19. Spiegelberg was line coach here three years before becoming head coach.

The Black Tornado mentor has been chosen to coach the State team for the Shrine all-star football game in Portland next August. It is his third such head coach assignment. (See story also on page 10)

### City's Programs Are Outlined at Dinner

Medford city officials held their first "Living Annual Report" banquet at the Rogue Valley Country club last night and from all appearances it was a success.

Sixty-five persons attended the no-host dinner, at which the city's department heads and board and commission chairmen outlined the duties and functions of their respective agencies, reviewed their activities and accomplishments for 1959 and forecast some of their plans for 1960.

Mayor John Snider said it was the purpose of the banquet to give a more personal touch to the city's annual report and to give each city administrator the opportunity to find out what is going on in departments other than his own.

**18 Reports Heard**

Eighteen reports were heard, including that of the city manager and some of such lesser-known city agencies as the Medford State Athletic commission, the Civil Defense department and the civil service commission.

After the individual reports had been heard, City Manager Robert Duff summarized the past year's activities by pointing out what he feels were a few highlights of the year.

One of the most outstanding accomplishments in Duff's estimation, was the completion of sanitary sewers in the Kenwood-Grandview, North Laurelhurst and Berrydale districts which eliminated "critical" sanitary conditions on the city's perimeter.

**Other Highlights**

Other highlights are the 10-year contract which Medford entered into with the rural fire protection district, the codification of the city's ordinances and a new subdivision ordinance.

He also mentioned the donation to the city of a logging locomotive by the Medford Corporation, the start in the Jackson park swimming pools and the near completion of the Eighth st. bridge.

## India Parliament Hears Khrushchev Ask Disarmament

### Unenthusiastic Welcome Received

New Delhi, India —(UPI)— Soviet Premier Nikita Khrushchev called again today for world-wide "general and complete disarmament" in a speech to a joint session of the Indian Parliament.

The bid came a few hours after he had arrived in New Delhi and received a friendly but unenthusiastic welcome on the first leg of a three-week good will tour of Southeast Asia.

**Met By Officials**

The crowds that greeted him at the airport and in the city were estimated at 300,000 by the police. But the total was far overshadowed by the one million wildly cheering Indians who turned out to greet President Eisenhower with unrestrained delight on his visit here last Dec. 9.

High Indian officials, headed by President Rajendra Prasad and Prime Minister Jawaharlal Nehru, met Khrushchev at the airport.

Khrushchev paid an official call on Nehru and held preliminary discussions on the issues he probably will cover during his five days in India. **Depends Upon West**

Then he went to the Parliament, where his speech was largely a reiteration of views he had expressed many times before.

He promised that Russia would do "everything in its power" to bring about successful completion of a treaty on "general and complete disarmament."

"We are prepared for such disarmament with the establishment of strict control," Khrushchev said, "and now solution of the problem depends on the western powers."

## Mysterious Object Found Circling Earth

### May Be Unannounced Russian Satellite

Washington —(UPI)— A mysterious earth-circling object about the size of a large automobile was being studied today to determine whether the Russians have put up a secret satellite.

American tracking stations detected the object in a near-polar orbit. They are uncertain whether it is a voiceless satellite, or a section of a space rocket that got into orbit.

**No Cooperation Expected**

One theory is that the object might be the result of a Russian satellite or lunar probe firing that was unsuccessful and was never announced. In this case, the mystery probably would deepen because no cooperation could be expected from the Russians in identifying the object.

Another theory is that the mysterious object may be a section of Russia's Lunar III rocket that photographed the moon last October.

**Not Weapon**

The Defense Department emphasized there was no suspicion that the object was a weapon or in any way connected with the "fantastic new weapon" that Soviet Premier Nikita Khrushchev mentioned recently.

An announcement issued at the Pentagon Wednesday night said tracking stations are watching a dozen man-made objects in the sky, and these include "one in a near-polar orbit which we have been watching for some time and which may be of Soviet origin."

## IKE DEPLORES PUBLICITY BY FACTIONS IN MILITARY DEBATE

Washington —(UPI)— President Eisenhower today deplored sensational publicity by factions trying to push pet military projects.

The President, at a news conference which went heavily into the field of missiles and rockets, also described as crazy a recent statement by

Soviet Premier Nikita Khrushchev that the Russian moon rocket was proof that Communism is superior to capitalism.

Eisenhower, just back from a visit to the Air Force Missile Test Center at Cape Canaveral, Fla., told reporters he felt much better about the na-

tion's missile program as a result of his trip.

But he declared he thought it was a serious mistake for anyone involved in the defense program to push a pet policy by seeking sensational publicity without due consideration for over-all national interest.

## Soviet Union Urged To Accept New Proposal

### President Lists Major Features

Washington —(UPI)— President Eisenhower announced today a sweeping new U. S. proposal for a nuclear test ban.

The President told his news conference the U. S. plan was being presented to Britain and Russia at Geneva today. He appealed to the Soviet Union to accept it as a "constructive beginning."

The President spelled out the four major features of the new plan which he said would

### Russia Rejects Test Ban Proposal

Geneva —(UPI)— The Soviet Union today rejected President Eisenhower's newest proposal for a limited nuclear test ban.

Shortly after the President announced the new proposal at his news conference in Washington and the plan was presented to the marathon test ban conference here, the Russian delegation rejected it as a "step backward."

### TEST HOLES—Exploratory work for footing of a new diversion dam on Bear creek, to replace one further downstream that stands in the way of the planned Highway 99 freeway, was begun this week by the state highway department. The existing dam (or weir) is part of the facilities of the Rogue River Valley Irrigation district and was re-

built after the 1955 flood. The proposed dam site is located just below the Jackson st. bridge. Test holes ranging from 20 to 27 feet deep have been drilled on the banks and in the stream bed, according to Geologist Dan Gano, who is watching from the pickup, above.

### Four-Point Program

The U. S. is proposing to "end forthwith, under assured controls:

- "All nuclear weapons tests in the atmosphere;
- "All nuclear weapons tests in the oceans;
- "All nuclear weapons tests in those regions in space where effective controls can now be agreed to; and
- "All nuclear weapons tests beneath the surface of the earth which can be monitored."

The President also told his news conference that when the western powers and Russia agree on a workable disarmament and nuclear test ban plan Communist China would have to be part of it to make it work.

Officials said the U. S. was expected to propose that the ban in space extend to a height of about 50 kilometers (30 miles), since the Soviet Union and the U. S. are in general agreement that it is possible to detect space tests to that height.

The U. S. proposal calls for banning underground tests which are big enough to be detected by techniques and equipment which Russia and the West now agree upon. The American proposal excludes from the ban all underground tests so small there is still some argument about whether they can be accurately detected with existing equipment or might be confused with earthquake tremors.

### Nine Petitions Filed For Morse Nomination

Nine petitions bearing 82 signatures certified by the county elections department have been filed here to place the name of Sen. Wayne Morse on the Oregon primary election ballot for the Democratic presidential nomination.

The petitions were received by the elections department during the past week.

## Barrow Pit Restrictions Among Subjects Discussed by Planners

Suggested restrictions on fill dirt barrow pits for freeway construction, and a recommendation to the county court for an interim zoning ordinance, were among the items discussed last night by the Jackson county planning commission.

Dave Lowry, chairman of the commission's temporary freeway committee, recommended one addition to restrictions on barrow pits as suggested by the state highway department.

This addition included a negotiating clause which would allow excavations for fill material within prohibited areas when changes are specifically in agreement with the county court. Lowry explained that this would allow for contractual bargaining.

The restrictions suggested by the department included establishing the distance from the city limits, setting the pits' depth and line of direction for proper drainage, and establishing the depth above where fresh water lakes can be formed, pit development to comply with state sanitary authority regulations, and establishing a screen planting of shrubs and trees around the pits.

The restrictions will be recommended by the state highway department to the bureau of public roads for inclusion as specifications in freeway construction contracts in Jackson county. The commissioners stressed that final approval of the restrictions was with BPR.

The commission stated that the excavations should be at least one mile from the limits of incorporated cities. This, too, was stated to be a negotiating item for contractors.

**Interim Ordinance**

The commission recommended to the county court that it adopt an interim zoning ordinance for an area from the north Medford city limits to the Josephine-Jackson county line. It suggested

## Dr. George Adler Dies in Portland

Klamath Falls—Dr. George H. Adler, Klamath Falls physician, and surgeon from 1928 to 1957, died Feb. 9 in Portland from complications following recent heart surgery at the University of Oregon medical school hospital.

## Judd to Arrive Tomorrow Morning

Congressman Walter H. Judd (R-Minn.) will arrive at the Medford airport at 10:20 a.m. Friday to speak at a noon luncheon of the Abraham Lincoln club at the Jackson hotel.

## Theft of Machines Reported to Police

The theft last September of four machines which give the distance between Medford and other cities was reported to Medford city police yesterday.

## County, State Offices to Close

County and state offices in the area will be closed Friday, Feb. 12, in observance of Lincoln's birthday.

## County, State Offices to Close

The day will not be a holiday for federal or city employees, it was reported. Also operating as usual will be the banks, stores and the U. S. Postal service.

## Warm Oregon Reception Pleases Sen. Kennedy

Portland —(UPI)— Sen. John F. Kennedy (D-Mass.) wound up two days of campaigning in western Oregon pleased at his warm welcome and with a statement that this year's election is more important than that of 1932.

## County, State Offices to Close

Schools will be open Friday, and most of them have scheduled Lincoln day programs.

## County, State Offices to Close

Turner, Ore.—(UPI)— A pack of dogs attacked a flock of sheep near here Wednesday, killing four ewes and badly injuring another.

## County, State Offices to Close

Clarence Edward Smith, 814 East Ninth st., who owns the machines and places them in the motels, apparently did not discover that the machines were missing until he inquired recently of one of the motel managers as to where the machine was.
