There's no easier way to keep fit, trim and active!

MILLIONS CAN NOW ENJOY THE BLESSINGS OF DAILY EXERCISE AT HOME

TERRIFIC FOR HEAVYWEIGHTS!
Good muscle tone is but one of the many rewards that accrue to the system from daily exercise. Only good muscle tone can keep your figure from sagging, your stomach from protruding and fat from hanging in rolls. Muscles in motion gradually become stronger, firmer and more flexible. This is what beautifies the figure, pulls in the waistline, and gives you power to endure physical strain and stress. Good muscle tone in the legs, arms, shoulders and back is essential to everyone regardless of age. Exercycle, by exercising all major body muscles in unison, does a wonderful job of muscle toning, thus helping you to live as actively as possible.

There's a world of difference between exercising yourself, and letting EXERCYCLE do it. That's why tens of thousands of men and women have chosen this easier, simpler and more convenient way of keeping themselves fit, trim and active. For EXERCYCLE is the only fully-automatic, motor-driven exercising instrument that can give you a complete physiological workout from head to foot while you just sit and relax.

EXERCYCLE is a complete home gymnasium in itself. No form of artificial stimulation such as massages, baths, vibrations, slenderizing or reducing techniques can match its overall efficiency. Once you own an EXERCYCLE, you have solved your exercising problems for a lifetime. Start now to turn back the clock. Step out tomorrow feeling like a million!

RELAXED OR ACTIVE EXERCISES!
EXERCYCLE is fully adjustable to your present and future physiological needs. There's no limit to how easily or actively you can exercise with it. It builds you up gradually, allowing you to expand your activities as your muscles become stronger and more flexible, without ever exceeding your limitations.

Helps body muscles to become stronger, firmer and more flexible without manual effort on your part

SMALL, SILENT AND ECONOMICAL!
Exercycle is so small, compact and silent, most users keep it in their bedrooms. Fits into any small nook or corner. You can ride it while others sleep. Plugs into any wall socket. Uses less electricity than a TV set. Buy it on easy terms.

WONDERFUL FOR OLDER FOLKS!
Improves Circulation... Doctors tell you that increased action of the main body muscles will instantly step up your circulation. If your circulation is sluggish, increasing the rate of flow through your arteries and veins will make you feel and stay

more youthful and you'll look better. Where blood circulation is poor, Exercycle helps the vital organs to function more efficiently, helps the processes of elimination and the removal of wastes. The normal heart, lungs and brain all benefit from stepped up blood circulation.

Licenses Suspended For Seven Drivers

Salem - The department of motor vehicles has released names of 391 drivers whose licenses were ordered suspended during the period beginning Feb. 1 and ending Feb. 5.

Length of suspension varies, depending on charges involved, recommendation of court, discretionary action by the department or requirements of Oregon law. The department said some of the licenses involving court recommendations may have been reinstated after suspension was ordered.

The department warned drivers that the penalty for driving while suspended is a jail sentence of no less than two days and up to six months, and there may be imposed a fine up to \$500. Under licensing procedures, this will also result in an additional year of suspension.

Among those suspended in Jackson county were:
