### Reducing Pill Use Deported

New York—(UPI)—Reducing pills may have a pronounced effect upon your cash balance, but little upon your weight.

This is the conclusion of Dr. Louis M. Orr, president of the American Medical Association.

In attacking pill quackery, Dr. Orr has stated: "The multi-million dollar traffic in . . . reducing preparations is deplorable from a medical and a public-health point of view."

"Clinical tests have repeatedly shown up these items as a complete waste of money; each individual's weight problem is unique and will be solved . . . by his following the recommendations of his own doctor on diet and exercise or medication, if indicated."
