**Help Sometimes Needed**

To the Editor: There has been a lot said of sterilization of those on welfare, so I would like to tell you my story.

My husband just left one day to go to work, and never came back. He left me with two little children. He's about 11 years older than I, and I married him when I was just out of the eighth grade, and 14 years old, really not old enough to marry. But due to his knowledge, he was able to persuade me and my folks it would be a wonderful life. It was at times, and I miss him very much. I think he fell in love with another, is why he left us. I wasn't able to work out and pay for a baby sitter, so the welfare took care of us. In about a year or so, I met what I thought was a wonderful guy. He was nice to my children and he asked me to marry him, and I wanted to, until one night he raped me because I wouldn't give in to him, and to add to my shame, I became pregnant, and he left town after he'd raped me.

The welfare was good enough to take care of me and my new baby and the two others. The years have gone by and I met another really swell guy. We had two children of our own and he treats all our children the same. I'm so glad I could have some children for him. It wouldn't have been such a wonderful life, as it has been, otherwise.

I hope some of you will understand, we're not all dirty and slums, but circumstances sometimes mess up our lives for a while. I've always had a clean house and children, and I've tried to raise them right.

There's just this I would like to add. I wish there was an education program for those on welfare who would like to receive an education. Those checks don't stretch even far enough to go to the adult education, at high school at night and even if they did, there's not enough for a baby sitter, so unless one can remarry, there's not very much hope.

I still haven't any education, and it isn't because I'm dumb, it's the way everything has happened.

Perhaps some one could look into this to help those who'd like to be able to make their own way.

Mrs. Medford

**Korean Orphan Appeal**

To the Editor: I would like to make an appeal to Christians, Sunday school classes or any church or women's group to sponsor a needy Korean orphan. For only \$8 a month—for 6 months, a year, or as long as you want—you may sponsor one of these needy orphans and bring the gospel to him, besides supplying him with his physical needs. Please prayerfully consider this appeal. Sponsors are urgently needed—there are still hundreds of orphans roaming the streets, exposed to the severest weather, naked, starving, unwanted and unloved.

These are all homeless, destitute youngsters, cared for in Korea by Korean people in Everett Swanson Evangelistic Association. Seven years ago, Mr. Swanson saw the heart-felt need in Korea and with lots of compassion and very little money, established the first orphanage, and from that grew 41 such homes. Great emphasis is placed upon their spiritual needs—training them to become Christian leaders. These Korean people are very humble and become very dedicated, zealous Christians—bearing much fruit. I'm sure any person or group desiring to sponsor one of these orphans would be richly blessed. The Bible says "Faith without words is dead"—"If a brother or sister be naked, and destitute of daily food, and one of you saith unto them—Depart in peace, be ye warmed and filled; notwithstanding ye give them not those things which are needful to the body, what doth it profit?" Also it says, "Pure religion and undefiled before God, is to visit the fatherless and widows in their afflictions". So we know it is God's will for us to take care of these needy orphans. For we in America are rich—and how hard for a rich man to enter the kingdom of heaven.
