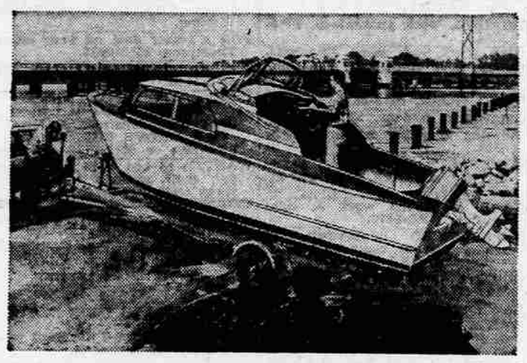
FAST RUNABOUT—The fastest runabout exhibited in the recent National Boat Show was the 20-foot Consul built by Ancarrow Marine, Inc., Richmond, Va. She will take engines up to 470 horsepower total, which will provide a speed up to more than 70 miles an hour. Standard models have engines from 225 to 325 horsepower with speeds up to 63 miles an hour. Color scheme is a black hull with a gold aft deck combinded with natural finished mahogany fore deck.



EASY TO HANDLE—Boat trailers get easier to handle all the time. Today it is possible to trail large cruisers (above), sailboats and catamarans.

Bathing 'Beauties' to Come in Both Sexes

This year's bevy of bathing "beauties" come in two sexes —male and female!

Yes, this summer as many eyes will be focused on the American male in his fun-styled swim wear as on the "mermaids."

At long last, the bikini has been adopted by the American man. Long a favorite at popular European and other foreign seaside resorts–the bikini now tempts the men to dare to bare in this–the briefest of briefs!

Knit Pants

Or—he'll find fun and fashion both in the to-the-knee length striped knit pants. Their gay colors and novelty styling, make these reminiscent of the "Twenties."

For the more conservative, most swim trunks continue to hold their own in more conventional lengths but come alive in bright colors, fanciful patterns and novelty motifs.

Cover-ups topping the pants styles will be in a wide variety of novelty meshes, knits, printed cottons and blends—in pullovers, cardigans, jack-shirts and others.

Topmost for fun are a wide variety of novelty straw hats and "just-for-kicks" caps.

SPARE FUSES GOOD IDEA

If your outboard motor has fuses in its electric starter, it's a good idea to carry extra ones along with you. They don't take up much room and you'll be glad you brought them along if a fuse blows out.

FIRST AID AFLOAT

Every boat should be equipped with a first aid kit. Although boats are safe, accidents can happen. You may be hours away from a drug store or doctor.

BIG BUSINESS

Boating is a big business in the United States. Enthusiasts spent about 2.5 billion dollars last year in pursuit of boating fun.

The total investments in golf courses in the United States approximates $1,325 million.

Wood Preferred in Most Inboard Boats

According to a survey of more than half a hundred cruisers displayed at the recent National Motor Boat Show in New York, wood–either carvel planking, lap-strake or sheet plywood – is the preferred material. This is in spite of the swing to fiber glass as a hull material for outboards and sailboats.

The 1960 inboard Show flotilla included only five fiber glass inboard cruisers–four of these new this year–and no inboard cruisers of steel or aluminum. There were 12 wooden lapstrake models and all the rest were either carvel (smooth) planked of solid wood or constructed of sheet plywood. This marked the first Boat Show in many years that did not have at least one steel cruiser on display.

Biggest craft in the Coliseum and "Queen of the Golden Show" was the 46-foot, $51,000 Richardson motor yacht, a seagoing "mansion" for eight. It boasts the last word in appointments for navigational excellence and luxurious living afloat and has gasoline or diesel power options up to twin 275 hp engines.

In all there were six boats 40 feet or over on the huge second floor of the Columbus Circle showplace. The Matthews 42-foot double cabin flying bridge yacht, probably the most costly vessel in the exposition, was in the $50,000 price range. It sleeps six in opulent comfort and is a real seagoing craft. Others in the big class included: a Colonial 42-foot motor yacht, a Richardson 40-foot double cabin cruiser, the 40-foot Wheeler Playmate promenade deck yacht, and a Leek Pacemaker 40-footer.

Installment Plan Available for Boats

If you want to buy a pleasure boat but haven't the ready cash, you can purchase it on the installment plan with as much ease as you can obtain a washing machine, a refrigerator or an automobile.

Supposing you find the boat you want to purchase. It costs $4,000. If you can put down $1,000, the rest can be financed on a time payment plan through your bank or through the dealer from whom you are buying it.

If you want, you can make the arrangements directly with your bank. Anyone in the personal loan department will give you the assistance you need, handle all details.

Almost all boat buyers make the transaction through the dealer. He, in turn, approaches the bank and obtains the necessary forms.

Most time payment plans run for three years, some four years and a few five years.

The average rate that the purchaser pays–whether handled through dealer or bank–is 6 per cent.

The amount of money that the bank will finance for a boat depends on the individual making the purchase. The bank will base its decision on his paying habits, income and ability to pay after a careful investigation.

Arms Collectors to Have Gun Exhibit

According to Dave Franklin, general Sportsfair chairman, another point of interest at the Crater Lions Sportsfair March 26 and 27 at the Medford armory will be an outstanding collection of antique guns owned and displayed by members of the Jefferson State Arms Collectors.

Art Chipman, president of the club, said members will be displaying collections of antique weapons which will feature flintlocks, percussion pieces, old military and other unusual interesting weapons, such as guns pioneers used in crossing the plains, guns soldiers used in the Civil War, Sharps, buffalo guns, and Winchester 73's, credited with winning the west.

The Jefferson State Arms Collectors club has been formed just less than a year with membership comprised of individuals of southern Oregon and northern California.

Members will man the exhibit at all times to answer questions from the [illegible] This is the first time [illegible] of the guns have been on public display, and the first time such an exhibit has been displayed in the Crater Lions Sportsfair.

SCHOLARSHIPS

The National Association of Engine and Boat Manufacturers has revised its scholarship program in naval architecture so that students taking courses at the University of Michigan or Massachusetts Institute of Technology need not specialize in small boat design and construction. Three scholarships are given at M.I.T. and two at the University of Michigan each year.

RECKON THE WEATHER

Before you go out for a pleasant afternoon on the water, try to get advance word on the weather. Observe wind and clouds and soon you'll be able to predict weather fairly efficiently.

CLEAN TANK

Be sure to clean out your tank at the end of the season before storing the motor for the winter. It's a good idea to clean it once in the middle of the season, too.

COURTESY EXAMS

More than 70,000 pleasure boats were given courtesy examinations by the U. S. Coast Guard auxiliary last year. Two out of three measured up to Coast Guard regulations and recommendations.

The Cathedral of Cologne in Germany, seriously damaged in World War II, was started in 1248.

ATTRACTIVE COVER-UP — An ideal fashion for wearing with swim-suits to ward off cool sea breezes. The hooded top in washable cotton terry has drawstring bottom for creating blouson as well.
