The Medical Roundup

by Walter Alvarez

Emeritus Consultant in Medicine Mayo Clinic
Emeritus Professor of Medicine Mayo Clinic

What Makes Intestinal Gas?

Dr. Alvarez

Many persons write begging me for help with their annoying "gas," and I cannot answer them, first, because I don't know what they mean by "gas," and second, because if I did know that, I could not advise treatment without making a thorough study–to try to find out the cause of the flatulence.

Often, when a patient comes into the office complaining of gas, I find that he never has any excess of gas in his abdomen; he never bloats, he never passes much gas, and he never suffers from indigestion. He keeps gulping down mouthfuls of air and then belching these mouthfuls right out again. That is a bad habit, due usually to some fear or anxiety, and the only good treatment is to exhort the person to use willpower and stop the air-gulping.

Some women who complain of bloating will look as if they were 7-months-pregnant, but on x-ray examination, it becomes obvious that they haven't any excess of gas in their bowel. In their cases, the bloating comes on during the day and goes down at night. Sometimes there is pain with it. It is due to a nervous contraction of the muscles in back of the abdomen – they push the contents forward. If a young woman with this disease wants to go out with a man in the evening, she may be able to keep the bloating from forming by going without food all day. I know of no good drug that helps except morphine, and that must not be used because it will produce a terrible habit. In practically all of the many cases I have seen, the woman had highly neurotic relatives, and she was upset nervously–and usually unhappy in her love life. I have seen these women get well only when they found happiness.

Common Offenders

The person who sufers from true "flatulence" passes an excessive amount of gas from the bowel. Often relief can be obtained by keeping a record of the unusual foods eaten from two to four hours before an attack of distress. Some of the commonest offenders are onions, milk, eggs and chocolate.

When the person is very gassy practically every day, the diagnostic trick is to live for just two days on nothing but oatmeal, butter, sugar, broiled lamb, rice and canned pears. If the cause is a food allergy, usually on this diet there is perfect comfort. Then all the person has to do is try one or two new foods a day, keeping a record of those that caused no gas and those that caused a lot of gas.

Can Be Stopped

Sometimes much gassiness is due to constipation. Then it can be stopped in 10 minutes by taking an enema of warm water with a heaping tablespoonful of table salt to the bagful of warm water. Sometimes taking a little food will start the gas to moving. One of the best drugs is a small wine-glasful of the liqueur, Creme de Menthe.

Dr. Alvarez' booklet on arthritis and rheumatism may be obtained by sending 25 cents and a large, stamped, self-addressed envelope with your request to Dr. Walter C. Alvarez, Dept. MMT, The Register and Tribune Syndicate, Box 957, Des Moines 4, Iowa.

Death on Wheels Takes Family Toll

Encinitas, Calif.–(UPI)–Over the years, death on wheels has taken the lives of husband, daughter, father and father-in-law of Mrs. Camilla Lux.

The latest member of Mrs. Lux's family to be killed was her father, Ole K. Lee, 92, who suffered fatal injuries Saturday when he returned from the Los Angeles funeral of his brother.

Lee was walking to the home he shared with Mrs. Lux when he stepped in front of a motorcycle and was killed.

Deputy Coroner Jesse Canale said Mrs. Lux's husband was killed in a motorcycle accident in 1944, her 9-year-old daughter was killed when struck by a train in 1945 and her father-in-law was killed in a 1938 auto accident.

Injured Woman In Boat 12 Hours

Miami – (UPI) – An expectant mother, both her legs broken, lay for 12 hours in an open boat on Biscayne Bay here Sunday.

The boat was impaled on a piling under a busy causeway but motorists passing overhead could not see it.

Mrs. Walter Davidson, 26, expecting a child in July, survived the ordeal and was in fair condition at a hospital today.

Her husband, airline pilot Walter Davidson, said he was steering the motorboat under the causeway across Biscayne Bay Saturday night when it struck the piling in the darkness.

The impact broke Mrs. Davidson's legs and impaled the boat. Davidson said he fired several flares without effect.
