**The Medical Roundup**  
by Walter Alvarez

Hundreds of people ask me what to do about "colitis" and I cannot make any suggestions because this so-called mucous colitis makes them fearful even to go out with a man. In these cases, the colon, even after years of this formation of gas and mucus, remains to all appearances perfectly normal.

Hence, there is no colitis, and this name should not be given to the condition. I have always refused to use "colitis" in this sense.

**True Colitis**

Finally, there is a true colitis: the so-called "chronic ulcerative colitis" in which the person really has a badly inflamed large bowel, and can become seriously ill with a fever, with many bloody and watery bowel movements each day. This disease can easily be diagnosed from the history, the x-ray studies, and a look into the bowel with a lighted tube. Because we do not know the cause, and have no good and specific treatment for this disease, it is often hard to treat. In many cases, rest in bed, diet, cortisone-like drugs, and certain antibiotics will help. Psychic strain can cause flare-ups in the disease, and hence I always feel rather hopeless when the patient is kept constantly upset, perhaps by an unhappy marriage.

I hope now that the thousands of people who do not know which of the three types of "colitis" they have will understand when I do not answer their letter. Obviously, I cannot suggest any treatment when I cannot guess what is wrong.

Dr. Alvarez's booklet on asthma, allergy and hay fever may be obtained by sending 25 cents and a large, stamped, self-addressed envelope with your request to Dr. Walter C. Alvarez, Dept. MMT, The Register and Tribune Syndicate, Box 957, Des Moines 4, Iowa.

(Released by The Register and Tribune Syndicate, 1960)

**Diagnosis Messed Up**

The naming of "pure nerves" or hysterics or the result of annoyance with a husband or mother-in-law as "colitis" messed up medical diagnosis badly enough; but then we doctors got into another bad habit: we got to giving this name "colitis" to a common nervous trouble of overly sensitive men and women—a trouble in which, when the person goes out to supper, he or she fills up with gas. If this gas cannot quickly be passed, the person's bowel is soon cramping down painful, and much mucus with a little watery fluid starts forming in the rectum. Many people call this "diarrhea," but it is not a true diarrhea because, during the spell, there is so much spasm in the lower end of the bowel

**Pendleton Retains Present Government**

Pendleton—UP—Pendleton citizens have voted to retain the present form of city government.

About 55 per cent of the eligible voters voted 2,238 to 1,019 to retain the city council-city manager form instead of the mayor and city council form.
