

Prisoner Petitions For His Freedom

Salem—UPB—A state prison inmate from Lebanon has filed a petition in Marion county circuit court here seeking his freedom.

Ivan Dale Hetland was given 10 years after he pleaded guilty last fall to manslaughter in connection with the death of Lester Cosner, operator of the 88 Tavern. Cosner died of injuries in a June 5 fight.

Hetland claimed in the petition that he was held for a month without being permitted to speak freely with his attorney. He was sentenced from Linn county.

Fluorescent Lamp Fits Standard Socket

Bloomfield, N.J.—A fluorescent lamp that can be used in an ordinary light socket is being produced by Westinghouse Electric Corp.'s lamp division here.

It gives the home owner the choice of burning either incandescent or fluorescent lamps in the same socket, Westinghouse said, although the fluorescent tubes will probably cost more than conventional lamps.

Portland—UPB—Mrs. Wayne Morse, wife of the Oregon Senator, will address the hospitality luncheon of the Democratic Women's conference for World Peace here May 12. Her topic will be Latin America and World Peace.

Cultural Exchange Expansion Favored by Decisions Groups

Expansion of cultural and scientific exchanges between the United States and communist countries was urged by three-fourths of Oregon Great Decisions participants balloting recently on the foreign policy issue "Communist Time-Table for 1960."

Seventy per cent of the Jackson county participants indicated they felt the same way, according to tabulations.

Opinion ballots from 21 counties were tabulated last week by Oregon State college extension service. Results indicated strong interest in promoting growth of democratic

institutions throughout the free world.

Seventy per cent of Oregon voters, 93 per cent of the U.S. voters, and 67 per cent of the Jackson county voters expressed interest in greater U.S. effort to promote rapid economic growth in underdeveloped areas. A majority of the state's voters urged greater allied effort on the same question.

Favor Greater Effort

Two-thirds of state voters and 92 per cent of Jackson county voters favored greater U.S. efforts to reduce barriers to trade throughout the free world.

In matters of political strategy, the majority of state voters advised using every opportunity for negotiation between communist and democratic leaders; continuing communist-democratic "dialogue" but insisting on concrete evidence of peaceful intentions of communist bloc as a condition of political settlement; and refusal to accept communist control over "captive" areas.

As for military policy, the majority of state voters were in favor of accepting a disarmament program that can be effectively policed and controlled, and of urging U.S. allies to increase their defense efforts.

In balloting on the topic "Divided Europe—Cooperation or Crises," 67 per cent of the state voters suggested consulting regularly with NATO allies on development of common policies and strategies. This suggestion was affirmed by 84 per cent of the Jackson county voters.

Nearly two-thirds of the state voters were in favor of expanding cultural, political and economic cooperation under NATO. Eighty-nine per cent of the nation-wide voters, and 38 per cent of the Jackson county voters supported this action.

Favor Some Change

Most Great Decisions participants favored some change in U.S. political and military policy in Europe during 1960.

Statewide voters ranked 24 U.S. policy proposals now being debated in Washington, giving other top priorities in the following order:

Make no commitments without NATO consultation in U.S. negotiations with Russia.

Continue to insist on free elections as the only basis for German reunification.

Urge greater military contribution from our NATO allies.

Consult with NATO allies before adopting or announcing important shifts in U.S. policies.

Support Atlantic Congress (1959) proposal to call a 1960 conference of leading citizens from both sides of the Atlantic, to discuss and recommend steps for greater unity in the Atlantic community.

Actively encourage further political and economic integration in western Europe.

Phair Won't Stage Negative Campaign

Bend—UPB—Ronald Phair of Klamath Falls, Republican candidate for Congress in the 2nd district, said Saturday he will "not carry on a negative campaign by devoting my time only to a discussion of what the incumbent has not done for the people of this district."

Phair is unopposed for the 2nd district GOP congressional nomination.

Rep. Al Ullman, the incumbent, also is unopposed in the May primary.

Plans Listed for Education Funds

Salem—UPB—The Oregon Department of Education has presented to the Interim Education committee a report dealing with distribution of state money for education to counties rather than to school districts.

The committee is looking into the present system of allocating money directly to the hundreds of school districts in the state, and the possibility there might be a way to simplify the procedure and make it more equitable.

Phoenix—Arizona consistently ranks among the first states in the total amount of money it expends for each child per year for educational purposes.

GLASS CONTAINERS
New York—Glass containers are manufactured principally in about 100 factories in various cities of the United States.

Leaders Predict House to OK Bill

Washington—UPB—Northern and southern leaders predicted Saturday that the House would accept all 18 Senate amendments written into the civil rights bill, ending the marathon battle that has dominated the election year session since its outset.

House approval of the measure, expected a week or two after Easter, would send the bill to the White House for President Eisenhower's signature.

A major roadblock was cleared Friday night when the Senate, after eight weeks of stubborn debate, approved the legislation 71 to 18.

Saturday, Senate Democratic Leader Lyndon B. Johnson (Tex.) told reporters that "I do not think any thinking person suffers from the illusion that this bill will solve all of our problems." However, he said, "I believe that most Americans will regard this as a step forward."

Johnson said "it is a step which, in conscience, we had to take and which we can greet proudly as evidence that America is moving toward the time when all men, regardless of their race, creed or color, will be treated equally by the laws."

The Democratic leader said the "bill can be supported by honorable men" from all sections because it "seeks to right wrongs without punishing anyone for the alleged sins of their grandfathers" and "attempts to do justice without inflicting new injustices."

Walla Walla—UPB—A resolution to urge the Army Engineers to acquire land on the John Day dam pool for wildlife habitat development was approved by a joint meeting of the Oregon and Washington Game Commissions Friday.

SOUND IDEA

London—UPB—President John Connell of the Noise Abatement Society said this week he would take along a bodyguard when he delivered a speech on cutting down noise to a meeting of a motorcycle riders' club.

More VARIETY for your menus

—with these fine foods from SAFEWAY
