

In the Days News
By FRANK JENKINS

As this is written, there is trouble in South Korea. It is BAD trouble. People who don't like the way the government is being run are DEMONSTRATING against the government. Many of the demonstrators are getting shot. They are getting shot with government guns.

There is trouble in South Africa, where people whose skins are dark are demonstrating against government that is run by people whose skins are light. A tragic number of the demonstrators have been shot down. With GOVERNMENT guns. Many of them have been WHIPPED. With GOVERNMENT whips.

THERE is trouble in Venezuela. There is trouble in Cuba. There is trouble in Algeria. There is trouble in the Middle East. There is trouble in Indonesia. There is trouble in Southeast Asia. There is trouble almost everywhere one looks.

And—
A lot of this trouble arises out of dissatisfaction with government.

BUT—
You may say—
What of Communist Russia?

What of Communist China? We don't seem to hear of much trouble there. If not, WHY not? Are the people of the communist nations SATISFIED with their government?

APPARENTLY not. A Word has just leaked out of bloody riots in the Kazakh Republic of the Soviet Union. One bloody riot took place in Kazakhstan last October. The rioting is said to have stemmed from discontent with Moscow's program to impose speedy development on industry and agriculture. The workers want more things such as automobiles and new houses and plenty to eat and plenty to wear.

What happened? Soviet troops were sent in to quell the uprising. THEY QUELLED IT WITH GUNS. The uprisers were shot down. So . . . we may assume . . . the reason we hear so little of trouble in Communist Russia and Communist China is that the communist governments of these countries keep it dark by means of super-efficient government censorship.

ONE more question: Does one hear of troubles in Switzerland?

The answer is NO. For more than a century Switzerland has been peaceful and happy and prosperous. The reason is that a little better than 100 years ago the people of Switzerland took things into their own capable hands and organized a system of government (basically similar to ours, but with LESS POLITICS than ours) that has kept Switzerland peaceful and prosperous.

WHY? Well, the Swiss finally learned how to make government work for ALL the people, rather than for the politicians.

That's about the size of it.

Beloit College Students in Riot

Beloit, Wis. — (UPI) — Police and firemen had to battle 90 minutes Thursday night to put down a riot of about 300 to 500 Beloit College students.

The trouble started as a series of water fights between students on fraternity row. Police were called when several passersby reported getting doused with buckets of water.

The battle was halted when dean of students John Gwin told rioters over a police loudspeaker that firemen would turn hoses on them unless they stopped. Police arrested five students but later released them in Gwin's custody. Five police officers reported their uniforms damaged but the only injury was to a coed hit by a rock.

Highway Group Plans Inspection

Salem — (UPI) — The three-member Oregon Highway Commission will make a three-day inspection of U.S. Highway 30 and other routes beginning Monday.

The tour will begin in Portland and terminate in Portland Wednesday evening covering 983 miles. The group will go by bus.

Other routes to be inspected are segments of U.S. Highways 26 and 97 and state highways 82, 19, 206, and 216. The Commission will make stops in Pendleton, La Grande, Ontario, John Day and Moro.
