

**CHARGED WITH MURDER**—John S. Sweeney, 20-year-old junior at American University in Washington, D.C., is shown arriving at police headquarters where he was charged with first degree murder in the fatal stabbing of his girl friend, Judith Hubbard, 21, also a student at American. The girl, daughter of Rear Adm. Miles H. Hubbard, was stabbed in the chest during an apparent lovers' quarrel. (UPI Telephoto)

### Contest on Old Ads Held by Groceteria

"If you want government provisions you will have to hurry."

This is a quotation from a Groceteria super-market advertisement in the Dec. 16, 1920 edition of the Mail Tribune.

The Groceteria recently concluded a contest in which they offered prizes to the persons bringing in the three oldest Medford Mail Tribunes containing Groceteria ads.

They started advertising in the paper on Nov. 20, 1920, when William Gates and Wil-

### Personal Income Sets Record High In Oregon in '59

Personal income in Oregon moved up to a record high in 1959, according to a preliminary estimate made by the office of business economics, U. S. department of commerce, according to the Portland field office.

Total income received by residents of the state last year was \$3,809 million, compared with \$3,556 million in 1958. Oregon's income increased seven per cent over the previous year. Nationally, income rose six per cent.

On a per capita basis, income in Oregon last year was \$2,150, a gain of seven per cent over the 1958 average of \$2,006. The nation's per capita income last year was \$2,140. It was the first time since 1933 that Oregon per capita income has surpassed the national figure.

**Factory Payrolls**

Factory payrolls in the state moved ahead at a faster rate than in the nation, with the largest increase occurring in the key lumber industry. In addition, the agricultural income in 1959 was little changed from the previous year, and Oregon did not feel the dampening effect that the decline in farm income exerted on the overall income flow nationally.

Developments in lumber manufactures have special significance for Oregon economy, for this industry alone accounts for more than half of all factory payrolls and as much as one-eighth of all income in the state.
