STOP OILY SKIN TO CHECK PIMPLES!

Don't pick, scratch, squeeze
or merely "cover them up!"

Doctors know that acne or pimples are caused by the germ called the *acne bacillus*. These germs invade overactive oil glands in the skin, cause blackheads and pus pockets; then your skin "breaks out."

What's needed is (1) to dry up the excessive oil that collects on skin; (2) to destroy acne germs on the skin, and (3) to stop itching and irritation so pimples can heal.

A doctor's formula, liquid Zemo has this effective 3-way action; also keeps skin looking *cleaner!*

Get liquid Zemo, Ointment, too. In regular and extra strength. To save—buy the large sizes of Zemo.

LET'S STOP GIVING BABIES AWAY!

By JOSEPH H. REID

Executive Director, Child Welfare League of America

as told to Lester David

EVERYONE HAS HEARD about the vicious black market in baby adoptions, where human lives are bartered for prices ranging up to \$10,000 and higher. Far less is known about the gray market, which is 10 times more widespread and just as potentially devastating to the lives of those involved.

What is this gray market? Here is an example:

In the Midwest, a 35-year-old woman, childless since her marriage 15 years before, adopted a little girl of 18 months who had been orphaned. The adoption was arranged by a family doctor without the help of any recognized agency.

The physician knew how much the woman longed for a child of her own. But he also knew she was suffering from a type of cancer which would be fatal in a few years! With the best intentions, he wanted to bring a little happiness into the life left to her. But soon after the baby was surrendered to his patient, she grew

worse and was unable to enjoy the youngster, much less care for her.

Recently, the woman died, and her husband, his money drained by her long illness, is now left with a completely dependent four-year-old girl.

This is just one of the pathetic consequences of the gray-market adoption problem which is reaching alarming proportions in the U. S. Last year, nearly 20,000 infants and young children were given away in a similarly casual, unplanned, inept manner. These were children who were abandoned, born out of wedlock, or innocent victims of divorce and separation.

Gray-market adoptions are "under-the-counter" placements of babies and young children—private deals worked out by go-betweens, who may include friends, relatives, doctors, lawyers, clergymen. There is no question of willful wrongdoing, and certainly nobody profits from them financially as in black-market transactions.
