

### IF AT FIRST, ETC.

Austin, Tex. (AP)—Joe Wheeler, from time to time, gets in minor altercations with the football team next door. The only trouble is he always comes out second best. His mother suggested that since Joe never wins a fight, it might be a good idea to stop scrapping. "No," Joe said. "I should start fighting better."

The U. S. population, now about 175 million, is likely to grow by 55 million by the time 1975 rolls around. And daily newspaper circulation has been keeping pace—it has nearly quadrupled in the past 50 years.

### Two from Area Get Safety Awards

Earl Bowen, Rogge River, and Wesley Nicholson, Cave Junction, received trips to 4-H summer school from Safety Stores, Inc. according to Oregon State university information.

The summer school is a week-long event held June 18-25 at Oregon State university in Corvallis.

Ed Burns of Powell Butte received a \$100 college scholarship for excellence in building and maintaining a livestock herd, and 35 other 4-H youth will be guests of the firm at 4-H summer school.

### 'Eye-for-an-Eye' Campaign To Restore Sight to Blind

Los Angeles (AP)—An "eye-for-an-eye" campaign, dedicated by the American Eye Bank foundation, to obtaining the best eyes from traffic and heart attack victims because they are the most healthy, was announced Saturday by a non-denominational foundation for restoring the sight of the blind.

The announcement was made jointly by Dr. H. George Blasdel, eye doctor and member of the California Industrial Accident Commission, and Dr. George Z. DuPont, attending eye surgeon at Los Angeles County hospital.

Dr. Blasdel and DuPont said they felt they could establish a "waiting hour" for processing of eyes willed by patients.

"We think we can help somebody, and that's our motivation," explained Dr. Blasdel. "The donated materials (eyes) will be distributed without discrimination, solely for the preservation and restoration of eyesight."

Both have been instrumental in formation of the foundation and have been contributing voluntarily of their time and knowledge for the past seven years, "obtaining eye pledges" from individuals, of whom Blasdel said he has helped thousands of blind persons across the nation.

said the Los Angeles area had two eye banks, while New York State has 42. MAIL TRIBUNE, Medford, Or. Sunday, May 1, 1960 9

### Speech Contest Winners Listed By Local Group

Dean Goddard, son of Mr. and Mrs. Ray P. Goddard, 507 King st., won two high school speech contests last week and is eligible to compete in the state Knights of Pythias contest in Portland, June 18, a contest spokesman said Saturday.

Goddard won the Medford high school contest Monday, and the area contest Wednesday. Wednesday he competed with Miss Sandra Brewer, Grants Pass High school.

Six regional winners from the United States, Canada, Hawaii and Alaska will receive \$5,000 in scholarships. The final contests will be held at the Supreme lodge of Knights of Pythias convention in Spokane, Va., in August.

All expenses of contestants and chaperones and from the contests will be paid by the lodge, it was explained.

Other winners in the Medford contest were Mike Phillips, son of Mr. and Mrs. Kenneth V. Phillips, 1013 Mt. Pitt ave., and Miss Elaine Jennings, daughter of Mr. and Mrs. Sam Jennings, 1805 Ridge Way, who placed second and third, respectively.

All those in the local contest received gifts from the Tallahassee and Supreme lodges of Knights of Pythias which sponsored the local contest.

Monday's judges were Medford's C. E. Wilson and Richard L. Williams, members of the Medford Toastmasters club; and Donald Lacy, speech teacher at Crater High school. Wednesday's judges were D. S. Johnson, Ashland Toastmasters club; C. W. McDonald, 425 Gess Street, both of the Grants Pass Toastmasters club.

### Thompson Receives Elk Scholarship

Wayne Thompson, son of Mr. and Mrs. Charles H. Thompson Jr., 234 Renault ave., Medford has been awarded a \$300 freshman scholarship to Willamette university in Salem by the Elk Lumber company.

Thompson is a member of the First Methodist church in Medford, is president of the Methodist Youth Fellowship, member of the sub-district council and is an officer of the church services.

His school activities have included Boy Scout, Order of the M, Spanish club, dramatics and a student government official. He has been a member of the YMCA and the Boy Scouts of America and has played on American Legion baseball teams.

Thompson will enter Willamette university as a liberal arts student.

### Moon Journey

Berkeley — The moon in its elliptical orbit around the earth every four weeks (27.3 days) travels an average distance of 336,900 miles or equivalent to 30 times the diameter of the earth.

### Vote for Dellenback

and his experienced leadership in public service to Jackson County.

Paid by Dellenback for State Representative Committee. S. V. McQueen, Chairman, 2136 Hillcrest Rd.

# IMPORTANT NOTICE

## ...of Interest to All Advanced Amateur Photographers

Both movie and color slide hobbyist will be given a rare opportunity to see outstanding presentation of color sound movies and large format color slides along with a complete display of the finest photographic equipment of its kind in the world. In addition and of greatest importance will be a lecture-demonstration by Roland Polhem, Gothenburg, Sweden and Knud Hansen, Paillard Inc., New York.

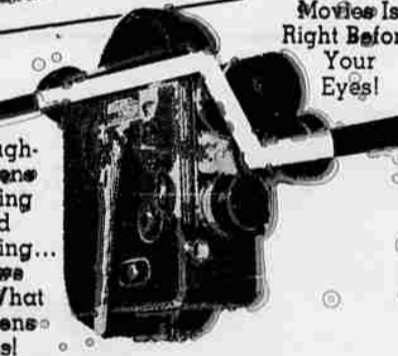

There have been many attempts in the past at forming a camera club in this area. For those interested, this meeting could serve as a place for a very sound beginning.

Because of limited capacity invitation will be on a space availability basis. All those interested may stop at our store no later than Monday May 2, 1960 for information and reservations.

The Hollywood-Equipped B-8L Compumatic

## 8 Hollywood Effects

1. Fade-ins	2. Fade-outs	3. Wash-out Unwanted Background
4. Slow Motion	5. Speed Up	6. Cartoons
7. Remote Control Running	8. All Film (10-80 A.S.A.)	

the **BOLEX 8mm Compumatic** world's most advanced "electric eye" movie camera

**WORLD'S ONLY CAMERA** that measures exposure through the lens! "Eye" works behind the shooting lens position, gives reading for exact field the lens covers—the most precise exposures ever possible in home movies. Gives perfect exposures for every lens you use... every speed you use... every film you use. No other camera in the world can do it!

**FABULOUS EXTRAS FOR HOLLYWOOD EFFECTS!** Variable shutter for fades, seven governor-controlled speeds from ultra slow motion to comic speed-ups, turret for instant switch to wide angle and telephoto shots, single frame and continuous run settings, many other precision features. Perfect exposures for every lens are easy for beginners! Just line up two needles—and shoot! No other camera has all these features!

**OTHER COMPUMATICS FROM \$89.50**  
A choice of Compumatics from a single-speed, single-lens version at \$89.50 to a fully Hollywood-equipped twin-lens version at \$149.50.

The new three-lens turret D-8L, above, is priced at \$164.50 with Yvar 13mm F/1.9 f.f. lens. (Lenses shown optional at extra cost.)

**U.S. SUPPLY LIMITED! GET YOURS TODAY!**

Ordinary "eye" camera responds to all light in front of you. Surplus light from outside the scene area often results in inaccurate adjustment which underexposes your film. Result: heavy, murky colors, details lost.

Compumatic measures light through the lens—sees only exact section of the scene you shoot. Result: perfect movie exposures every time, with world's most lifelike color detail.

As low as **\$6.00** per month

will make a Compumatic yours on Bolex "Pay-as-You-Go" plan. Come in now.
