Former Resident Is Speaker for Presbyterians

Mrs. L. L. Sanders spoke to the Women's Association of the Westminster Presbyterian church and their special guests, the women of the First Presbyterian church of Medford, at the monthly meeting in the Fellowship hall of Westminster church.

Mrs. Sanders, a former resident of Medford, showed colored slides and spoke about her three years as a volunteer worker at the Sheldon Jackson School and Mission in Sitka, Alaska. She was working under the board of national missions of the United Presbyterian Church in the U.S.A.

Mrs. Sanders told briefly of the history of the Junior college and mission in Alaska, our 49th state. She said that Sheldon Jackson was one of the first missionaries in Alaska and was responsible for bringing the first reindeer into the state. Mr. Jackson purchased the reindeer from the Russians. The Indians and the Eskimos could not live without reindeer. Mrs. Sanders said, for they use the animal's milk, make it into cheese, use the meat for food, the fur to stuff toys and parkas, the sinews are dried for thread and the skins are used for clothing.

Mrs. Sanders was the hostess in the museum on the campus of the school and had to learn about each one of thousands of articles housed in the museum. Among these articles are some of the famous Chilkat blankets made by the Tlingit Indians; also articles and figures carved from a native black stone by the Haida Indians. These carvings tell mythological stories; they may have as many as fifteen pieces of sculpture to relate the story.

Totem Poles, Mrs. Sanders said, are best described as the crest of the family that creates the totem. Often the symbols can only be interpreted by members of the family.

Mrs. Sanders visited many of the cities of Alaska during her three years in that state. Among them were Anchorage, Fairbanks, Nome and Juneau. She feels that these are American cities in Alaska but a city like Sitka, where she was located, is the "real Alaska." Sitka was the site of many historical events including the signing of the treaty with Russia.

Mrs. Theodore Barss presented the devotional program, a medley of verses from the Book of Psalms. Preceding the meeting refreshments were served by the members of Ruth circle.

The first fur-trading post at La Ronce, 200 miles north of Prince Albert, Sask., was built in 1781 by Peter Pond.

Speaker Urges Artists to Enter Northwest Shows

Mrs. Eric W. Allen Jr., Medford, executive secretary of the Pacific Northwest Institute of Sculpture, encouraged local artists to enter northwest shows when she spoke for a recent meeting of the Southern Oregon Society of Artists.

Mrs. Allen said that many local artists are doing work of professional caliber and she urged society members to enter all available northwest shows. The speaker noted that Artist magazine publishes the dates and places of the nation-wide shows held in the northwest states.

Mrs. Allen listed the seven points which judges consider in the juried shows in the northwest. They are unity of design; logic of planning; texture and nature of the material represented; relativity of one form to another; balance or composition of color and form; rhythm and good coordination of movement; dynamics, or the feeling of emotion captured in a painting or work of art.

Using works by well known Oregon artists as examples, Mrs. Allen showed members of the society the "do's and don'ts" of framing a picture for professional exhibit.

Mrs. Allen invited all SOSA members to attend a showing May 11 at 8 p.m. in the new Rogue Valley Art association at 220 West Main street. She stated that Richard Doi, art instructor at Southern Oregon college, will conduct a tour at that time and will discuss the works on exhibit there.

Mrs. Frederich Trost, teacher of art at Ashland High school, whose paintings to be put on exhibit at the Public Library of Medford and Jackson county. Mrs. Trost called attention in the chosen paintings to examples of the seven points which Mrs. Allen listed.

Refreshments were served by Mrs. William Dawkins, Mrs. David Engleson and Mrs. Arthur E. Brereton.

Dahack Garden In Tiller Area Visited by Many

Tiller-Drew - Many southern Oregon residents have enjoyed visits to the gardens of Mr. and Mrs. Ernest Dahack, Tiller.

The gardens were started about 13 years ago when the Dahacks bought several acres of land and grubbed out sprouts, brush, and stumps by hand. The acreage is now planted to numerous varieties of camellias, azaleas, lilacs, peonies, irises, primroses, magnolias and other flowers, shrubs and trees.

Mr. Dahack states they have 350 varieties of lilacs and visitors to the garden find that this isn't hard to believe. The lilacs are in all shades of pink, blue, purple and white; there are French, Persian, Hungarian and native lilacs.

Their first lilacs came from the garden of the Medford nurse, Miss June Earhart. After World War I, Miss Earhart returned to Medford and began her lilac garden, gradually increasing it to a sizeable planting. Later when the property was sold, cuttings and starts from many of the bushes were taken to Camp White for planting.

Mr. Dahack's second hobby is rock work, and the couple
