In connection with the program, Jaycee officials reminded residents that trucks provided by City Sanitary Service and the city of Medford will pick up rubbish placed along the curb Friday, May 13. The rubbish, if possible, should be in containers or be piled as neatly as possible to provide easier pickup.

Swimming Season To Open With Two City Pools

The city of Medford will open its 1960 summer swimming season this year with two municipal pools and the offer of season and family tickets.

One of the pools and the season and family tickets will be new.

The $83,000 Jackson park swimming pool which is under construction should be ready to be turned over to the city by May 27. Dedication ceremonies have been unofficially scheduled for June 10, after which the pool will be open for public use.

Parks and Recreation Director Robert Haworth said that other than plastering the entire facility, erecting a fence and doing some minor interior work, the project is nearly completed.

Start Hiring Staff

The city has already started hiring summer staff for the jobs of pool attendants and life guards.

Work was also done during the winter on the Hawthorne park swimming pool where the entire facility received a new coat of paint. A new chlorinator room has been erected and a $900 chlorinator has also been installed at the pool.

The Hawthorne pool will open for evening swimming (4 to 7 p.m.) May 16, weather permitting, Haworth said, and will open for day-round swimming June 9. Day round swimming will open later, he said, because much of the summer help attends school, and will not be available for employment until that date.

906 Scholarships Awarded Oregon Students in Week

Eugene — The Oregon state scholarship commission awarded 906 scholarships to Oregon students last week. Students will attend institutions of the Oregon state system of higher education. Awards are based upon scholarship and need, and went to students residing throughout the state.

One hundred twenty-six of the awards were the new district and county scholarships provided by the 1959 legislature, Dr. Francis B. Nickerson, executive secretary of the commission, announced.

The scholarships provide partial tuition and fees for a maximum of four years at the state institution of the student's choice. One scholarship is awarded to a resident of each county and one to a resident of each legislative district in the state.

One-Year Awards

One-year awards were made to 780 students under the regular state fee scholarship program. The number of these awards is based upon a percentage of the enrollment at each institution. Four hundred forty-six of the awards went to graduates of Oregon high schools who will be freshmen this fall. The remainder were awarded to students already in college.

Fee scholarships awarded for each institution totaled 243 at Oregon State college, 232 at the University of Oregon, 132 at Portland State college, 44 at Oregon College of Education, 52 at Southern Oregon college, 32 at Eastern Oregon college, and 20 at Oregon Technical Institute. The University of Oregon medical school had nine, nursing school, 8, and dental school, 8.

Chairman of the scholarship commission is E. B. Lemon, Corvallis.

In addition to the program administered by the state scholarship commission, the state of Oregon provides a limited number of specialized scholarships which are awarded by the state board of higher education.
