higher resale value tomorrow!

your key to modern living

Gold Medallion Home standards, established nationally by the electrical industry, are high, yet these standards can be met in homes of any type, size, or price, for little additional cost. The Medallion Home symbol, a three-inch metal casting, is awarded by COPCO to homes in our area which meet proper electrical standards covering appliances, lighting, heating and wiring.

This symbol on the outside of your home means that inside you have . . .

The Necessary Work-Saving Electrical Appliances, saving you time, money, and toil, and generally making life more pleasant for every member of the family . . .

Modern Light for Modern Living, enhancing the beauty of your home, making work and play safer and more comfortable . . .

Clean, Worry-Free Electric Heat, safe, economical, and completely automatic . . . giving you room-by-room temperature control . . .

Full Housepower, providing sufficient capacity, circuits, wiring, outlets and switches for your present and future electrical needs throughout your home . . .

GOLD MEDALLION HOME STANDARDS

200 ampere service entrance (multi-breaker type); electric heat—resistance or heat pump; electric water heater; electric range; electric dishwasher; wiring for electric dryer; kitchen and bathroom ventilating fans; convenience outlets—a minimum of one for every four feet of work center in the kitchen, and one for every 7½ feet of usable wall space in living room and family room; lighting as prescribed; any four of the following: air-conditioner; garbage disposal; special circuit for power tools; intercom system; low voltage lighting control; garden and/or patio lighting; feature lighting (highlighting fireplace, planter, etc.); luminous ceiling; built-in heat lamp; dimmer control lighting in at least one room.

BRONZE MEDALLION STANDARDS

200 ampere service entrance; electric water heater; electric range; wiring for electric dryer; electric or oil forced-air furnace; convenience outlets—a minimum of one for every four feet of work center in the kitchen, and one for every 7½ feet of usable wall space in the living room and family room; lighting as prescribed; any two of the following: built-in heat lamp; garden or patio lighting; feature lighting (highlighting fireplace, planter, painting, etc.); dimmer control; low voltage lighting control; intercom system; built-in automatic electric heater; special circuit for power tools; kitchen, bath or utility room exhaust fan; air conditioner.

Building? Ask your contractor or call Copco for complete details on the Medallion Home program . . . *Buying?* Look for the Medallion Home Symbol on your house and on your deed . . . *Remodelling?* Your COPCO representative can show you, without obligation, how to bring your present home up to Medallion standards.

for comfort, convenience, real value—make it medallion!
