

### Straub Opposes Cascade Park

Newport — State Democratic Chairman Robert Straub Tuesday voiced opposition to establishment of Cascade National Park.

Straub said establishment of such a park would be contrary to the best long range interests of the state.

He told Lincoln county Democrats here there should be future recreational development on forest lands to be done within the framework of the sound multiple use concept of forest management.

He said the California Sierra Club had mapped plans for a giant Cascade National Park of nearly one million acres to be carved out of the Willamette, Deschutes and Mt. Hood National Forest. "Such a vast park, if created, would strike a serious blow to our vital forest products industry in Oregon."

### Portland Expects Improved Weather

Portland — (UPI) — Good news, maybe.

The weather bureau said today its charts showed the first indication of a break in the long spell of cold and wet weather.

It said there still were weather fronts in the Pacific to deal with, but that the strong westerly jet stream was being pushed northward at present.

The bureau's outlook called for light showers Thursday in northwest Oregon with less than normal showers again about Saturday and Monday. A rising temperature trend is seen for all the state.

### Berlin Said To Be No. 1 Headache

Washington — (UPI) — Gen. Nathan F. Twining told a Senate subcommittee today that in the wake of the summit collapse "our No. 1 headache is what to do about Berlin."

Twining, chairman of the Joint Chiefs of Staff, told the military appropriations panel "We didn't expect much from the summit."

He said the Berlin problem "has been with us for some time, and it is still at the top of the list."

"I will see that our forces are in a fine alert, ready-to-go condition," he said. "In my opinion, our readiness is higher than ever."

### Mystery Explosion In Fiji Islands

Suva, Fiji Island — (UPI) — Residents reported a "huge ball of fire with an incandescent tail issuing smoke" plunged into the southwest Pacific Ocean about 300 miles southwest of here tonight.

There was no immediate explanation but thousands of persons called police stations, newspapers and radio stations to report the incident and inquire if Russia's new space ship had blown up.

The beeps of Sputnik IV were heard in Paris today as the 4 1/2-ton rocket ship passed directly over the French capital, hours after the Suva incident.

Seismographs in the United States recorded an earthquake at the same time of the Suva phenomenon and a first report from Fordham university indicated it was from that area.

The Atomic Energy Commission in Washington said there were no nuclear tests in the Suva area it knew of and said it knew of no manmade explosion there.

All us cats love Dr. Ross' cat foods

Made to pomper your cat ... they're not just flavors they're the real thing.
