

### Commission to Open Bids on Two County Projects

Salem—Bids will be received by the state highway commission in Salem June 1 for 20 highway, bridge, traffic signal, illumination, signing and building projects estimated to cost \$7,300,000.

Portions of the projects will be constructed in Jackson and Josephine counties, according to the commission. The commission will receive bids on two projects in Jackson county.

One project calls for flattening of the sharper curves on Crater Lake highway between Trail and McLeod. The work is planned to improve the alignment and sight distance on this section of highway. Widening work will be completed by the fall of 1960.

The other project calls for the grading and paving of 5.48 miles of the Lake of the Woods highway from a point near the Hanley ranch, about 12 miles southeast of Eagle Point, and easterly to the Rogue River Forest boundary. The western 2.2 miles will have a 22-foot paved roadway with 8-foot shoulders while the eastern 3.3 miles will have a 33-foot paved roadway, two lanes for eastbound traffic and one lane for westbound traffic. The new construction generally follows the present road. The work is scheduled to be completed in the summer of 1961.

**Interstate Route**  
The commission will also receive bids for paving the previously graded section of the new interstate route of the Pacific highway between the North Grants Pass interchange and the bridge over Evans creek at the town of Rogue River.

The plans call for the travelway of the new four-lane divided highway to be paved with concrete and the shoulders to be surfaced with asphaltic concrete.

Included in the project are plans for the construction of grade separation structures on Beacon dr., over a connecting leg of the East Grants Pass interchange, and over Foothills boulevard at both Jones creek and Bloody Run creek.

The other structures necessary for the completion of this section of new highway are already under contract.

Signing of the highway is also to be done under the contract for this project.

All work on the project, including paving, structures and signing is scheduled to be completed by fall of 1961.

Roughly 25,500,000 children are enrolled in the nation's public schools. Private and parochial school enrollment totals 4 million.

### Court Records

#### MUNICIPAL COURT
