Defense Budget Boost Forecast By Legislators

Increased Spending By Military Seen

Washington — (UPI) — An increase of up to \$1 billion in President Eisenhower's \$39,335,000,000 defense budget was forecast today by legislators concerned about new East-West tensions.

The Senate Appropriations committee starts Tuesday drafting the measure to finance the armed forces in the fiscal year beginning July 1. It is the largest money bill of the year.

Well-informed lawmakers said the summit collapse and intensified cold war difficulties could result in the Senate committee adding about a billion dollars to the defense program.

Rep. George H. Mahon (D-Tex.) chairman of the House defense appropriations subcommittee, also indicated Sunday that the more acrimonious international climate might prompt Congress to increase military funds.

Nothing Spectacular Seen But Mahon said he did not look for "anything spectacular or drastic" in the way of increased spending as a result of the breakup of the summit conference.

The House, acting as the U2 incident was unfolding last month, approved a \$39,337,867,000 defense money bill. The total was only \$2,867,000 above the President's budget estimates, but major changes were made in defense spending programs.

The House rejected the Navy's proposed new aircraft carrier and doubled the administration's proposed cutback in the Bomarc air defense missile. With the money saved, it accelerated the Polaris program for missile firing submarines and increased funds for an airborne alert and anti-submarine warfare.

Rose Festival Opens Tuesday

Portland — (UPI) — The 1960 Rose Festival opens officially Tuesday with six days of parades, ski jumping, visiting Navy ships and other activities scheduled.

The weather man saw the possibility of a few showers during the week but the outlook generally was favorable.

Activities already were under way. Members of the Junior Court visited the Shrine hospital for crippled children Sunday and later planted rose bushes at Peninsula park to honor each of the eight districts they represent.

The Merrykhana parade is scheduled Tuesday night in northeast Portland.

The Grand Floral Parade, highlight of the festival, starts at 10 a.m. Saturday from Southwest 14th and Salmon.

Wednesday night will see the 1960 queen crowned in Multnomah stadium. A ski jumping show featuring Olympic team members will highlight stadium events during the week.

Five Japanese destroyers are scheduled to arrive Thursday. Earlier 13 U.S. ships and two Canadian vessels were to arrive.

Station Attendant Injured Sunday

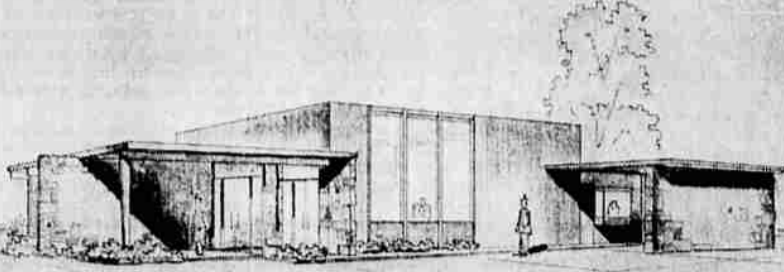

Robert Morris, 34, an employee of Mansfield Chevrolet Service, 600 East Jackson st., was apparently struck down and injured by an automobile Sunday while on duty at the station.

Police were called about 5:20 p.m., on a report that a person had been injured at the station. The found Morris lying nearly unconscious and on his back in the center driveway. A witness said he saw a car leave the station after it left he saw the station attendant lying in the driveway. However, he stated to police that he didn't see the car hit the man.

Morris was taken to Sacred Heart hospital by the Medford Ambulance Service, where he was treated for numerous bruises and small cuts and released. He told police that he remembered the car but did not know if it hit him or not.

Police said the station's cash box had not been tampered with so it appeared that there was no robbery.

Washington — (UPI) — The Supreme Court today upheld 5-3 a New York law barring collection of dues by unions with ex-convicts as officers.

PHOENIX BANK—Bids for the construction of a First National Bank of Oregon branch in Phoenix will be called about June 15, it was announced today. The building will be erected on property owned by the bank on Fourth st. between Main st. and Highway 99 by-pass. The architect's sketch is a view of the proposed bank from the northeast.

Construction to Get Under Way For Proposed Bank in Phoenix

Plans for construction of the new Phoenix branch of First National Bank of Oregon in the near future have been announced by C. B. Stephenson, president of the statewide banking system.

Last December the bank announced that it has been granted a permit to establish a banking office in Phoenix, which at the present time does not have a bank.

Bids for construction of the building will be requested about June 15 and construction will be under way in early July, the bank president said. Completion is expected before winter.

The temporarily styled structure will measure approximately 51 by 83 feet and will feature abundant use of glass. It will be of frame and stone construction, with vertical cedar siding on exterior walls.

It will incorporate drive-in banking facilities, after-hours depository, off street parking lot, vault with safe deposit boxes, and four tellers' windows. Hardwood panelling is planned for interior walls and fixtures.

There will be an employees' luncheon room, lounge, rest rooms, storage room and mechanical room. The bank will be air-conditioned.

The building will be erected on property owned by the bank on Fourth st., between Main st. and Highway 99 by-pass. Plans are being prepared by James L. Payne, Salem and Medford architect.

Uniform Rates Approved For Western Greyhound

Salem — (UPI) — Public Utility Commissioner Joel C. Hill today approved uniform express rates throughout Western Greyhound Lines' Oregon intrastate operations. They will be effective with the filing of new tariffs on or after June 30.

Hill said the proposed tariff changes will eliminate discriminatory aspects of existing tariffs and provide lower charges to certain shippers through the elimination of combined rates and the application of interdivision rates between points served.

Hill said that for example a shipper wanting to send an express package from Salem to Pendleton under present tariffs has to pay the applicable rate from Salem to Portland plus the applicable rate from Portland to Pendleton.

The new tariffs will in general result in increased rates but a number of reductions will occur by reason of the elimination of combined rates over junction points.

Hill said lower rates are anticipated between such points as Salem and Cascade Locks, Beaverton and The Dalles, Astoria and The Dalles, Baker and Coquille, Grants Pass and La Grande and Medford and Baker.

Jackson Pool Used Prior to Opening

The new Jackson park swimming pool was used for the first time Sunday, even though official dedication and opening ceremonies do not take place until Friday.

Medford police received a complaint yesterday that several persons were swimming in the pool. On investigating they found a man and his three children in the pool, completely unaware that it had not yet been officially opened.

The pool has been full of water for the past week, during tests for leakage, and for some reason the pool and dressing rooms had been left unlocked.

The pool was completed last week and there was nothing to indicate that it was not yet open.

Parks and Recreation Director Robert Horowitz was summoned by police to come down and lock the pool. Horowitz said it must have been left unlocked by the contractors who still have charge of the project.

Official opening of the pool is set for 10 a.m. Friday. Horowitz said details of the opening will be announced later this week.

Red Artillery Shells Quemoy For Second Day

Taipei, Formosa — (UPI) — Communist Chinese artillery shelled the Quemoy islands Sunday for the second consecutive day, the Nationalist Defense ministry said today.

A delayed communique released nearly 24 hours late said Red shore guns pounded the Nationalist-held offshore islands with more than 100 shells.

Red artillery fired a 500-round bombardment Saturday, the heaviest in the Formosa Straits in 17 months.

No Explanation The defense ministry offered no immediate explanation why reports of Sunday's bombardment were delayed.

Nationalist officials earlier warned that the Reds might launch a big attack in the 100-mile wide Formosa Strait during President Eisenhower's coming Asian visit.

There was speculation the Nationalists were attempting to soften their warnings in an attempt to create a more relaxed public atmosphere for Eisenhower's June 18 to 19 stop in Taipei.

Nationalist China's jet air force today started a defense exercise against atomic, chemical and biological weapons.

Angle Parking Not Allowed in Medford

Medford police warned today that angle parking is not permitted on any of the city streets.

Captain Clyde C. Fichtner, head of the police department's traffic division, said there have been several misunderstandings lately which have led to violations of the city's parking ordinance.

The only kind of parking permitted on city streets, he said, is parallel to the curb parking. Cars parked at an angle to the curb constitute a hazard to other traffic because they have to back out into the street when leaving a parking space.

Cars found parked at an angle to the curb will be cited, he cautioned.

State Forestry To Man More Lookouts

Southwest district of the state department of forestry posted its fourth lookout today.

Miss Maxine Gibeson, Ashland, assumed the station on Chimney Rock.

Mrs. Jim Wittingham will become lookout on Table mountain tomorrow. Lookouts will be taken to Mt. Isabelle and White point Wednesday, to Soda mountain and Fredenberg butte Thursday, and to Round Top Friday.

Fowler Campaign Costs Said \$13,598

Salem — (UPI) — It cost \$13,598 to put on the campaign of Crook County Judge Harry C. Fowler, Prineville, for the Democratic U.S. Senate nomination in Oregon's May 20 primary, according to reports filed with the State Elections Division.

He lost to Mrs. Maurine Neuberger.

Madras — (UPI) — Larry Braun of Springfield Sunday won the Teen-age Safe Driving Road-E-O here.

Northern California Feels Earth Tremor

Eureka, Calif. — (UPI) — A sharp earthquake rocked the Northern California coastal area Sunday night, but there were no reports of serious damage.

The tremor was recorded on the seismograph at the University of California in Berkeley at 5:18 p.m. (p.s.t.) and registered for 40 minutes.

Seismologist Don Tocher said the quake centered 245 miles northwest of Berkeley, probably in the Pacific Ocean off Eureka. It had an intensity of 5 1/2 to 5 3/4 on the Richter scale.

It rattled windows and shook buildings throughout the area, but the only damage reported was at the Noria Lodge in McKinleyville, where several antiques were broken.

Lengthy Session Expected by Council

Ashland — The Ashland city council expects a lengthy session tomorrow night when it will open bids on a city disposal plant and hold public hearings on paving for Granite and Chestnut sts.

The meeting will begin at 7:30 p.m. in council chambers at city hall.

Other business on the agenda includes a report from the hospital manager, discussion of a resolution concerning the old hospital property and presentation of four proposed ordinances, including one which calls for an increase in city water rates.

Earthquakes Again Jar South Chile

Santiago, Chile — (UPI) — A powerful earthquake rocked already devastated southern Chile again today. It fortunately was centered in a sparsely populated area.

The Seismological Institute said the new sharp tremor was registered at grade 7 on the Richter scale. It centered at Puerto Eden in an interior area where few people live.

Scientists said the earth shock was felt over a 430-mile strip between Puerto Aysen and Puerto Natales. There was no information in Santiago as to casualties or damage.

(See picture on Page 2) Spokane — (UPI) — Oregon Gov. Mark Hatfield told the Whitworth College graduating class Sunday the real backbone of United States strength is "the intellectual, moral and spiritual qualities which we develop."

No Steps Taken in County to Establish Proposed Mental Health Clinic Institute

County Judge Earl Miller said Jackson county has taken no steps to institute a community mental health clinic as proposed by the governor's mental health advisory committee.

The committee recommended that the present child guidance clinics, such as this county now has, should be absorbed by a proposed system of community mental health clinics.

The community clinics would have staff and facilities for the diagnosis and out-patient treatment of mentally ill persons as well as follow up

care for state hospital discharges. The clinics would be responsible, also, for administering such services as child and family counseling, aid to alcoholics, screening of juvenile cases and work with the mentally retarded.

According to the Association of Oregon Counties' news letter, "establishment of community clinics would be voluntary by the counties and the committee's report states that these clinics and programs should be developed gradually as community interest and resources come forward."

Body of Missing Schoolboy Found in Willamette

Portlander Drowns Near Grants Pass

By United Press International Oregon rivers and ponds yielded the bodies of five persons during the week end.

Sunday afternoon the body of Charles Mack, 8, Portland, was recovered from the Willamette river at Portland.

The boy had been missing since Thursday afternoon when he failed to return home from the Abernathy school. His body was found by a skin diver a few hours after a pile of clothing was found on the river bank.

A playmate of the missing boy told police he saw Charles drown Thursday afternoon but was too frightened to tell anyone.

Two Drown Near Salem On Saturday, a 10-year-old girl and her eight-year-old brother drowned in a farm pond near Salem. The body of a Portland man, Fred Rooney, 67, was recovered from the Rogue river four miles south of Grants Pass.

The youngsters were Pamela Jean Alexander and Bruce William Alexander.

An autopsy was scheduled in Portland today on the body of a man found floating in the Willamette river near Swan Island. He was David Moultrie, 22, who had been missing for two weeks. A tug boat captain spotted Moultrie.

Footlighter's Play to Open

Footlighter's summer play, "Tunnel of Love" will open Tuesday, June 7, at 8:30 p.m. at the Fairgrounds theater. The production, to run through Saturday, is considered adult entertainment because of its sophisticated comedy.

A newcomer to the local little theater, Dr. Eugene Ray, plays the part of Dick Pepper, a small town playboy. Dr. Ray has had experience with high school and college plays. Loretta Ware, who played her first role as a middle-aged woman in Footlighter's last production, "Picnic" is cast in a completely different type and will play Isolde Pool, a pretty and vivacious wife.

Also in their second appearances on the Footlighter stage are Betty Lu Foster, who will be remembered for her role in "The Show Off" and Virginia Lusk, who played Dorra Horn in "On the Bridge at Midnight."

Mrs. Foster plays Dick Pepper's wife, Alice, and Mrs. Lusk is cast as an adoption agency worker, Miss McCracken. Veteran Footlighters Les Boardman and Jerry Jerome are also in the cast, with Boardman as Augie Poole and Miss Jerome as Miss Novick.

Tickets may be obtained from any member of the Footlighter organization, at Purucker's Music house or by calling Mrs. Ware, SPRING 3-3592, or Mrs. Lusk, SPRING 2-8635.

Salem — (UPI) — The Oregon study of rehabilitation of mental hospital patients winds up its work June 30, after three years of research.

WEATHER

FORECAST: Variable cloudiness tonight and Tuesday. Cooler temperatures. Low tonight 45. High Tuesday 55.

PROMINENT CONSTELLATION: The Star of Leo, in the west.

VISIBLE PLANETS: Jupiter, rises 9:45 p.m. Saturn, rises 10:18 p.m. Mars, low in east 2:34 a.m.

Eisenhower Not To Take Russian's Attacks Lightly

West Point, N.Y. — (UPI) — President Eisenhower left it plain today after two week end speeches that he won't take Nikita S. Khrushchev's attacks on him and the Western world lying down.

Taking the counter-offensive, the Chief Executive declared in an off-the-cuff talk to Republicans at a dinner here Saturday night that the Soviet premier's "ill-tempered expressions" have brought the West closer together than at any time since he took office.

Without mentioning it directly Eisenhower defended the role of the United States in sending U2 planes across Russia on spy missions, stating the Soviets live in a society of secrecy "which we try to penetrate, and in my opinion properly."

He touched on the Khrushchev tirades again Sunday at Notre Dame University at South Bend, Ind., where he flew on a quick one-day plane trip to make the commencement address. In his speech he did not mention Khrushchev's name but his intention was clear.

Appeals for Aid Program "The enemies of human dignity lurk in a thousand places—in governments that have become spiritual wastelands, and in leaders that brandish angry epithets, slogans and satellites," he said.

He delivered this statement following an appeal for backing for his embattled \$4,175,000,000 foreign aid program.

The President, who flew here from Washington Saturday, returned from his brief Sunday night to join in a sumptuous supper with his 1915 West Point classmates at the nearby farm of Gene Leone, a former New York restaurateur.

Portland — (UPI) — Five U.S. Navy minesweepers will arrive here Tuesday to participate in Portland's Rose festival.

Tokyo — (UPI) — Communist China has officially announced its support of the new Soviet disarmament proposal.

Changes Announced For County School Office Personnel

Several changes in the professional personnel of the Jackson county school office have been announced for the coming year.

Bruce Hitt, assistant county school superintendent, has accepted an administrative position in Pacifica, Calif. Robert Lawrence, elementary curriculum coordinator in the county office, has accepted the principalship of Lincoln elementary school in Ashland.

Karl Hayes, director of special education for Jackson county, is moving to Gresham

where he will assume a job similar to his present one. Katherine Baalman, special education instructor, has received a fellowship at Syracuse university where she will serve as part-time instructor on the college staff.

Economy Move Positions of assistant county superintendent and elementary curriculum coordinator were eliminated by the Jackson county rural school board in what was termed a "major economy move to reduce the budget of the county school superintendent's office."

"Since California salaries are generally higher than those in Oregon, this post will afford Hitt an opportunity for further advanced study as well as allowing for professional advancement," commented County School Superintendent Alf B. Mekoivd.

"Lawrence's new job as Lincoln school principal provides professional advancement and salary increase," Mekoivd added. "Lawrence will have an opportunity to serve as an instructor on the Southern Oregon college during summer sessions, also."

Hayes' new job will allow him extra work as instructor for the general extension division of the state system of higher education, the county superintendent said.

Katherine Baalman's new position will allow her to serve as part-time instructor while working on advanced studies on special education curriculum. She plans to return to Oregon after her work, Mekoivd said.

Remote Lumber Plant Destroyed

Remote, Ore. — (UPI) — Fire Sunday destroyed the John F. Cawse Lumber Company mill here. Loss was estimated at \$250,000.

Both the mill and the planer were wiped out by flames which broke out about 3 p.m. from undetermined origin.

The blaze destroyed 750,000 feet of lumber in the yard, although firemen managed to save about that much more.

The mill, built 12 years ago, will be rebuilt, Cawse said.

Remote is on Highway 42 about halfway between Myrtle Point and Dillard.

'Teacher of Year' Awards Announced

Washington — (UPI) — Mrs. Ralph T. Moreland, a San Bernardino, Calif., teacher, and Miss Emily E. Loenning, a teacher at an American school in Italy, were named winners today of "Teacher of the year" awards given by the General Federation of Women's Clubs.

The awards will be presented at the federation's sixth annual convention here June 17.

Mrs. Moreland, a native of Cherokee county, Kans., teaches the fourth grade at the Del Rosa elementary school in San Diego.

Miss Loenning, a native of Haines, Ore., is a U.S. Army employee who teaches at the Livorno American high school, Livorno, Italy.
