California Golden Girls Organized For Convention

By JOSEPH JARES
United Press International

Los Angeles–(UPI)–The lady who dreamed up Adlai Stevenson's "hole-in-the shoe" campaign button is up to her inventing tricks again for the 1960 Democratic Convention.

Mrs. Goldie Kennedy has taken a cue from the airlines and organized the "Golden Girls of California," who will be hostesses for the army of delegates due in Los Angeles by July 11.

"We want to show the delegates the hospitality of California," she said. "We'll meet them at the airport with a fanfare, escort them everywhere, make their reservations and attend social functions with them."

Mrs. Kennedy is happier with her current project than her creation of the famous Stevenson symbol, which was worn by more than 20,000 Adlai supporters during the last presidential campaign.

"This is the first time it's ever been done," she said. "We had a trial run when the arrangements committee was out here, and it worked fine."

Goldie's "Golden Girls" should be a delightful diversion for the delegates and alternates wrapped up in the serious business of choosing the party's nominee for president of the United States.

The hostess selection committee will pick between 200 and 250 women ranging in age from 21 to 35. Each will be assigned to one state. To be chosen, a woman must be attractive, personable, intelligent, poised and—naturaly—a Democrat.

So the 'Golden Girl" title will fit, each hostess will be asked to acquire a nice tan.

Mrs. Kennedy is almost buried under applications. Women from as far away as Iowa and Pennsylvania have tried to get into Southern California's act.

"We sent a notice to the 250 Democartic clubs in Southern California and have been getting a big response," she said. "We'll be interviewing two days a week for more than a month. When we're through selecting, the girls will receive schooling on such things as make-up, the various states and Southern California points of interest."

The hostesses will be dolled up in smart California-designed uniforms, donated by a fashion designer, and even the buses will be "glamorized" with some feminine touches.

Mrs. Kennedy smiled at the thought of 250 pretty girls in colorful outfits riding in the buses with the delegates each day.

"I guess we had better instruct the girls to be impartial to candidates," she said, and chucked.

"They could really away opinion."

You'll stop the show with this handsome Frozen Sundae Sandwich of ice cream layered with a chocolate nut filling. Secret of its extra goodness is the sweet cooking chocolate that has added so much delicious sophistication to the American cuisine since the fabulous sweet chocolate cake made with German's chocolate swept the country a year or two ago.

Frozen Sundae Sandwich

- 1 quart vanilla ice cream, softened
- 1 package (¼ pound) sweet cooking chocolate
- ½ cup butter
- 2 tablespoons sifted confectioners' sugar
- 3 egg yolks, unbeaten
- 1 teaspoon vanilla
- Dash of salt
- 3 egg whites
- ½ cup chopped nuts

Line two refrigerator trays with brown paper, allowing paper to extend ½ inch above sides. Place softened ice cream in two trays. Freeze until hard.

Meanwhile, melt chocolate and butter in saucepan over low heat. Add to sugar in mixing bowl. Add egg yolks, one at a time, beating well after each addition. Add vanilla and salt and beat well. Beat egg whites until stiff peaks form. Fold into chocolate mixture.

Sprinkle nuts over firm ice cream in trays. Spread with chocolate mixture. Freeze overnight.

To unmold, set trays o hot damp towel. Loosen ice cream around edges with a spatula and lift from tray onto a serving dish. Place second ice cream loaf on first with the chocolate fillings together. Smooth sides with a warm spatula and garnish with shaved chocolate. Slice to serve. Makes 12 to 16 servings.

Beauty Shop Treatment Used In Mental Hospital

By GAY PAULEY
UPI Women's Editor

New York –(UPI)– A beauty shop, figure improvement courses and occasional evenings doing the town all are part of the therapy for mental patients at a pioneering hospital on Manhattan's upper East Side. The hospital's director, Dr. Leonard Cammer, 47, believes that looking well helps a patient get well; that a patient is happier and recovers quicker, if he or she is not ostracized from friends and family except in extreme illness; and that parttime hospitalization works marvels for the "gray area" of recovery.

Gay Pauley

Dr. Cammer explained that the "gray area" meant that period in convalescence when a patient is "not sick enough to stay in the hospital and not well enough to go home."

Have Pass Privileges

Many such women patients spend their days at Gracie Square Hospital and go home nights and week ends to do their housework and be with their families.

Others, professional or business women, close their offices at the end of the work day, pick up their briefcases and head for the hospital for the night.

The hospital has a 232-bed capacity and about one-third of its patients have pass privileges–that is, have permission to visit their homes, go to the theater or dine out, even participate in community activities. For a few, like a woman executive, it means several hours daily at the office.

How successful are these methods, first begun in 1954 by Montreal General Hospital and now in use in at least one other U.S. Hospital?

Most Patients Improve

The psychiatrist pointed with pride to Gracie Square's record since it opened one year ago. About 1,100 patients admitted–90 per cent of them entering voluntarily; 70 to 80 per cent "improved or much improved . . back at a functional level" and an average hospitalization of only 23.9 days for each patient.

Yet the hospital treats every type of emotional illness from psychosis to drug addiction. The patient load is divided about 50-50 between the sexes.

Psychiatry, medicine and sometimes surgery are part of the treatment. But supplementing these basics are a beauty salon and hair stylist for women patients; calisthenics to help a patient with a figure problem; and occupational and recreational programs ranging from art classes and sewing to square dances and barbecue on the hospital roof.

Daughter Home

Gold Hill–Miss Volda Paulson, a secretarial student at Northwest Nazarene college, Nampa, Ida., is spending the summer months at the home of her parents, Mr. and Mrs. Henry Paulson, Sardine Creek road.

Potluck refreshments are to be served during intermission.

Francis Cronin and guest callers will call the squares.

Monastic Diet Study

Chicago–(UPI) – If low fat diets have anything to do with arteriosclerotic heart disease, Trappist monks should relatively free of the disorder.
