Registration for Summer Classes Is Scheduled Monday

Registration for summer school classes for the Medford public schools has been set for Monday, June 20, at 8:30 a.m. at McLoughlin Junior High school, according to school officials.

Regular academic classwork with emphasis upon the skill subjects in the elementary and required subjects for graduation in the secondary program is to be offered.

Principal of the summer session is Glenn L. Linn. Elementary Program In the elementary program in grades one through six, two categories of students are accepted: one group which has not quite made the passing minimum for the grade level because of illness, absences, or other reasons; and a second group which has barely met promotion minimums and is recommended to summer school for strengthening.

Students in grades 7 through 12 are recommended to summer school for making up lost academic credits. In the case of grades 9 through 12, many students take a new subject for credit in order to increase their program of elective subjects the next school year.

Recommendation Needed School officials said that a recommendation from the student's teacher and principal is needed for summer school attendance at the elementary level. The student's own grade status determines his attendance from the secondary schools.

Also offered this year will be personal typing and driver training classes for high school students. The elementary class schedule will be from June 20 to July 22 from 8:30 a.m. to noon. Junior and senior high school classes will be at the same time from June 20 to July 29.

All classes will be held at McLoughlin Junior High school, and no tuition fee for residents of District 540C will be charged.
