

# Murder on V-J Day

*A young girl celebrating peace meets violent death, and the only clue to her killer is so obvious the police almost overlook it*

By WILLIAM T. BRANNON

His fellow workers knew little about him except that he had a great interest in girls. His last address was a small hotel, but he had since checked out.

The search went on. When Engle eventually was found, he admitted he had been interested in the attractive Phyllis, but insisted she had refused to give him a date. He gave a detailed account of his movements the night Phyllis died, and they proved to be true.

He couldn't have murdered the girl.

WITHOUT A LEAD, Chief Rogers got out the records and studied the statements given by various witnesses. In the middle of one, he stopped and reached for the telephone directory. He made several calls and carried on brief conversations. Then he summoned a detective. "Kinney's our boy," he said. "Bring him in."

Charles Kinney repeated his original statement and denied any knowledge of the murder of Phyllis. Chief Rogers wasn't impressed.

"Search his room," he ordered.

Detectives made the search and returned with two significant items: one was a receipt for extra sawdust Kinney ordered after Phyllis had disappeared; the other was a pillowcase stained with lipstick that had been tossed in the laundry hamper.

Confronted with these, Kinney confessed that he had met Phyllis as she returned home, and she had stopped in his apartment to chat. They became involved in an argument, and Kinney had lost his head and smothered her with the pillow.

He had hidden the body in the ice bin and then ordered extra sawdust to make sure it was well-covered until he could dispose of it.

Kinney was convicted Nov. 23, 1945, and sent to prison. Before he was led away, he asked Chief Rogers:

"Why were you so sure I was guilty?"

"There was a big hole in your story. I called all the bookstores, and you hadn't been in any of them that night."

"How could they say that?"

"Easy. It was V-J Day, remember? All the shops in Victoria, including the bookstores, were closed that night."

# Fishermen!

"This Is The World's Finest Fish Catcher!"

By Paul Stog

The Weekend Fisherman

How would you like to catch more fish than you ever caught in your life? How would you like to catch fish when they're not biting for other fishermen on the lake? How would you like to stop coming home empty handed?

I've been fishing for over twenty-five years. I've tried just about every kind of lure I've ever seen in a store or in an advertisement. And just like you, I found that they caught some of the fish some of the time, but most of the time they caught nothing. But now I have found an imported lure that catches fish better than any lure I ever used!

I've caught fish time after time when other fishermen have come home empty handed. I've caught fish on the Vivif when even live bait failed! Vivif has caught fish for me at all hours of the day . . . in all kinds of weather. This amazing lure made fish bite. And now I've gotten the exclusive rights to introduce this lure in America and I'm out to prove my statement: "This is the finest lure ever invented."

### A French Invention

This amazing lure was invented in France by a French sportsman who named it "Vivif." He spent years testing other kinds of lures on fish and watching how they reacted to each lure under water! Who ever did that before? From those years of testing this Frenchman developed Vivif . . . the patented lure with the "Live" tail.

When he started selling Vivif in France it became one of the

most famous fish lures in Europe! Soon its fame spread to 25 foreign lands! In came incredible reports of how Vivif caught fish.

Vivif holds a British record in England. It has made amazing catches in other countries.

Last winter I started importing Vivif to America. I gave it to expert, experienced fishermen to test. They reported, "We didn't believe it but it's true. Vivif caught fish when other lures failed." That's what hard boiled experts say.

But even more important to you is what other average fishermen say. Here's a typical letter . . . from Mr. Robert Hilton of Jacksonville, Florida. "I have used artificial lures from Canada to Florida and have worn out four spinning reels. The VIVIF is far superior to any lure that I have ever used. The day I used Vivif the bass were not biting, even on live shiners. I caught 6 bass on the lure and then lost it to a large bass. The bass broke water three times trying to throw the lure after he broke my 12-pound monofilament line."

From everywhere come their reports of how Vivif makes fish bite like magic . . . of the magic appeal it seems to have . . . of how it out-fishes and out-catches any lure they have ever used.

Why is this true? Frankly I don't know. All I know is that Vivif is different from any lure you ever used. It's the world's most lifelike lure in the water. It starts moving like a live minnow the instant it touches the water. And it is pure magic with bass, pickerel, pike, trout and other game fish.

Think what this means to you. Now at last you can catch just about every kind of fresh water gamefish and panfish as well as many salt water fish. You can do away with digging for worms, catching bugs, frogs or minnows. You can cast, troll, shore fish . . . all with equal success. You can go out after . . . and come back with large-mouth bass, small-mouth bass, pike, pickerel, perch, trout, and walleyes and do it time and again without previous experience and whether you are an expert fisherman or using a cane pole . . . or your money will be refunded at any time!

### Marvel of Design

Not just another stiff plastic or wood lure that "looks good" but doesn't work. Vivif is made of lifelike latex and is the world's most lifelike lure in the water . . . works better than live bait! Color combinations have been carefully selected in actual tests. Perfectly balanced, Vivif doesn't spin . . . never twists your line. Acts and wiggles like a live minnow the instant it touches the water!

### HOW VIVIF WORKS!

Fish have never seen anything like this lure before. It attracts fish by its vibrating tail. It is the world's most lifelike lure in the water. Fish can't resist it . . . and when they grab the lure it "feels lifelike" — doesn't warn them to spit it out before you can sink the hook in! Read this article and learn the amazing story of this imported lure.
