More Information On Corbett Noted By FBI Officers

Additional information has been released by the FBI about one of the men added earlier this year to the FBI's "Ten Most Wanted Fugitives" list.

The man is Joseph Corbett Jr., 31, wanted for escape from the California Institution for Men, Chino, Calif., where he was serving a five years' life sentence in connection with the murder of an Air Force sergeant.

A federal warrant was issued at Los Angeles, Calif., March 21, 1960, charging him with unlawful interstate flight to avoid confinement for murder.

Corbett was born Oct. 25, 1928, at Seattle, Wash. A white American, he is six feet, one or two inches tall, and weighs 160 to 170 pounds. He has light brown hair, hazel eyes, a fair complexion, and is of medium build.

He has worked as a clerk-typist, laborer, warehouseman, laboratory technician, and alkyl-resin cooker for a paint manufacturer. He is reported to have once been a premedical student and is still interested in scientific matters, avidly reads technical and travel books. He is also interested in firearms and target practice. He reportedly has a superior general intelligence, and generally lives quietly and neatly, but becomes erratic when drinking alcoholic beverages, the FBI said.

His two upper front teeth slant inward and he wears glasses, said to be extremely nearsighted and capable of seeing only close objects without them. He has a mole under his chin and a C-shaped scar on his right thumb.

Convicted of second-degree murder, he is considered armed and dangerous.

Persons having information concerning Corbett should notify the nearest office of the FBI.
