Princess Grace on Way to Funeral

Monaco (UPI)—Princess Grace of Monaco, her face hidden behind a wide-brimmed black hat and accompanied by husband Prince Rainier, left near-by Nice today by air for her father's funeral in Philadelphia.

The couple was flying to New York City via Paris. Their Air France Boeing 707 was due to arrive in New York at 5 p.m. (P.S.T.).

John B. Kelly Sr. died Monday at the family home in Philadelphia.

It was only a week ago that Princess Grace returned from her father's bedside after spending two weeks in Philadelphia with him.

The couple attended a special mass in the Monaco palace chapel in his memory before taking off from Nice airport.

Finch-Tregoff Trial Postponed

Los Angeles (UPI)—The second murder trial of Carole Tregoff and Dr. R. Bernard Finch was postponed for another week Monday because the state Supreme Court failed to act on a petition to disqualify the judge.

Finch, 43, and his red-haired mistress, 23, were in court an hour before Superior Judge Leroy Dawson announced the trial would be continued until June 27.

The wealthy physician and his receptionist-lover are accused of first degree murder in the July 18, 1959, slaying of the doctor's wife in the garage of their suburban West Covina home.

Portland Novelist Taken by Death

Portland (UPI)—Sheba Hargreaves, 77, a novelist, died Sunday following a long illness.

Mrs. Hargreaves, born in The Dalles, had been a Portland resident since her marriage in 1906 to Fred Hargreaves.

She began her writing career with the Oregon Journal in 1922 and later was employed as a feature writer by the Oregonian. She was the author of "Heroine of the Prairies," "Ward of the Redskins," "The Cabin at the Trails End," and others.

Lonely Deception Island Probably World's Most Coveted Bit of Useless Real Estate

Deception Island (UPI)—Acre for acre Deception Island is the most internationally coveted piece of useless real estate in the world.

Three nations—Britain, Chile and Argentina—have established claims and taken up squatters' rights on this barren, volcanic island 500 miles south of Cape Horn which was discovered by a 17-year-old American sea captain 140 years ago.

Deception lies at 62.56 south latitude, 60.34 west longitude on the outer fringes of Palmer Peninsula, named after Nathaniel Palmer, the youthful sealing captain who claimed to have discovered it.

Has Little Ice—Despite its proximity to the Antarctic continent, Deception has proportionately little ice and snow, or, for that matter, anything else. Not one blade of grass grows on its volcanic slopes, and nowhere on the 9-mile-wide crater is there a semblance of vegetation.

The name was given by Palmer, who first believed the island to be an extinct volcanic cone rising from the sea. He found it contained an excellent deep water bay formed where the volcano blew out its side, allowing the sea to convert the crater into a completely protected horseshoe harbor.

Sealers and whalers used the port for more than 100 years, and a whaling station was built close to the harbor mouth in 1906. German raiders also were reported to have used it as a refueling base and hideout in World War I.

Today the whaling station is a mass of ruins, rotting timbers and rusting machinery. Scattered about in the black, volcanic sand are whale bones, splintered boats and debris.

Seamen Buried—A bit up the hill is the old cemetery where some 600 men lie buried, most of them Scandinavians. All but one were

whalers and sealers who died aboard ship or while working at the station. A polished marble shaft records the names of eight Norwegian seamen who apparently were lost with their boat in 1924.

The Norwegian-British whaling company—the Hektor Co. Ltd.—abandoned its whaling operations at Deception through the ship's captain, ended with Jackson finding the seaman 22 pounds sterling (\$5.00).

Each man signs up for a two-year contract, and all are housed in the big wooden frame dormitory which contains workshops, generating plant, weather bureau, bunk-rooms, kitchen, storehouse, and recreation facilities.

Temperature Varies—Jackson said the temperature varies between the high 60's in the summer and 20 below zero in the winter. Deception is the main base for other British stations farther south along the Palmer Peninsula, and a light plane and airfield are now operational.

Despite their political differences over ownership of the islands, the three groups cooperate and fraternize, especially during the holidays.

"It's a pretty good life down here," explained geologist Mike Tween. "So good, in fact, that most of us sign over for another two years."

Children Flee From Flash Fire—A flash fire ripped through a suburban children's home Monday night, but the youngsters—ranging in age from tots to teenagers—were herded quickly to safety.

Five firemen were overcome by smoke, but these were the only injuries reported.

Younger children were carried out in their beds, some of them sleeping through much of the excitement. There were about 100 children in the home when the blaze erupted.

The home started as an orphanage several years ago but lately has housed many children from broken homes.

Fire Safety Topic Of Talk Set Here—John S. Chapman, educational director for the Fry-Fyter company, will speak June 28 at 1:30 p.m. in Hedrick Junior High school.

Chapman plans to discuss various aspects of fire safety. He has a 20-year background in the fire safety field and for the past 10 years has devoted his time almost exclusively to lecturing about fire prevention.

His talks have included "The Organization and Training of a Plant Fire Brigade," "Main Causes of Industrial Fires," "Principles of Combustion," "Know Your Fire Extinguishers," and other current fire-safety topics.

Hatfield, Humphrey Write-in Leaders—Salem (UPI)—Official 1960 Oregon primary figures show that Gov. Mark Hatfield and Sen. Hubert Humphrey (D-Minn.) were ahead on a write-in basis for vice president in their respective parties.

Hatfield received 21,787 Republican votes for vice president, New York Gov. Nelson Rockefeller had 18,355 votes for vice president.

Humphrey got 20,715 Democratic write-in votes for vice president, Adlai Stevenson 10,664 and Sen. Wayne Morse 9,033.

There were no candidates on the ballot for vice president in either party.

The closure coincided with opening of summer school at nearby Multnomah college. John Griffin, president of Multnomah, said his school would admit Behnke-Walker students to its classes so they could complete whatever courses they are taking. Some 35 Behnke-Walker students were expected to take advantage of the arrangement.

'Tall People Week' Noted in Georgia

Atlanta (UPI)—This is "Tall People Week" in Georgia.

Gov. Ernest Vandiver solemnly proclaimed the occasion Monday in honor of the 14th annual convention of the American Affiliation of Tall Clubs. About 400 bean poles from throughout the United States and Canada gathered here for their convention.

One of the main features of the meeting will come Wednesday with competition among 16 beauties for the "Miss Tall America" title.
