

**AHEAD OF SCHEDULE**—Work on Ashland's new junior high school on Walker ave. is 75 per cent complete and Contractors Graff and James of Medford report they are ahead of schedule. Construction began last December and completion deadline is Sept. 1. School Superintendent Stanley Jobe expects an enrollment of nearly 700 seventh, eighth and ninth graders this fall.

# Out on a Limb

By BOB WALTERS

**An Ideal Site**  
Ashland's new junior high school should be a dandy. At least that's the impression I got after School Superintendent Stanley Jobe guided me through the million-dollar building Monday afternoon.

Work is now 75 per cent complete and the contractors, Graff and James of Medford, expect to have the job wrapped up by their Sept. 1 deadline. Construction began last December.

Jobe, who's understandably enthusiastic about the school, said he expects an enrollment of close to 700 seventh, eighth and ninth graders when it begins this fall. The two lower grades previously attended the old junior high and the ninth graders were crowded in with the high schoolers.

Technically, the school is on "the other side of the tracks" on Walker ave., but don't let the cliché fool you. If the site isn't ideal, it's just about the closest thing to it.

The 25-acre plot is surrounded by lush green fields, rolling hills and mountains. In fact, it made me wonder how the youngsters will be able to look out at scenery like that and still concentrate on algebra, biology or English composition.

There are 11 entrances, including the main one near the center, and the main corridor is some 400 feet long. An almost unique feature is that extensive use of ramps keeps stairs to a minimum—there are only two sets, both of which lead to the mechanical drawing room.

The two gymnasiums, one for the boys and one for the girls (naturally), are spacious and well planned. A large stage is being constructed in the girls' gym where programs can be presented to audiences of up to 700 persons.

Each grade will have an entire wing almost to itself. Classrooms are large and one side of each of them consists primarily of windows. Student lockers will be in the wings thus the main corridor will have an uncluttered appearance. Standing at one end of the main hall and looking toward the other end is similar to gazing through a long, long pipeline.

The large cafeteria can accommodate 400 hungry youngsters and will include a small stage for PTA programs and the like. Most banquets and student dances will be held there.

Other facilities include a music room (complete with soundproof individual booths to enable musicmakers to toot privately to their heart's content), an industrial arts workshop, an athletic team room, a student council meeting room, an arts and crafts room and science lab rooms with the latest in work tables.

The outside, too, has a lot of potential. The boys' athletic field will be at the far end of the property and that for the girls at the near end. The acreage behind the school will be a playground at first but Jobe hopes eventually to build tennis courts there.

What I found especially interesting was the heating system. Each room will have a separate oil heater, supplied from a 10,000-gallon tank buried at the far end of the building, and each teacher may regulate the temperature as he or she desires.

The school, naturally, is Jobe's pride and joy, and he also hopes the city may be able to afford a new senior high school one of these years.

But Mr. J. is a practical man. First things first.

# EP Jaycees' July 4 Celebration Planned

By DOTTIE HARBISON  
Mail Tribune Correspondent

Eagle Point—"Mardi Gras" has been selected as the theme for the all-day July 4th celebration in Eagle Point this year. This is the second year such a celebration has been planned for residents of the Rogue valley by the Eagle Point Junior Chamber of Commerce.

Two years ago the Jaycees sponsored their now famous breakfast and last year sponsored an all-day celebration in conjunction with the Centennial theme.

Festivities again will start with the Jaycees preparing "all you can eat" breakfasts of hot cakes, sausage or ham, eggs, coffee and milk. Serving will be between 8 a.m. and 1 p.m.

A queen contest is being sponsored in conjunction with the dedication of the new Eagle Point park and the new winner will be crowned by last year's queen, Norma Noble.

Activities for all ages, from the tiniest tots on up, will include sparklers, caps, balloons, carnival booths, concessions, snow cones, hamburger and food booths and other booths sponsored by various clubs and organizations.

A parade is scheduled to start at 1 p.m. It will carry out the Mardi Gras theme with prizes being given in five divisions: bands, motor powered vehicles, walking, mounted, and miscellaneous division for bicycles, etc. Entrants from all over the valley are welcome. Mrs. Gordon Peck, parade chairman, stated that she would accept entries by telephone at HI 6-3910 and would like to have people register as soon as possible so the route schedule could be made in advance.

The Eagle Point Grange will not be able to sponsor their barbecue dinner this year but food booths of various types will be open and picnic facilities are provided in the city park.

A Mardi Gras ball will close the all-day festivities with a king and queen being selected by their costumes. Everyone is asked to come in costume and to wear masks to the ball, which will be held on the tennis courts at 8 p.m. Judging of the costumes will begin at 11:45 p.m. and unmasking will be at midnight. Dancing will continue until 1 a.m. and a food and refreshment booth will be open.

The entire 4th of July celebration, with the exception of the parade, will be centered on the grounds of the two Eagle Point schools.

The Eagle Point Junior Chamber of Commerce has invited everyone in the valley to bring the family and enjoy a safe day of fun and celebration.

A percentage of all the afternoon's proceeds will be used for the Scout Community building and the new Eagle Point park.

# Judy Wilson Named Top Student at Ruch School

By MAUDE ZIEGLER  
Mail Tribune Correspondent

Applegate Valley—Judy Wilson, daughter of Mr. and Mrs. Willard Wilson, was selected as the outstanding eighth grade student at Ruch when awards were presented at recent outdoor exercises marking the close of school.

The award was made on the basis of citizenship, application, leadership, and scholastic achievement. Runners-up were Katherine Larson, Mary Anne Cantrall, and Richard Bottger.

Students completing the eighth grade, besides those mentioned, were Mary Anne Barker, Darlene Christean, Anthony Dahl, John Dahl, Janet Hawkins, John Woodram, and Carol Stevens.

Several children were recognized for individual achievements. Allen Rogers and David Hulbert, fourth grade pupils, were recognized for two years of perfect attendance. Mrs. Lucille McKemie, fifth and sixth grade teacher at Ruch for six years, and Mrs. Ruth Granby, primary teacher for five years, were presented corsages as farewell tokens. They will teach in the Medford city schools next year.

Principal Boyd Gibson was master of ceremonies. Students receiving band and athletic awards, presented by Steve Whipple and Bruce Matheny, were Mary Ann Cantrall, Mary Ann Barker, Darlene Christean, Katherine Larson, Judy Wilson, Marge Barker, Linda Best, Linda Bettencourt, Marlene Hall, Sheila Schlosser, Vicki Anderson, Clarine Hackett, Robert Straube, Lee Wels, Don Hackett, Edith Reinking, Stanley

## Hay Baler Turns 'Ornery'; Three Hurt in Hornbrook

By KATHERINE CHAPMAN  
Mail Tribune Correspondent

Hornbrook—That a hay baler can be an "ornery unpre-dictable critter" was learned the hard way this week by three local men.

First to make the discovery was a young man home on a 30-day leave from the Army, and prefers to remain unnamed.

After uneventfully helping his father, a prominent Hornbrook rancher, bale and load his first crop of hay, the young man drove to A. W. Spearin Jr.'s ranch to lend a hand with his crop, and had no sooner started on the job than he suffered a badly bruised and sprained right foot when the baler jammed on it.

He was taken to a doctor in Yreka and given treatment, and spent the rest of the week on crutches.

Second Victim  
Just two hours after the first accident, Spearin's father, A. W. Spearin Sr., 63, who also was helping his son, caught his right hand in the baler trying to remove a piece of wire while the machine was in motion. He was rushed to the Siskiyou General hospital in Yreka by a California Highway patrol officer who was sitting in his car nearby watching the baling operation.

It was at first feared that Spearin would lose two fingers, but it is now believed his hand will heal satisfactorily and remain intact.

The same balky baler later in the week was the cause of another mishap—this one less serious than the two previous ones. Its third victim was Tony Shelley, who lost his shirt when the baler caught fire.

The shirt was not on Tony at the time—he had taken it off to beat out the blaze with it. His hat, too, joined his shirt in the conflagration.

## GH Council Hears Talk on Water Supply Filtration

By MARY KELL  
Mail Tribune Correspondent

Gold Hill—Fred Mikals of Ranney Western Methods recently addressed a Gold Hill city council meeting on the water collection method used by this firm in providing filtered water supply to cities.

Mikals also showed film that illustrated the theory and working plans of this method, which filters the water underground. The water is then pumped into the reservoir or below the bed of a river. The council said it considered the information provided by Mikals as interesting and informative, but that it was in no position to take any action.

It is now planned to have an election called later this year to vote on the water filtration plant that has been under consideration for more than three years.

Mayor Milton Steinmetz conducted the session. He informed the council that he would be absent from the city during July and August. Fred Lester, president of the council, will act as mayor while Steinmetz is out of town.

A hearing on the 1960-61 city budget was opened by the mayor. There were no objections or questions concerning the budget so it was approved by the council.

Several councilmen raised a question as to whether Chief of Police Floyd Taylor intended to abide by instructions made to him by way of a motion duly made, seconded and carried at the May 2, council meeting. The motion required reports on police activities. Chief Taylor seemed opposed to making such reports but the council informed him that he would be expected to comply with its order.

An ordinance which provides for the vacation of certain streets in the Water Parks addition of the city was approved by the council.

The council decided that the laying of a 6-inch water main on Sixth ave. from Sixth st. to Eighth st. should be started now. Taylor had obtained a bid of 21 cents a foot from Ken Hughes for digging the water line trench. Some of the councilmen were of the opinion that at least one other bid should be obtained.

Following a motion passed by the council, Taylor was asked to get a price on trenching from at least one other source.

Frank E. and Marlys Stanton were present to submit their application for permit to operate tip; O. K. Pastime tavern. The application was approved by the council.

Action was taken by the council to request a property owner to cooperate by keeping the street (First ave.) south of his property free of old cars and car parts.

# Gazelle Teen-ager Killed in Jeep Crash

Yreka—Leslie Paul Meek, 16-year-old son of Mr. and Mrs. Edgar Meek of Gazelle, Calif., was killed Monday morning when his jeep overturned on the Moffett Creek road and crushed him.

Survivors are his father and mother, grandparents and a brother, Robert and sister, Linda.

He was freshman class secretary at Yreka High school, and a member of Future Farmers of America and the "C" track team.
