Let's Draw a Llama

By Ann Davidow

Draw a chair (in which to sit)

With fleecy wool all over it

And change it to a fleecy llama

Who's a proud and happy mama!

WHAT BIRD IS IT?

By Ruth Dixon

What a sweet whistling call this gay-colored bird has! Often he is seen flying toward his nest, a little woven hammock swinging way up on a tall tree-top. The nest is so strong it doesn't break even during the stormy winds of winter.

This shy little eight-inch bird goes north for the summer and south for the winter just as his cousins do. You can find him in orchards or gardens, dining on fruit and honey. His meat course pleases the farmer because he eats insects that destroy crops. The scientific name of this bird is *ICTERUS GALBULA*. Can you guess his everyday name and color him in his own beautiful colors?

THIS BIRD IS A _____

Rules for Contest

Guess the bird's name and color the picture neatly in its true colors. Send within one week to Ruth Dixon, Junior Treasure Chest, Family Weekly, P.O. Box 7740, Chicago 80, Ill. Be sure to send your name, age, and address with your page. Prizes will be awarded to two boys and two girls for the best entries. Try your luck! You may be a winner.

NEW HELP FOR MILLIONS WITH EAR WAX TROUBLE

New formula removes impacted ear wax safely, painlessly at home

An amazing number of people suffer from deeply impacted ear wax (cerumen). Some have it painfully removed with instruments. Others try poking it out with sharp objects and risk puncturing their ear drums. Still others do not even realize they have it. They only know their ears feel blocked and clogged. But until now, there has been no effective home remedy.

Recently scientists developed a new formula for removing stubborn ear wax. It works in minutes, without the pain of instruments. It is formulated of medically-tested ingredients used by doctors on thousands of patients—with astonishing results. This is the self-same formula you get in Kerid® Drops without prescription.

It is remarkable how fast New Formula Kerid Drops work. Suddenly your ears feel good again, clear, unblocked. Get Kerid today and feel the difference.

Dramatic Lifesaving Development!

The seven steps of the mouth-to-mouth method

- 1 Clear Victim's Throat of water, mucus, food.
- 2 Tilt Head back to open the air passage.
- 3 Hold Jaw in jutting-out position.
- 4 Pinch Nostrils to prevent air leakage, unless victim is a child.
- 5 Blow into mouth (and nose, if victim is a small child) until you see the chest lift.
- 6 Remove your mouth; listen for air return from victim's lungs.
- 7 Repeat about 12 times a minute for an adult, about 20 times a minute for a child.

"Rescue breathing" is the newest Red Cross lifesaving technique. Thousands of people already owe their lives to this new form of artificial respiration. Help Red Cross find even more new ways to save lives. This year—give all you can.

Good things happen when you give
