## Three Hornbrook Sales Noticed

Hornbrook - Several property sales have been reported in Hornbrook during the past few weeks.

Walter and Edith Reinhardt of Project City, Calif., have purchased property owned by the estate of the late Charles Spearin, his daughter Mrs. Wayne Cummins has announced. The property, located on Second st., includes approximately one acre of land, a five room house, garage, barn, and chicken house.

Another piece of property

reported to have changed hands last week is the McCreary place at the junction of Highway 99 and Henley Way. Also known as the old Fowler place, it has reportedly been sold to George V. Michaels Jr., an inspector at the local California quarantine station.

A third piece of property, belonging to Mrs. Mollie Cole, has been sold to Mr. and Mrs. Art Hartman of Hills, who plan to take possession on Aug. 1.

## Gold Hill Firemen Ask Extra Caution

Gold Hill-Officials of the Gold Hill volunteer fire department have requested that extreme caution be used at this time by residents of the city in order to prevent grass fires.

A warning has been issued to parents to supervise their children when they are playing with sparklers. Officials say that fire regulations are now in effect and will be enforced.

# Phoenix Water Rationing Ends; New Pumps, Wells Operating

By HELEN NIKODYM  
Mail Tribune Correspondent  
Phoenix - Water rationing ended yesterday at Phoenix, according to Mayor Arthur Mackintosh.

"Phoenix now has all the water it can use now and enough for twice its population," Watermaster Irving Hanscom remarked.

City Councilman V. C. Clafin explained that Phoenix is now served by a circular water system so that any part of it may be cut off, yet the water can be rerouted through the remaining portion in case of emergency or routine repairs.

The system includes the new Hacienda Park subdivision at the south end of Phoenix.

**Wells Operating**  
The city has four wells and four pumps in operation. The two old ones together produce 200 gallons of water per minute. The two new wells and pumps produce 150 gallons per minute and 215 gallons per minute. Any of these can be cut off and the remaining pumps or pump can be used to pump the water, Hanscom explained.

The city council was authorized to spend \$25,000 for

the chlorinator, pumps, wells, pump houses and a wooden covering for the city's reservoir. The money came from the city's general obligation bond of \$25,000 approved by the voters earlier.

Earlier this year Phoenix purchased seven acres of land near the Fountain lumber mill for the two new wells. The reservoir and older facilities are located nearby.

Final hookup of the system was made yesterday or 30 days ahead of the contract schedule. W. H. Conrad company, Medford, was the contractor. Marcus and Marcus engineering (I r m, Medford), wrote the specifications and drew up the plans for the two pumphouses.

California Oregon Power company installed new transformers and power poles to serve the two new pumps. The two pumps are driven by line-shaft turbines, one 15 horsepower and the other five horsepower.

The water system project represents a full year of work and many late night sessions by the Phoenix city council members. Those working on the project were the mayor, city council members D. P. Foxworthy, V. C. Clafin, Fay Carver, Mona Fern, John Classen and Willard F. Seitzinger.

Next possible future city water project will be construction of a second water reservoir on Graveyard hill above the present reservoir, the watermaster said.

**MIGHTY BIG FISH!** - Milton Epperson, and Mrs. Arthur Tomlin, Phoenix. The fish Phoenix, stands beside the 25-pound salmon he caught in the Rogue River near Shady Cove Tuesday. Holding the fish for him are Ruth, 11, and David, 9, children of Mr.

## New CP Library To Open Friday

By VIOLA COOK  
Mail Tribune Correspondent  
Central Point - The new Central Point library will be opened with a silver tea at noon Friday.

The library has been closed during the past few weeks while it was moved from its former location, next to the fire department, to the new location in the new City Center building.

Coffee, punch and cookies will be served at the library, Friday, until 3 p.m. Proceeds will be used to buy library equipment.

Members of the Garden club will have a floral display for the occasion. A window display prepared by James Fisher, state farm forester, will encourage adults and children to read books on forestry.

New hours will go into effect with the July 1 opening and will consist of 30 instead of the former 10 hours per week. The library will be open five days a week, Monday through Friday, from noon until 5 p.m. Both Tuesday and Thursday evenings, from 6:30 to 9 p.m., will be open for patron's convenience.

Young people from outlying districts who have found it difficult to use the library during the school term because of their bus schedules will find the noon hour opening an opportunity to check out books.

**Construction**  
Housed in the new Civic building, the library will occupy the western half of the building with entrance on Pine st. The building is of pine stone construction, will have paneled heating, and will be painted a light green on the outside and yellow inside.

Shelves formerly in use

have been repaired and repainted. New reference shelves for small children have been built. All shelves, except the small children's, have been painted a turquoise blue.

The shelves for the small children have been built with dividers every 18 inches to enable small children to return books to the shelves without trouble. This shelf has been painted bright red.

A filing cabinet for the vertical file will also be added.

The Central Point library is a branch of the county system with headquarters in the Medford library. Omar Bacon is the head of the county system.

The library is a member of the county's rotating book program. In this way, new books arrive each month.

**Recent Changes**  
The Jackson county system affecting the local library include the abolishing of request charges. Patrons may now have requests sent in the weekly shipment of books or mailed to them if request is urgent.

Books taken from any branch of county system may now be returned to nearest library. Cards may also be used at any branch or at the main library.

A summer reading program with a Smokey Bear theme will be in progress this summer. Seventy-five children have signed up for the club.

Children must be between the ages of six and 14 and must complete the reading of 10 books, including three on nature. A party is planned for all children completing the program.

A story hour for children of pre-school age through the age of eight will be held each Tuesday morning from 10:30 to 11:30.

**Happy Camp Men Receive Free Trip**  
Happy Camp - Sixteen men from the Siskiyou Mills of Happy Camp received an all-expense-paid trip to San Francisco recently. Hosts for the trip were Robert Hardy and John Crooks, owners of the mill.

Included on the trip were Joseph Spence, Willard Titus, David Hutton, Elmer Yates, Charles Wright, Harold Gull, Bill Clapson, Buddy Chafant, Guy Shuggs, Albert Attebery, Benny Attebery, Pat McCauley, Wilber Bridenstine, Ed Coleman, "Tiny" Simpson and Arnold Davis.

## Humboldt's 'Bigfoot' Tracks Seen Again

Eureka - Humboldt county's mysterious "Bigfoot" was reported again last week.

An orthopedic surgeon and a trapper, who discovered "Bigfoot's tracks" were both convinced that the "Bigfoot" stories might be true.

The surgeon, Dr. Charles Johnston of San Jose, Calif., his family, and George Amann, a trapper and friend of the family, were awakened during the night while camping in the Bluff Creek region, eight miles north of Weitchpec.

Thinking that the noise that had awakened them was made by some stray animal, the men paid no attention.

In the morning, however, they found the fabled prints of "Bigfoot."

Only four of the prints were clear, but the men were able to follow the distorted ones upstream.

**Led to Cave**  
There they saw the tracks again on the far side of the river near a cave. The men were unable to ford the stream without ropes and were unable to understand how "Bigfoot" was able to get across since the river was so deep.

Amann said that the prints, 16 to 18 inches in length, were not camouflaged or manufactured in any way. The toe and heel marks were perfect, he said, and the creature walked in a leisurely way.

The stride measured from three and one half to four feet, he said.

Dr. Johnston said that the prints were definitely the prints of human feet with huge toes. The feet were narrow in proportion to the length and the creature walked flatfooted, he said.

**Explanation**  
The doctor had only one explanation to the mystery. He said that a motorist had approached them the night before and said that he was planning to nap in his car down the road.

He parked his car about a block away and apparently went to sleep.

The next morning he was gone.

Johnston said that at first he thought that the man had gone to the river to swim, but the doctor said that he couldn't believe that the man had feet to match the prints that were found.

**Hatfield Passenger List Authorized**  
Salem - UPI - Gov. Mark Hatfield carried no unauthorized passengers when he flew to Glacier, Mont., Sunday for the national governor's conference, Oregon Military Department sources said here Tuesday.

Montana National Guard officials said they noted apparent violations by some governors who arrived in National Guard planes.

Major Harvey Lathan of Oregon Military Department headquarters said the Pentagon approved Hatfield's passenger list. He took with him Mrs. J. L. Siegmund, his secretary; Conrad Joyner, a political intern on the Hatfield staff for one year; Gerald W. Frank, Salem, chairman of Hatfield's advisory committee to the Planning and Development Department; and Oregonian Political Writer Merwin Shoemaker.

**RATTLESNAKE KILLED**  
Tiller - A rattlesnake sporting ten rattles was killed by Bud McCutcheon of Tiller on the Diamond Rock rd. last week.

## Regional Calendar

Applegate Valley - The regular meeting of the Little Applegate sewing club will be held at the home of Mrs. Nelson Pursel, Thursday, at 1:30 p.m.

Gold Hill - The Adult Bible study group of the Gold Hill Christian church will meet Thursday at 7:30 p.m. at the church. Miss Jean Cunningham, minister of the church, will be in charge of the lesson.

Gold Hill - The Gold Hill city council will meet Thursday, at 7 p.m. in the city hall to resume routine business of the last regular session, June 6. This is not a special meeting. It will be a continuation of the regular one to finish up the fiscal year business which must be completed by July 1.

**ATTEND CONFERENCE**  
Illinois Valley - Delegates to the recent Oregon State Rural Fire Directors Association convention included Hal Moore, president; Phil Kellar, volunteer firemen's representative; and Vibert Kirk, district fire chief.

With the incidence of polio climbing sharply, about \$5 million in health insurance benefits have been paid to polio victims by insurance companies during 1959.

## Public Library To Change Hours

Jacksonville - The Jacksonville library will change its hours effective July 1. Mrs. Helen Roberts, Jacksonville librarian, announced.

The library will be open each day, Monday through Friday, from noon until 5 p.m. On Saturdays the library will be open from 9 a.m. until noon especially to accommodate out-of-town patrons, Mrs. Roberts said.

These hours will be effective the year around, giving the residents here 30 hours a week that they may use the library.

**EP BUDGET PASSED**  
Eagle Point - The Eagle Point city budget was passed unopposed at the final hearing, Monday.

## LIBRARY CLUB FORMED

Gold Hill - A Smokey Bear club has been started at the Gold Hill public library. To belong a child must read ten books, three of which are about conservation.

A computer has actually written a book. The 4 1/2 pound volume of "Angular Indexing Tables" was prepared in 112 hours and would have taken two mathematicians two years.
